Nato Enlargement And Central Europe A Study In Civil Military Relations:

NATO Enlargement and Central Europe Jeffrey Simon, 1996 Dotyczy m in Polski **Civil-Military Relations in Russia and Eastern Europe** David Betz, 2004-07-31 This book examines how civil military relations have been transformed in Russia Poland Hungary and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991 It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened democratic political institutions which have the right to oversee the armed forces **NATO Enlargement** Ted Galen Carpenter, Barbara Conry, 1998 The decision to expand NATO eastward is a fateful venture that has received surprisingly little public attention Advocates of enlargement insist that the step will foster cooperation consolidate democracy and promote stability throughout Europe But the contributors to this volume conclude that an expanded NATO is a dubious potentially disastrous idea Instead of healing the wounds of the Cold War it threatens to create a new division of Europe and undermine friendly relations with Russia Even worse it will establish expensive dangerous and probably unsustainable security obligations for the United States **Defense Reform in Central Europe and the Challenges of NATO Membership** Brad A. Gutierrez, 2002 Since the end of communism in Central Europe the former Soviet satellite states have sought closer relations with the West An immediate goal was membership in NATO To meet the conditions of membership the former Warsaw Pact members had to make significant reforms within their defense establishments that would meet NATO s interoperability requirements Despite the incentive of potential NATO membership the development and implementation of such reforms has been slow The objective of this study is to answer the research question Why has defense reform proven so elusive in an environment where key actors agree on the desirability necessity and the benefits of its formulation and implementation **Civil-military Relations After the Nation-state** Glen Segell, 2000 **Transforming the Armed Forces of Central and East Europe** Jeffrey Simon, 2000 **The Future of NATO Expansion** Zoltan Barany, 2003-07-21 In 1999 three East Central European states Poland Hungary and the Czech Republic gained membership in the North Atlantic Treaty Organization Professor Barany argues that once it began the Alliance should continue the enlargement process Nevertheless he maintains that only states that satisfy NATO s membership criteria should be allowed to join Through an extensive analysis of four countries Bulgaria Romania Slovakia and Slovenia who at the time of the book s original publication in 2003 were NATO aspirants Barany demonstrates that they were in several important respects unprepared for membership and that there was no pressing reason for NATO s haste Barany argues that while NATO should be clear that its doors remain open to qualified candidates the Alliance should hold off further expansion until prospective members will become assets rather than liabilities **Essays on Civil-military Relations, Military-industrial Relations, Aircraft Weapon Procurement and International Relations** Glen Segell, 1998 Anatomy of Post-Communist European

Defense Institutions Thomas-Durell Young, 2017-06-29 Although the West won the Cold War the continuation of the status quo is not a foregone conclusion The former Soviet aligned regions outside of Russia Ukraine Poland Czech Republic and others sit atop decaying armed forces while Russian behavior has grown more and more aggressive as evidenced by its intervention in Ukraine in recent years Thomas Young delves into the state of these defense institutions in Central and Eastern Europe whose resources have declined at a faster rate than their Western neighbors due to social and fiscal circumstances at home and shifting attitudes in the wider international community With rigorous attention to the nuances of each region s politics and policies he documents the status of reform of these armed forces and the role that Western nations have played since the Cold War as well as identifying barriers to success and which management practices have been most effective in both Western and Eastern capitals This is essential reading for undergraduates and graduates studying the recent history of Europe in the post Soviet era as well as those professionally involved in defense governance in the region

NATO's New Mission Rebecca R. Moore, 2007-02-28 Reports of NATO s death have been greatly exaggerated Characterizations of NATO as a relic of the past do not square with the fact that the Alliance is busier today than at any time in its history As Europe has become more unified and more democratic NATO has assumed new layers of significance in the global security environment In a post September 11 world the old 1990s debate about what is in area and what is out of area is a luxury that the Alliance can no longer afford Decisions made at the 2004 Istanbul summit aimed at enhancing NATO s partnerships with the states of Central Asia and extending the partnership concept to the Greater Middle East reflect the Alliance s new more global presence as do new military missions in Afghanistan Iraq and Sudan Moore argues that a careful analysis of NATO s new more global focus suggests that it s not the nature of NATO s mission that has changed but rather its scope NATO is approaching its new out of area missions with the political tools developed after the Soviet threat faded in the early 1990s when the Allies agreed that rather than merely defend an old order they would now create a new one grounded in liberal democratic values including individual liberty and the rule of law Indeed the mission of projecting stability eastward was understood to be inextricable from the promotion of these values This new mission required that NATO devote greater attention to its political dimension In fact as the United States turned to promoting democracy around the world in the wake of September 11 it ultimately sought to enlist NATO in its mission of extending democracy beyond Europe to Central Asia and the Middle East As Moore demonstrates in her attempt to provide a full and comprehensive understanding of the new NATO while divisions within the Alliance persist as to just how global NATO should be the post September 11 security environment ensures that NATO s survival depends upon its willingness to project security beyond Europe That mission will be as much political as it is military

Soldiers and Societies in Postcommunist Europe A. Forster, T. Edmunds, 2003-09-08 This major comparative study examines the development of military society relations in central and eastern Europe since the collapse of communism Soldiers and Societies in Post Communist Europe explores how the interaction of the common

challenges of postcommunism and the diverse circumstances of individual countries are shaping patterns of military society relations in this changing region Detailed country case studies written by international experts to a common analytical framework compare the experiences of Poland the Czech Republic Slovakia Hungary Latvia Lithuania Romania Bulgaria Slovenia Croatia Yugoslavia and Ukraine

International Intervention in the Post-Cold War World Michael C. Davis, Wolfgang Dietrich, Bettina Scholdan, 2017-07-28 International intervention on humanitarian grounds has been a contentious issue for decades First it pits the principle of state sovereignty against claims of universal human rights Second the motivations of intervening states may be open to question when avowals of moral action are arguably the fig leaf covering an assertion of power for political advantage These questions have been salient in the context of the Balkan and African wars and U S policy in the Middle East This volume undertakes a serious systematic and broadly international review of the issues

Joint Force Quarterly, 1999 Joint Force Quarterly is published for the Chairman Joint Chiefs of Staff by the Institute for National Strategic Studies National Defense University to promote understanding of the integrated employment of land sea air space and special operations forces The journal focuses on joint doctrine coalition warfare contingency planning combat operations conducted by the unified commands and joint force development

Bridging the European Divide Joshua B. Spero, 2004-10-20 Do middle powers matter geopolitically to great powers when confronting the unconventional twenty first century threats from nation

states or nonstate actors Bridging the European Divide explores how key regional middle powers perceived and advocated their political power options in the aftermath of September 11 2001 **Monthly Catalog of United States Government Publications** ,1995 **Monthly Catalogue, United States Public Documents** ,1995
