Sotiropoulos,Thanos Veremis,2013-10-11 Considering the enormous problems of the Balkans during the 1990s the experts who contributed to this study believe that there are solutions to the seemingly intractable situation and the legacy of the disintegration of the former Soviet Union International Intervention in the Post-Cold War World Michael C. Davis,Wolfgang Dietrich,Bettina Scholdan,2017-07-28 International intervention on humanitarian grounds has been a contentious issue for decades First it pits the principle of state sovereignty against claims of universal human rights Second the motivations of intervening states may be open to question when avowals of moral

action are arguably the fig leaf covering an assertion of power for political advantage. These questions have been salient in the context of the Balkan and African wars and U.S. policy in the Middle East. This volume undertakes a serious systematic and broadly international review of the issues.

NATO in the Crucible Deborah L. Hanagan, 2019-09-01. When the North Atlantic Treaty Organization (NATO) became involved in security operations during the War in Afghanistan, it faced a range of complex challenges, including a highly motivated Afghan insurgency that changed over time and repeatedly defied assumptions. Conflicts within NATO also posed challenges. The alliance brought together a quarter of the world's nations, each with its own goals and interests, in an effort to stabilize an agrarian country that posed no immediate security threat. For more than a decade, through changes in leadership and strategy, the nations experienced bitter disagreements, resentments, and a conflict that escalated to a level of violence and uncertainty few had anticipated. In *NATO in the Crucible*, Deborah Lynn Hanagan analyzes these challenges and explains how the alliance maintained cohesion despite them. She examines why NATO succeeded in Afghanistan when history suggests most coalitions fracture under such intense pressure. In the end, she argues member nations summoned the political will and organizational capacity to cooperate and endure. And they agreed: above all, that failure in Afghanistan would be catastrophic both for NATO and for the world.

NATO Review, 2000. The Future of the American Military Presence in Europe Lloyd J. Matthews, 2000. Ten years have elapsed since the fall of the Berlin Wall, which served as a fitting symbol for the end of the Cold War. That historic juncture brought into question the North Atlantic Treaty Organization, which has served Alliance members so well since its founding in 1949. It also brought into question the rationale for America's continued deep involvement in European security affairs. With the gradual realization that the Russian menace is essentially dead at least for the next 10 to 15 years, and perhaps longer, and with NATO's missions having evolved well beyond the original purpose of territorial defense, debate on both sides of the Atlantic has begun to intensify concerning the vital issue of where NATO should be headed and America's relation to the Alliance. To bring an array of informed voices to the debate, four institutions—the Office of the Assistant Vice Chief of Staff of the U.S. Army, the Strategic Studies Institute of the U.S. Army War College, the Irving B. Harris Graduate School of Public Policy Studies of the University of Chicago, and the Program on International Security Policy at the University of Chicago—joined hands to sponsor a symposium titled *The Future of U.S. Military Presence in Europe*, held at the University of Chicago on August 4, 1999. The present book is an outgrowth of this symposium. It is not designed to set forth a literal record of words and events in the mold of the traditional symposium proceedings but rather is organized as an anthology of individual chapters complemented by selected questions, answers, and comments by symposium participants and attendees.
