The Natural Classical Guitar Lee F. Ryan, 1984-01-01 **The Natural Classical Guitar** Lee F. Ryan, Arzetz, 1990-06-01 **Natural Classical Guitar** Lee F. Ryan, 1991-10-16 This work promotes the holistic approach with ten principles for easier guitar playing **The Natural Classical Guitar** Lee F. Ryan, 1991 Guitar Ergonomics Martín Pedreira, 2021-01-06 As the title of his book attests guitarist and musicologist Mart n Pedreira presents a methodical treatment addressing the most highly refined guitar techniques In my opinion we should not confuse the methodical with the routine because the latter does not facilitate the completion of any task We applaud Pedreira for his rigorous vision of instrumental practice and his meticulous attention to the physical motor aspects of the instrumentalist This reference book is worthy of frequent consultation for its valuable suggestions Leo Brouwer This comprehensive reference book integrates the historical structural technical and ergonomic aspects of classic guitar performance with the individual player s cultural intellectual creative and emotional facets in what the author calls a psychophysiological approach to interpretation In addition to its emphasis on ergonomic posture and technique the book includes over 200 short musical excerpts by Sor Giuliani Coste T rrega Barrios Montoya Ponce Pujol Villa Lobos Rodrigo Brouwer and others illustrating practically every aspect of classic and flamenco guitar technique This unique Wholistic Perspective of Technique Through Repertoire will be useful to teachers aspiring composers and to students and professionals forming recital and concert programs Given the author s extensive survey of technique and repertoire from an ergonomic point of view it is likely that even seasoned concert artists and teachers will find something new of intense interest to share with their audiences and students No classic guitarist s library would be complete without this landmark book The author s goal in presenting this multifaceted approach is to provide theoretical and practical coordinates for improving guitar interpretation while acknowledging the player s intellectual and emotional contributions While there is no companion recording for this book many of its examples can be heard in their entirety on YouTube The inclusion of numerous quotes from renowned guitar virtuosos and other instrumentalists plus statements by non musician artists scientists and psychophysical experts from the Renaissance to the present day emphasize the wholistic nature of this book Readers are encouraged to put everything they have into their performances including technique and musicianship of course but also general cultural knowledge and yes personal experience feelings and even spirituality in order to Enchant instead of astonishing the audience and play more for the heart than for the eyes Alexandre Lavignac *La Educaci n Musical* **The Guitar Review** ,1984 **New Age Journal** ,1984 **Jots and Titles** ,1985 **New in the NTSU Music Library** North Texas State University.
