debates of our time **BOOK JACKET** *The Soviet Passport* Albert Baiburin, 2021-11-03 In this remarkable book Albert Baiburin provides the first in depth study of the development and uses of the passport or state identity card in the former Soviet Union First introduced in 1932 the Soviet passport took on an exceptional range of functions extending not just to the regulation of movement and control of migrancy but also to the constitution of subjectivity and of social hierarchies based on place of residence family background and ethnic origin While the basic role of the Soviet passport was to certify a person's identity it assumed a far greater significance in Soviet life Without it a person literally disappeared from society It was impossible to find employment or carry out everyday activities like picking up a parcel from the post office a person could not marry or even officially die without a passport It was absolutely essential on virtually every occasion when an individual had contact with officialdom because it was always necessary to prove that the individual was the person whom they claimed to be And since the passport included an indication of the holder's ethnic identity individuals found themselves accorded a certain rank in a new hierarchy of nationalities where some ethnic categories were normal and others were stigmatized Passport systems were used by state officials for the deportation of entire population categories the so called former people those from the pre revolutionary elite and the relations of enemies of the people But at the same time passport ownership became the signifier of an acceptable social existence and the passport itself the information it contained the photographs and signatures became part of the life experience and self perception of those who possessed it This meticulously researched and highly original book will be of great interest to students and scholars of Russia and the Soviet Union and to anyone interested in the shaping of identity in the modern world **Dispute Settlement Reports 2008: Volume 6, Pages**

Wilmer, 2000 What ever happened to silence Actually nothing and Harry Wilmer takes great pains to show how we have submerged it under a toxic barrage of noise Using both clinical examples of the power of silence from his case histories and cultural values of silence he uncovers a astonishing theme in the Japanese idea of MA as silence Wilmer points out how silence gives meaning to words dreams thought action and music From his long experience as a Jungian analyst he weaves his ideas into an eminently practical treatise on the phenomenology of silence With many references to literature as well as his personal life experiences and crises he offers a readable and important new story of the universal and spiritual significance of silence in a world of jackhammer noise **Dispute Settlement Reports 2001: Volume 5, Pages**

**1777-2074** World Trade Organization, 2004-04 The authorized paginated WTO Dispute Settlement Reports in English cases for 2001 **Responsibility and Freedom** Robert Gianni, 2016-02-11 Responsible Research and Innovation appears as a paradoxical frame hard to conceptualize and difficult to apply If on the one hand research and innovation appear to follow

logics blind to societal issues responsibility is still a blurred concept interpreted according to circumstances Different perspectives are implied in the RRI discourse rendering difficult also its application because each social dimension proposes a different path for its implementation This book will try to indicate how such conflictual understanding of RRI is caused by a reductive interpretation of ethics and consequently of responsibility The resulting framework will represent an ethical approach to RRI that could help in overcoming conflictual perspectives and construct a multi layer approach to research and innovation
