Quest Ce Que Le Structuralisme I:

Qu'est-ce que le structuralisme ? (5) François Wahl, 1973-01-01 T00:00:00+01:00 Philosophie Qu'est-ce que le structuralisme en philosophie La question se pose et se retourne aussitôt y a-t-il un structuralisme en philosophie Du côté de la science les chercheurs Lévi Strauss les linguistes Lacan qui se donnent ou se sont un moment donnés pour structuralistes refusent légitimement la qualification de philosophes De l'autre côté des philosophes Foucault Althusser Derrida qui ont emprunté aux sciences structurales nombre de concepts refusent de se laisser confondre avec une prétendue pensée structuraliste La question que pose le philosophe est donc où en est le discours philosophique après l'avènement des sciences structurales François Wahl Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy **Michel Foucault** Barry Smart, 1994 Les Intellos ou la dérive d'une caste Daniel S. Schiffer, 1995 Handbook of Diachronic Narratology Peter Hühn, John Pier, Wolf Schmid, 2023-07-24 This handbook brings together 42 contributions by leading narratologists devoted to the study of narrative devices in European literatures from antiquity to the present Each entry examines the use of a specific narrative device in one or two national literatures across the ages whether in successive or distant periods of time Through the analysis of representative texts in a range of European languages the authors compellingly trace the continuities and evolution of storytelling devices as well as their culture specific manifestations In response to Monika Fludernik's 2003 call for a diachronization of narratology this new handbook complements existing synchronic approaches that tend to be ahistorical in their outlook and departs from postclassical narratologies that often prioritize thematic and ideological concerns A new direction in narrative theory diachronic narratology explores previously overlooked questions from the evolution of free indirect speech from the Middle Ages to the present to how changes in narrative sequence encoded the shift from a sacred to a secular worldview in early modern Romance literatures An invaluable new resource for literary theorists historians comparatists discourse analysts and linguists **Concept and Form, Volume 1** Peter Hallward, Knox Peden, 2012-12-12 Concept and Form is a two volume monument to the work of the philosophy journal the Cahiers pour l'Analyse 1966-69 the most ambitious and radical collective project to emerge from French structuralism Inspired by their teachers Louis Althusser and Jacques Lacan the editors of the Cahiers sought to sever philosophy from the interpretation of given meanings or experiences focusing instead on the mechanisms that structure specific configurations of discourse from the psychological and ideological to the literary

scientific and political Adequate analysis of the operations at work in these configurations they argue helps prepare the way for their revolutionary transformation This first volume comprises English translations of some of the most important theoretical texts published in the journal written by thinkers who would soon be counted among the most inventive and influential of their generation Alain Badiou Yves Duroux Alain Grosrichard Serge Leclair Jacques Alain Miller Jean Claude Milner and François Regnault The book is complemented by a second volume consisting of essays and interviews that assess the significance and legacy of the journal and by an online edition of the full set of original Cahiers texts produced by the Centre for Research in Modern European Philosophy at Kingston University London and accessible at cahiers.kingston.ac.uk

Semiotics of Deceit Donald Maddox, 1984 Deceit was a salient theme in medieval French drama and nowhere was it developed to a higher degree than in the fifteenth century comic masterpiece *Maistre Pierre Pathelin* whose deceptive strategies have been praised for centuries for their astonishing variety and amazing human insight This volume includes Alan Knight's admirably lucid and engaging translation of the drama while the body of the work is devoted to Donald Maddox's critical analysis of it

Structuralists and Structuralisms Josué V. Harari, 1984

Guattari Beyond Deleuze Carlos A. Segovia, 2024-11-08 This book argues that by virtue of his original and ongoing contribution to ontology and modal philosophy from the texts gathered in *Psychanalysis and Transversality* to the unpublished manuscript notes for *What Is Philosophy* Guattari is to be acknowledged a philosopher in his own right independently from Deleuze Furthermore it looks back and forth beyond *Anti Oedipus* and contends that Guattari's major writings gradually supplement deterritorialization with determinability Accordingly it offers a new interpretation of the nuanced development of Guattari's philosophical thought which it proposes to define as constructivist rather than post structuralist Additionally it explores the innovative responses that Guattari's philosophy supplies to various contemporary philosophical debates like those on accelerationism indeterminacy compossibility and worlding Finally it examines the differences that upon a careful cross reading of their earliest texts including *The Anti Oedipus Papers* and *Difference and Repetition* must be drawn between Guattari's constructivism and Deleuze's sacrificial philosophy

Why There Is No Poststructuralism in France Johannes Angermüller, 2015-10-08 French thinkers such as Lacan and Derrida are often labelled as representatives of poststructuralism in the Anglophone world However in France where their work originated they use no such category this group of theorists the poststructuralists were never perceived as a coherent intellectual group or movement Outlining the institutional contexts affinities and rivalries of among others Althusser Barthes Foucault Irigaray and Kristeva Angermüller drawing from Bourdieu's concepts of cultural capital and the academic field insightfully explores post structuralism as a phenomenon By tracing the evolution of the French intellectual field after the war *Why There is No Poststructuralism in France* places French Theory both in the specific material conditions of its production and the social and historical contexts of its reception accounting for a particularly creative moment in French intellectual life which continues to inform the

theoretical imaginary of our time **Qu'est-ce que l'éthique clinique?** Gilles Voyer,1996 L thique clinique est cousine de la bio thique en ce qu'elle tente de clarifier toutes les décisions incertitudes conflits de valeurs et dilemmes auxquels les médecins et les équipes médicales sont confrontés au chevet des malades Le développement rapide des technologies biomédicales nécessite que son laboratoire travaille en parallèle et au même rythme une réflexion éthique La culture technoscientifique tendance à clipser l'importance d'une véritable méthode de délibération au cas par cas en direction du bien de tous L'auteur étudie la transformation progressive de l'expérience clinique sous l'impulsion des poussées et découvertes scientifiques S'inspirant des écrits d'Aristote il propose une conception renouvelée de l'éthique clinique laborée à partir de l'expérience de la clinique
