Redefining the U.S.-Japan Alliance Tokyo's National Defense Program, McNair Paper 31, U.S. Department of Defense, 1995 National Defense University, *Japan's Defense Policy and Bureaucratic Politics, 1976-2007* Takao Sebata, 2010-06-05 It is a well known fact that Japan spends only a small percentage of her gross national product on defense What is not well known however is the fact that Japan's defense budget ranks among the top in the world and that her self defense forces are considered to be amongst the best conventional armed forces in the world Since empirical studies concerning Japan's military expansion are rare both in Japanese and English the book takes up this neglected area It examines Japan's military expansion and the decision making of her defense policy between 1976 and 2007 focusing on the National Defense Program outline and the guidelines for United States Japan Defense Cooperation This book deals with how the bureaucratic politics model applies to the case of Japan's defense policy and demonstrates some similarities and differences between Japanese and United States decision making Rethinking Japanese Security Peter J. Katzenstein, 2008-03-11 Since the unexpected end of the Cold War standard arguments about power politics can no longer be adopted uncritically This has led to a renewed interest in Japan's unusually peaceful security policy Japan's championing of comprehensive security is central to this collection Peter J Katzenstein's essays explore this concept which not only

encompasses traditional military concerns but also domestic aspects of security The book's focus on counter terrorism and national security highlights a policy approach which over decades Japan has developed with political patience and diplomatic finesse These essays advocate an eclectic approach that helps in recognizing new questions and that seek to combine elements from different analytical perspectives in the exploration of novel lines of argument Additionally the book features an entirely new substantial introduction that explores and elaborates the themes of the collection while bringing it up to date This collection will be of significant interest to students and scholars of Japanese politics security studies and international relations

The Korean Peace Process and the Four Powers Tae-Hwan Kwak, 2018-12-20 This title was first published in 2003 After the inter Korean Summit in 2000 the Korean peace process gained a new momentum and the two Koreas increased mutual contacts and exchanges However in 2001 the peace process stalled and was further hindered by Bush's hard line policy towards Pyongyang and North Korea's inflexible attitudes towards Seoul Interest in the Korean peninsula by the US Russia Japan and China for geo strategic and geo economic reasons means that peace and unification will inevitably become an international problem Against this backdrop this original volume deals with the problems and prospects of the inter Korean peace process and the interests attitudes and policies of these major powers

McNair Papers National Defense University, Mobilizing U.S. Industry in World War II Alan L. Gropman, 1996 **Managing crises in defense industry** Steven R. Linke, 1996 National planning for the expeditious recovery and expansion of essential industrial production facilities is often geared only to largescale declared emergencies Under the worst scenario of a global war all necessary authorities and funding are assumed to be available But more often lesser emergencies require responses without the broad powers and commitment associated with a declared national emergency A real emergency can provide insight into the appropriateness of planned management approaches and the adequacy of available authorities This account of two actual emergencies provides

lessons on how statutory procedures could be improved regulations clarified the government data base expanded and steps taken to speed up the process to be followed in the event of other crises In May 1988 the United States lost half of its capacity to produce ammonium perchlorate when explosions and fire destroyed one of the two producing plants Ammonium perchlorate is the oxidizer essential to solid fuel rocket motors Here without question was an excellent test case Existing ammonium perchlorate had to be carefully allocated and additional production capacity was needed numerous ongoing production programs for both strategic and conventional systems needed the product and some would be curtailed if sufficient ammonium perchlorate was not available This paper documents the government's actions and decision making process in dealing with various legal and administrative hurdles in both restoring the capacity and allocating available ammonium perchlorate

New Directions in Japan's Security Paul Midford, Wilhelm Vosse, 2020-09-06 While the US Japan alliance has strengthened since the end of the Cold War Japan has almost unnoticed been building security ties with other partners in the process reducing the centrality of the US in Japan's security This book explains why this is happening Japan pursued security isolationism during the Cold War but the US was the exception Japan hosted US bases and held joint military exercises even while shunning contacts with other militaries Japan also made an exception to its weapons export ban to allow exports to the US Yet since the end of the Cold War Japan's security has undergone a quiet transformation moving away from a singular focus on the US as its sole security partner Tokyo has begun diversifying its security ties This book traces and explains this diversification The country has initiated security dialogues with Asian neighbors assumed a leadership role in promoting regional multilateral security cooperation and begun building bilateral security ties with a range of partners from Australia and India to the European Union Japan has even lifted its ban on weapons exports and co development with non US partners This edited volume explores this trend of decreasing US centrality alongside the continued and perhaps even growing security inter dependence with the US

New Directions in Japan's Security is an essential resource for scholars focused on Japan's national security It will also interest on a wider basis those wishing to understand why Japan is developing non American directions in its security strategy

French Security Policy in Transition Robbin Frederick Laird,1995

Since 1989 French defense and security policy has been undercut by changes in the external environment and domestic pressures to deal with the challenge of economic modernization The Soviet revolution of 1989 the reunification of Germany the collapse of the Soviet Union and the experience of coalition warfare during the Gulf War all have challenged the assumptions and realities underlying the Gaullist synthesis Above all the French position on security independence has been put into question The main hope has been for a European Alliance to supplant the American one over time in the face of a gradual process of change within Europe but change has not been gradual within Europe The European Union is challenged by discontent within Western Europe A new Central Europe has emerged that has yet to find its place in European or global politics A new Russia is emergent in which nationalism is defining an assertive role for the Russians within Europe but at the same time the economic weakness of Russia limits its ability to play such a role
