

RIVER DEVIL

Medium beast

Armor Class 13

Hit Points 33 (6d8 + 6)

Speed 30 ft., swim 30 ft.

STR	DEX	CON	INT	WIS	CHA
+2	+3	+1	-3	+2	-1

Skills Perception +4, Deception +3

Senses Passive Perception 14, Tremorsense 30ft.
(see Ripple Detection)

Challenge 1

Ripple Detection. The river devil gains tremorsense out to 30 feet while it's tail is submerged in water. The river devil can't detect anything outside that body of water using this sense.

Drowner. While the river devil is grappling a creature with it's tail, the river devil can attempt to drown this creature (no action required). Creatures submerged in this way must succeed on DC 13 Constitution saving throw at the start of each of their turns, or run out of breath.

River Scuttle. While in water or wet terrain, the river devil can disengage or dash as a bonus action.

Actions

Multiattack. The river devils makes two attacks: one with it's tail and one with it's bite or claws.

Bite. Melee Weapon Attack: +4 to hit, 5ft., one target. Hit: 4 (1d4 + 2)

Claws. Melee Weapon Attack: +4 to hit, 5ft., one target. Hit: 4 (1d4 + 2)

Tail. Melee Weapon Attack: +5 to hit, 15ft., one target. Hit: 7 (1d8 + 3) and the target is grappled (escape DC 13). The river devil cannot attack using it's tail while grappling a creature.

Reactions

Play Prey (usable before the river devil's first turn).

When a creature that isn't hidden from the river devil targets it and is within reach of the river devil's tail attack, it immediately makes a tail attack against the triggering creature. If the target's passive insight score is lower than 13, the river devil gains advantage on this attack.

Deceitfully lazy, this horned lizard will spend its days lounging on the shore or large rocks near a river waiting to be approached.

DROWNING DEVIL

The river devil can detect creatures moving through water using only its long tail. When an approaching creature is detected, the river devil shows no reaction until its prey is close enough to lash at with its tail. If no other threat is present, it'll take its time drowning the victim until it dies. If other threats are around or fail to trap its prey, it'll use its webbed feet to flee downriver.

Villages or cities nearby have an increase in missing people often, sometimes their clothing, gear, or limbs found floating downstream.
