RMS Queen Mary Janette McCutcheon,2008-11-15 The story of the Cunard liner from her design in the late 1920s to the construction and the problems caused by the Depression The artwork on board is detailed as is her history during the war years where it was said she and her sister RMS Queen Elizabeth helped shorten the war by a year while working as troop transports

RMS Queen Mary David Ellery,2025-04-22 Probably the most famous and certainly one of the best loved ships in the world the Cunard transatlantic liner RMS Queen Mary has now been preserved at Long Beach California as a floating hotel and tourist attraction for more than fifty years comfortably longer than her 31 year career as an ocean liner Laid down in 1930 Queen Mary s construction was severely delayed by the Great Depression Eventually completed in 1936 the ship was an instant success capturing the famous Blue Riband for the fastest crossing of the Atlantic later that year and regaining it in 1938 During the Second World War she served as a troop ship carrying a total of 810 730 troops and also setting the record for the most individuals carried in a single voyage 16 683 which stands to this day By the time she ceased passenger service in 1967 superseded by the airliner as the preferred mode for international travel Queen Mary had carried nearly three million people from royalty politicians and film stars to emigrants and cruise passengers After her sale to the city of Long Beach she underwent a major conversion for her new life as a visitor attraction a role she has continued ever since During this time however her story has been far from straightforward with controversies over management funding and even the structural integrity of the very ship itself She now remains the only 1930s superliner left in the world The original edition of RMS Queen Mary the World s Favourite Liner was published in 1994 This new and expanded edition has been completely revised and brought up to date to describe the ship s last twenty five years and it incorporates a wealth of new photography Lavishly produced and stunningly illustrated throughout with views of the ship under construction at sea in her heyday and at rest in Long Beach it will appeal to all ocean liner enthusiasts and those more general readers fascinated by the heyday of transatlantic travel

Bowman,2012-10-17 The story of America s first encounters with the Luftwaffe heavy Nazi air defences and the wartime strictures that Britain had already endured Military History Monthly Using narrative accounts and new insights this book catalogues the dramatic and first hand oral testimonies of the US Army Air Corps bomber crews of the newly created Eighth Air Force that became stationed in East Anglia in 1942 It begins with shock of the unannounced Japanese attack on Pearl Harbor and how it affected the young men who were destined to fly and fight in Europe American troops or GIs as they were known because of their own derisive term of General Issue began arriving in war weary Britain in the months immediately after Pearl Harbor Bomber and fighter groups made an especial impact The young Americans with their well cut uniforms new accents and money created a colourful heroic chapter in the lives of the British people that is still remembered today The Americans and the villagers and townsfolk of East Anglia shared a close attachment that only wartime can create England between 1942 45 was a battle front

The civilians were all involved in the war effort as shipyard and factory workers Red Cross and Land Army farmers and firemen Above all they were stubborn determined fighters who had already endured more than three years of war Into these lives came the sights and sounds particularly the jargon of the Americans unprepared for the difficulties of flying in Britain s and Northern Europe s unpredictable and difficult weather These are their memories A personal look at the lives and operations of the young American aircrew posted in the UK Aviation News
