How to Write Fiction (And Think About It) Robert Graham, 2006-10-29 If you are a writer of fiction, this practical handbook will teach you how to acquire your own writer's tool box. Here you will learn all about developing your craft. The wide-ranging exploration of fiction writing skills contains many unique features, such as the focus on reflective learning and tuition on advanced skills, including foreshadowing, transitions, and producing short story cycles. Throughout, the approach is centred on three kinds of activity: examining the theory of particular fiction writing skills; analysing the practice of these skills in examples of published work; practising the use of skills in fiction writing exercises. What makes this guide so distinctive though is the way it consistently asks you to reflect on your work and stresses the importance of being able to articulate the processes of writing. The Ekphrastic Encounter in Contemporary British Poetry and Elsewhere David Kennedy, 2016-03-23 Examining a wide range of ekphrastic poems David Kennedy argues that contemporary British poets writing out of both mainstream and avant garde traditions challenge established critical models of ekphrasis with work that is more complex than representational or counter representational responses to paintings in museums and galleries Even when the poem appears to be straightforwardly representational it is often selectively so producing a virtual work that doesn t exist in actuality Poets such as Kelvin Corcoran Peter Hughes and Gillian Clarke Kennedy suggests relish the ekphrastic encounter as one in which word and image become mutually destabilizing Similarly other poets engage with the source artwork as a performance that participates in the ethical realm Showing that the ethical turn in ekphrastic poetry is often powerfully gendered Kennedy also surveys a range of ekphrastic poets from the Renaissance and nineteenth century to trace a tradition of female ekphrastic poetry that includes Pauline Stainer and Frances Presley Kennedy concludes with a critique of ekphrastic exercises in creative writing teaching proposing that ekphrastic writing that takes greater account of performance spectatorship may offer more fruitful models for the classroom than the narrativizing of images
