Road To Power Political Reflections On Growing Into The Revolution:

The German Revolution and Political Theory Gaard Kets, James Muldoon, 2019-05-02 This book is the first collection within political theory to examine the ideas and debates of the German Revolution of 1918-19. It discusses the political theorists and actors of the revolution and uncovers an incredibly fertile body of political thought. Revolutionary events led to the proliferation of new political strategies, theoretical insights, and institutional proposals. Key questions included the debate between a national assembly and a council system, the socialisation of the economy, the development of new forms of political representation, and the proper role of parliaments, political parties, and trade unions. This book offers novel perspectives on the history of the revolution, a thorough engagement with its main thinkers, and an analysis of its relevance for contemporary political thought.

Lenin Paul Le Blanc, 2023-09-20 A welcome gift. Highlighting Lenin's flexibility and cultivation of collective leadership, Le Blanc brings out the practical activism and revolutionary patience crucial to organizing the oppressed on a rapidly overheating planet. Jodi Dean, author of *Comrade Crackling* with intellectual life. Lars T. Lih, author of *Lenin Rediscovered*. A wonderful sketch of Lenin's life and times. Perhaps the best introduction available in English. Michael D. Yates, author of *Can the Working Class Change the World*. Vladimir Lenin lies in a tomb in Moscow's Red Square. History has not been kind to this Russian leader; his teachings reviled by modern mainstream politics. But in today's capitalist society, riven by class inequality and imperialist wars, perhaps it is worth returning to this communist icon's demand for Peace, Land, and Bread, and his radical understanding of democracy. Lenin was wrestling with the question of what is to be done when facing the catastrophes of his own time. Against the odds, the Bolshevik party succeeded in rejecting both the corrupt and decaying Romanov dynasty as well as the capitalist economic system which had started to take root in Russia. To understand how this happened and what we can learn from him today, Paul Le Blanc takes us through Lenin's dynamic revolutionary thought, how he worked as part of a larger collective, and how he centered the labor movement in Russia and beyond, uncovering a powerful form of democracy that could transform our activism today. Paul Le Blanc is an activist and acclaimed American historian teaching at La Roche University, Pennsylvania. He is the author of many books.

The American Worker and the Absurd Truth about Marxism Alan Johnson, 2023-03-20 In 1906, Werner Sombart famously quipped that the ship of American socialism had crashed on the reefs of roast beef and apple pie. Why did socialism never take ground in the USA? This volume opens with the first English translation of Karl Kautsky's 1906 long essay *The American Worker*, an extended response published in *Die Neue Zeit* to Sombart's 1905 essay *Why Is There No Socialism in the United States*. Other essays and reviews are each marked by an effort to come to terms with the fact that Friedrich Engels's optimism that History would take care of class consciousness in the USA has been proven misplaced. Originally published as issue 4 of Volume 11, 2003 of Brill's journal *Historical Materialism*. For more details on this journal, please click [here](#).

The Anti-Capitalist Dictionary David E Lowes,2013-07-04 This dictionary is an alternative and a counter balance to the many political dictionaries that ignore or marginalize the history and influence of anti capitalist movements It paints a rich picture of the ideas and issues that inform today s anti capitalist activity The Anti Capitalist Dictionary is organised in an easily accessible alphabetical format with self contained cross referenced entries that introduce and explain concepts and issues that are integral to understanding today s global movement The Dictionary demonstrates how the meaning and relevance of some of these have evolved and illustrates a linkage between past and present activity that might be unfamiliar to people who are involved or interested in the movement s current manifestations This Dictionary has international coverage and will prove invaluable to students of politics as well as to activists and the general reader

Lenin and the Logic of Hegemony Alan Shandro,2014-07-10 In Lenin and the Logic of Hegemony by means of a careful textual and contextual analysis of the writings of Lenin and his Marxist contemporaries Alan Shandro traces the contours of the anti metaphysical event identified by Gramsci in Lenin s political practice and theory the emergence of the philosophical fact of hegemony In so doing he effectively disputes conventional caricatures of Lenin s role as a political actor and thinker and unearths the underlying parameters of the concept of hegemony in the class struggle He thereby clarifies the conceptual status of this pervasive but now increasingly elusive notion and the logic of theory and practice at work in it
