**The Music of Frederick Delius** Jeremy Dibble, 2021

This book examines Delius's individual approaches to genre, form, harmony, orchestration, and literary texts which gave the composer's musical style such a unique voice. Frederick Delius (1862-1934) music has proved impervious to analytical definition. Delius's approaches to genre, form, harmony, orchestration, and literary texts are all highly individual, not to say eccentric, in their deliberate aim to avoid conformity. Rarely does Delius follow a conventional line, and though one can readily point to important influences, the larger Gestalt of each work has a syntax and coherence for which conventional analytical methods are mostly inadequate. Delius's musical style has also defied one of the most essential critical tools of his musical epoch: that of national identity. His style bears no relation either to the Victorian or Edwardian aesthetic of British music spearheaded by Parry, Stanford, and Elgar before the First World War, nor to the more overtly nationalist folk-song orientated pastoralism of post-war Britain in such composers as Vaughan Williams and Holst. In contrast, Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement. To test these claims, the book explores a number of important factors: Delius's musical education at the Leipzig Conservatorium and the works he produced there; Delius's musical voice, notably his harmonic and melodic style, and the close structural relationship between these two factors. The book also explores the question of Delius and genre, in which the investigation of form is central, especially in opera, the symphonic poem, the choral work, where words are seminal to the creation of structural design, and the sonata and concerto to which Delius brought his own individual solution. Other significant factors are Delius's cosmopolitan use of texts, operatic plots, and picturesque impressions; his relationship to Nietzsche's writings; and the genre of dance, and the role of his earlier works (1888-1896) in which it is possible to plot a course of stylistic change with reference to the influences of Grieg, Sinding, Florent Schmitt, Wagner, Strauss, and Debussy. In Britain, in such composers as Vaughan Williams and Holst, in contrast, Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement. This book examines the exotics imported into China during the T'ang Dynasty, A.D. 618-907, and depicts their influence on Chinese life. Into the land during the three centuries of T'ang came the natives of almost every nation of Asia, all bringing exotic wares, either as gifts or as goods to be sold. Ivory, rare woods, drugs, diamonds, magicians, dancing girls: the author covers all classes of unusual imports, their places of origin, their lore, their effort on costume, dwellings, diet, and on painting, sculpture, music, and poetry. This book is not a statistical record of commercial imports and medieval trade, but rather a humanistic essay, however material its subject matter.
