Michael Martinez,2020-05-26 The Congress of the United States operates in the shadow of the American presidency which can make the legislative branch appear less important than the executive in our constitutional system of government And yet Congress is a co equal branch of government deriving its powers from Article I of the United States Constitution Love it or hate it the institution is a source of incredible power It behooves all Americans to learn more about Congress Although a single slender volume cannot provide information on all there is to know about Congress it can begin the journey In Congressional Giants political scientist J Michael Martinez explores the careers and achievements of 14 influential leaders of Congress men who

Why Veterans Run Jeremy M. Teigen, 2018-01-11 The assumptions that military service helps candidates attract votes while lacking it harms a candidate's chances has been an article of faith since the electoral coronation of George Washington in 1789 Perhaps the most compelling fact driving the perception that military service helps win votes is the large number of veterans who have held public office Some candidates even exaggerate their military service to persuade voters However sufficient counter examples undermine the idea that military veterans enjoy an advantage when seeking political office In *Why Veterans Run* Jeremy Teigen explains the tendency of parties to elevate those with armed forces experience to run for high office He describes the veteran candidate phenomenon by examining the related factors and patterns showing why different eras have more former generals running and why the number of veterans in election cycles varies With both quantitative and qualitative analysis *Why Veterans Run* investigates each postwar era in U S electoral history and elaborates why so many veterans run for office Teigen also reveals how election outcomes with veteran candidates illuminate the relationship between the military and civilian spheres as well as the preferences of the American electorate Aftermath Richard Crowder, 2015-05-29 In a decade between 1940 and 1950 the old world order collapsed and a new one was created Old European empires France Germany and the United Kingdom receded replaced by two new superpowers the Soviet Union and the United States Beyond Europe a swath of new countries was created India Communist China Israel and the modern Arab states Indonesia the Koreas But there were darker shadows too cast by the onset of the Cold War the failure to establish international controls on atomic energy or the growth of the national security state and modern intelligence apparatus This era also produced some of the most remarkable statesmen of modern times including leaders such as Roosevelt Churchill Stalin Truman de Gaulle Nehru and Mao Tsetung diplomats like George Marshall Dean Acheson Anthony Eden Ernest Bevin

and Robert Schuman and international fixers such as Averell Harriman John Maynard Keynes or Jean Monnet Their stories form the core fabric of this book Richard Crowder examines their shared ambition to rebuild the world and launch a second age of globalization

Dean Acheson and the Obligations of Power Michael F. Hopkins, 2017-03-17 Dean Acheson was the most influential American diplomat of the twentieth century He shaped the pivotal shift in American foreign policy from isolation to engagement in global affairs This critical re evaluation of Acheson s public career analyzes his advocacy of intervention against Germany and Japan in 1939 1941 work on sanctions against Japan in 1941 contribution to the creation of new international institutions and campaigns to secure the support of Congress and the American public It scrutinizes his crucial role in the Truman Doctrine the Marshall Plan NATO the formation of democratic governments in Germany and Japan and involvement in the Korean War It examines his advice on Europe and Vietnam to presidents Kennedy Johnson and Nixon Acheson was the architect of the policy of containing the Soviet Union that endured to the end of the Cold War The book argues that Acheson was slower to abandon the prospect of understandings with the Soviets and the communists in China than his memoirs claim his focus on the North Atlantic did not exclude his deep concern for Asian and the policy of containment was part of his wider belief that American power brought the obligation to promote a stable international order

Narrative and the Making of US National Security Ronald R. Krebs, 2015-08-25 Dominant narratives from the Cold War consensus to the War on Terror have often served as the foundation for debates over national security Weaving current challenges past failures and triumphs and potential futures into a coherent tale with well defined characters and plot lines these narratives impart meaning to global events define the boundaries of legitimate politics and thereby shape national security policy However we know little about why or how such narratives rise and fall Drawing on insights from diverse fields Narrative and the Making of US National Security offers novel arguments about where these dominant narratives come from how they become dominant and when they collapse It evaluates these arguments carefully against evidence drawn from US debates over national security from the 1930s to the 2000s and shows how these narrative dynamics have shaped the policies pursued by the United States
