Fear in its many facets appears to constitute an intriguing and compelling subject matter for writers and screenwriters alike. The contributions address fictional representations and explorations of fear in different genres and different periods of literary and cultural history. The topics include representations of political violence and political fear in English Renaissance culture and literature; dramatic representations of fear and anxiety in English Romanticism; the dramatic monologue as an expression of fears in Victorian society; cultural constructions of fear and empathy in George Eliot's *Daniel Deronda* (1876) and Jonathan Nasaw's *Fear Itself* (2003); facets of children's fears in twentieth and twenty-first century stream-of-consciousness fiction; the representation of fear in war movies; the cultural function of horror film remakes; the expulsion of fear in Kazuo Ishiguro's novel *Never Let Me Go*; and fear and nostalgia in Mohsin Hamid's post-9/11 novel *The Reluctant Fundamentalist*.

New England Beyond Criticism Elisa New, 2014-03-18. NEW ENGLAND BEYOND CRITICISM. Elisa New's book is a remarkable achievement. It is very rare that a critic manages to ask what seem exactly the right questions, then to answer them in a lively, brilliant, evocative and supremely intelligent prose. Charles F. Altieri, University of California. Elisa New is a refreshing voice among critics and historians of literature. She has a keen sense of the nature of New England and its deep spiritual resources reaching back to the Puritans moving through the great nineteenth-century expressions of interior landscapes and visions. This is a book I welcome and celebrate. Jay Parini, Middlebury College. Literary criticism of the past thirty years has undercut what the canonizers of the nineteenth and early twentieth centuries saw as the fundamental role of early New England in the development of American literary culture. And yet a determination in literary circles to topple perceived Ivy League elitism and Protestant cultural creationism overlooks the continuing value, beauty and even practical utility of a canon still cherished by lay readers around the world. This Manifesto raises questions about how academic specialization and the academic study of New England have affected enthusiasm for reading. Using a range of interpretive practices including those most often deployed by contemporary academic critics, Elisa New cuts across firmly established subfields, mixing literary exegesis with autobiographical reflection, close reading with cultural history, archival and antiquarian inquiry with experiments in style, and lays bare editorial orthodoxies raising to question the whole hierarchy of values now governing the study of American and other literatures. Taking New England as a test case for a wider, more accessible set of critical practices, *New England Beyond Criticism* demands that the domain of literary study be opened further to the tastes of the general reader.
