Gestalt theory to Freudian psychoanalysis This volume traces the scholarly reception of Musil's works marked by discontinuities and abrupt shifts of perception At the beginning of his career Musil was stereotyped as an author primarily interested in morally questionable psychological issues before being plunged into near oblivion by his exile forced by National Socialism After the Second World War he was rediscovered but the development of Musil studies was severely hampered by the inability to determine an authoritative edition of his unfinished masterpiece *Der Mann ohne Eigenschaften* The Man without Qualities 1930-43 Professor Rogowski shows how successive generations of scholars have appropriated Musil for their own ends constructing a bewildering and often contradictory array of images of the author according to their own ideological and methodological biases and how this multitude of different perspectives corresponds with changes in German studies and historical developments over the past four decades In so doing he sheds new light on Musil's paradoxical status as in the words of Frank Kermode the least read of the great twentieth century novelists CHRISTIAN ROGOWSKI is assistant professor of German at Amherst College *Robert Musil, drei Frauen* Karl Eibl, 1978 Musil-Forum Rosmarie Zeller, 2007 *The Vanishing Subject* Judith Ryan, 1991-10-08 Is thinking personal Or should we not rather say it thinks just as we say it rains In the late nineteenth century a number of psychologies emerged that began to divorce consciousness from the notion of a personal self They asked whether subject and object are truly distinct whether consciousness is unified or composed of disparate elements what grounds exist for regarding today's self as continuous with yesterday's If the American pragmatist William James declared himself on balance in favor of a real and verifiable personal identity which we feel his Austrian counterpart the empiricist Ernst Mach propounded the view that the self is unsalvageable *The Vanishing Subject* is the first comprehensive study of the impact of these pre-Freudian debates on modernist literature In lucid and engaging prose Ryan traces a complex set of filiations between writers and thinkers over a sixty year period and restores a lost element in the genesis and development of modernism From writers who see the self as nothing more or less than a bundle of sensory impressions Ryan moves to others who hesitate between empiricist and Freudian views of subjectivity and consciousness and to those who wish to salvage the self from its apparent disintegration Finally she looks at a group of writers who abandon not only the dualisms of subject and object but dualistic thinking altogether Literary impressionism stream of consciousness and point of view narration and the question of epiphany in literature acquire a new aspect when seen in the context of the psychologies without the self Rilke's development of a position akin to phenomenology Henry and Alice James's relation to their psychologist brother Kafka's place in the modernist movements Joyce's rewriting of Pater Proust's engagement with contemporary thought Woolf's presentation of consciousness and Musil's projection of a utopian counter-reality are problems familiar to readers and critics *The Vanishing Subject* radically revises the way we see them
