Robert Browning's Language Donald S. Hair, 1999-12-15 What are the influences that shaped the language used by one of the nineteenth century's greatest writers How did his religious beliefs the books he owned the paintings and music he loved affect almost sixty years output of poems plays essays and letters This book attempts to define Browning's understanding of the nature and use of words and syntax by considering not only a full range of texts from the 1833 *Pauline* to the 1889 *Asolando* but also the ideas important to Browning the historical context in which he lived and the other artistic passions that played a part in his life In this companion volume to Tennyson's *Language* Donald Hair establishes Browning's place at the crossroads between empirical and idealist traditions and explains his double view of language arguing that both Locke and the Congregationalists found language to be at the same time empty and a God-given essential The Victorian age's anti-theatrical bias which Browning came to share and his reading of predecessors principally Quarles Bunyan Donne and Smart also shaped his understanding of the diction of poetry Hair conceives of Browning's language as a theoretical whole encompassing words genres rhyme syntax and phonetics He also links Browning's interest in music with his rhyming the most essential and characteristic feature of his prosody and relates his interest in painting to the interpretation of the visual image in the emblem and in typography

The Poetry of Robert Browning Jonathon Keates, 2018-10-16 Many of Robert Browning's poems are concerned with different aspects of human identity In the great dramatic monologues such as Fra Lippo Lippi Andrea del Sarto and My Last Duchess the question of exactly who is speaking obviously concerns us but to what extent do the speaker's language and attitudes mirror those of the poet himself In the various poems on the theme of love and sexual relationships which Browning included in his published collections we inevitably want to know which of these spring directly from his personal experience Browning however never felt a duty to reveal himself to the reader within his poetry Though he admired several of the Romantic writers among the poetic generation immediately preceding his own especially Shelley and Wordsworth he was unwilling to follow their example by relating his discourse to the concept of a dominant ego an I whose personal drama of feeling and experience formed the substance of a sustained narrative Several of his works deliberately criticise the tendency made fashionable by the Romantics to see a poem as offering clues to its writer's identity and by association his private life In 1874 Browning a poem House arguing that the reader has no right to share an author's privacy For a ticket apply to the Publisher No thanking the public I must decline A peep through my window if folk prefer But please you no foot over threshold of mine In this guide Jonathan Keates looks at the roots of Browning's poetry at why he is so influential and at how despite his determination to keep his private and poetic identities separate some of his work is so shocking
