ROMAN JAKOBSON

# Roman Jakobson 18961982 A Complete Bibliography Of His Writings

**Nicholas Birns**

## **Roman Jakobson 1896-1982 A Complete Bibliography Of His Writings:**

**Roman Jakobson** Stephen Rudy, 2012-02-13 No detailed description available for Roman Jakobson *Completion, Volume 2/Part 1* Jindrich Toman, 2012-12-19 Roman Jakobson's writings range over the entire field of general linguistics as well as embracing Slavic linguistics and literature theory Jakobson has had a tremendous influence on the development of linguistic theory He was a founder of and prime mover in the Prague Linguistic Circle On the basis of the new structuralist concepts he set forth bold theories of general linguistics and illustrated them with brilliant demonstrations based on Slavic and other languages Taking a leading role in the elucidation of the structural linguistic field of phonology Jakobson used these insights to develop new trends in historical phonology Altogether his linguistics appears to incorporate the technical design of modern theoretical concepts but at the same time transcends purely formal modeling through its interdisciplinary focus upon historical and poetic matters Jakobson was enormously successful in presenting innovative theoretical insights and relating them to possible practical applications Specifically his work on the general processes of language acquisition and loss on child language and aphasia opened up entirely new methods for linguists and doctors alike The series *Selected Writings* represents the whole range of Roman Jakobson's field of research Empire De/Centered Maxim Waldstein, Sanna Turoma, 2016-05-06 In 1991 the Soviet empire collapsed at a stroke throwing the certainties of the Cold War world into flux Yet despite the dramatic end of this last empire the idea of empire is still alive and well its language and concepts feeding into public debate and academic research Bringing together a multidisciplinary and international group of authors to study Soviet society and culture through the categories empire and space this collection demonstrates the enduring legacy of empire with regard to Russia whose history has been marked by a particularly close and ambiguous relationship between nation and empire building and between national and imperial identities Parallel with this discussion of empire the volume also highlights the centrality of geographical space and spatial imaginings in Russian and Soviet intellectual traditions and social practices underlining how Russia's vast geographical dimensions have profoundly informed Russia's state and nation building both in practice and concept Combining concepts of space and empire the collection offers a reconsideration of Soviet imperial legacy by studying its cultural and societal underpinnings from previously unexplored perspectives In so doing it provides a reconceptualization of the theoretical and methodological foundations of contemporary imperial and spatial studies through the example of the experience provided by Soviet society and culture *From Empire to Eurasia* Sergey Glebov, 2017-05-15 The Eurasianist movement was launched in the 1920s by a group of young Russian migrants who had recently emerged from years of fighting and destruction Drawing on the cultural fermentation of Russian modernism in the arts and literature as well as in politics and scholarship the movement sought to reimagine the former imperial space in the wake of Europe's Great War The Eurasianists argued that as an heir to the nomadic empires of the steppes Russia should follow a non-European path of development In the context of rising Nazi and Soviet powers the Eurasianists rejected liberal

democracy and sought alternatives to Communism and capitalism Deeply connected to the Russian cultural and scholarly milieu Eurasianism played a role in the articulation of the structuralist paradigm in interwar Europe However the movement was not as homogenous as its name may suggest Its founders disagreed on a range of issues and argued bitterly about what weight should be accorded to one or another idea in their overall conception of Eurasia In this first English language history of the Eurasianist movement based on extensive archival research Sergey Glebov offers a historically grounded critique of the concept of Eurasia by interrogating the context in which it was first used to describe the former Russian Empire This definitive study will appeal to students and scholars of Russian and European history and culture

International Encyclopedia of Linguistics William J. Frawley, 2003-05-01 The International Encyclopedia of Linguistics 2nd Edition encompasses the full range of the contemporary field of linguistics including historical comparative formal mathematical functional and philosophical linguistics with special attention given to interrelations within branches of linguistics and to relations of linguistics with other disciplines Areas of intersection with the social and behavioral sciences ethnolinguistics sociolinguistics psycholinguistics and behavioral linguistics receive major coverage along with interdisciplinary work in language and literature mathematical linguistics computational linguistics and applied linguistics Longer entries in the International Encyclopedia of Linguistics ranging up to four thousand words survey the major fields of study for example anthropological linguistics history of linguistics semantics and phonetics Shorter entries treat specific topics within these fields such as code switching sound symbolism and syntactic features Other short entries define and discuss technical terms used within the various subfields or provide sketches of the careers of important scholars in the history of linguistics such as Leonard Bloomfield Roman Jakobson and Edward Sapir A major portion of the work is its extensive coverage of languages and language families From those as familiar as English Japanese and the Romance languages to Hittite Yoruba and Nahuatl all corners of the world receive treatment Languages that are the subject of independent entries are analyzed in terms of their phonology grammatical features syntax and writing systems Lists attached to each article on a language group or family enumerate all languages extinct or still spoken within that group and provide detailed information on the number of known speakers geographical range and degree of intelligibility with other languages in the group In this way virtually every known language receives coverage For ease of reference and to aid research the articles are alphabetically arranged each signed by the contributor supported by up to date bibliographies line drawings maps tables and diagrams and readily accessible via a system of cross references and a detailed index and synoptic outline Authoritative comprehensive and innovative the 2nd edition of the International Encyclopedia of Linguistics will be an indispensable addition to personal public academic and research libraries and will introduce a new generation of readers to the complexities and concerns of this field of study

*Linguistics* Anna L. DeMiller, 2000-01-15 Thoroughly revised and updated with some 500 new entries including the addition of pertinent Internet sites this is the only bibliographic guide to information sources for linguistics Coverage spans

from 1957 the publication date of Chomsky's seminal work to the present with emphasis on English language resources DeMiller's detailed citations describe and evaluate each work often offering comparisons to similar titles Its broad coverage and in depth reviews make this work essential to the research and study of general or theoretical linguistics The book is also indispensable in the related areas of anthropological linguistics applied linguistics mathematical and computation linguistics psycholinguistics semiotics and sociolinguistics which are all treated in separate chapters as well as the study of language and languages from a linguistic perspective A must for any library supporting the study of linguistics or its related fields this is a valuable reference and research tool It is

*The Language of the New Testament* Stanley E. Porter, Andrew Pitts, 2013-02-21 In *The Language of the New Testament* Stanley E. Porter and Andrew W. Pitts assemble an international team of scholars whose work has focused on the Greek language of the earliest Christians in terms of its context, history and development

[History of Linguistics 2011](#) Vadim Kasevich, Yuri A. Kleiner, Patrick Sériot, 2014-08-29 This volume brings together a selection of papers presented at the 12th International Conference on the History of the Language Sciences ICHoLS XII held in St. Petersburg, Russia, 28 August–2 September 2011. It begins with contributions on 17th century rationalist ideas and practical grammar writing and then covers a great variety of 18th and 19th century topics from Western grammars of Chinese to Saussure's remarks on semiology of the years 1881–1891. The most noteworthy feature, however, is an entire section devoted to linguistics in Russia from the early Soviet period until the 1950s, including attempts to establish a Marxist view of language as well as phases to critically adapt Western ideas and at times efforts to participate successfully in international linguistic scholarship both in phonetics and semantics

**The Sound Shape of Language** Roman Jakobson, Linda R. Waugh, 2002 Reading this volume transported me back to Harvard and MIT lecture halls of the 1960s where weekly Roman Jakobson would spellbind his audience. This reviewer included developing his vision of language through impassioned exposition, deft and devastating allusions to critical literature, anecdotes with the force of parables, metaphors of mythic imagery and above all else overriding verbal artistry. Truly in his own phrase, "In the poetry of grammar," *The Sound Shape of Language* his collaboration with Linda R. Waugh, a scholar who has devoted considerable attention to an exposition and elaboration of Jakobsonian views, fortunately has preserved in print the authoritative, lectorial voice. Michael Silverstein in *Journal of Communication*

**Theory After Theory** Nicholas Birns, 2010-06-14 *Theory After Theory* provides an overview of developments in literary theory after 1950. It is intended both as a handbook for readers to learn about theory and an intellectual history of the recent past in literary criticism for those interested in seeing how it fits in with the larger culture. Accessible but rigorous, this book provides a wealth of historical and intellectual context that allows the reader to make sense of the movements in recent literary theory

*Encyclopedia of Language and Linguistics*, 2005-11-24 The first edition of ELL 1993, Ron Asher, Editor, was hailed as the field's standard reference work for a generation. Now the all new second edition matches ELL's comprehensiveness and high quality, expanded for a new generation while being the first encyclopedia to

really exploit the multimedia potential of linguistics The most authoritative up to date comprehensive and international reference source in its field An entirely new work with new editors new authors new topics and newly commissioned articles with a handful of classic articles The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition Ground breaking and International in scope and approach Alphabetically arranged with extensive cross referencing Available in print and online priced separately The online version will include updates as subjects develop ELL2 includes c 7 500 000 words c 11 000 pages c 3 000 articles c 1 500 figures 130 halftones and 150 colour Supplementary audio video and text files online c 3 500 glossary definitions c 39 000 references Extensive list of commonly used abbreviations List of languages of the world including information on no of speakers language family etc Approximately 700 biographical entries now includes contemporary linguists 200 language maps in print and online Also available online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit [www.info.sciencedirect.com](http://www.info.sciencedirect.com) The first Encyclopedia to exploit the multimedia potential of linguistics Ground breaking in scope wider than any predecessor An invaluable resource for researchers academics students and professionals in the fields of linguistics anthropology education psychology language acquisition language pathology cognitive science sociology the law the media medicine computer science The most authoritative up to date comprehensive and international reference source in its field

**Roman Jakobson, 1896-1982** Stephen Rudy, 1990 No detailed description available for Roman Jakobson

**Concise Encyclopedia of Pragmatics** J.L. Mey, 2009-08-07 Concise Encyclopedia of Pragmatics Second Edition COPE is an authoritative single volume reference resource comprehensively describing the discipline of pragmatics an important branch of natural language study dealing with the study of language in its entire user related theoretical and practical complexity As a derivative volume from Encyclopedia of Language and Linguistics Second Edition it comprises contributions from the foremost scholars of semantics in their various specializations and draws on 20 years of development in the parent work in a compact and affordable format Principally intended for tertiary level inquiry and research this will be invaluable as a reference work for undergraduate and postgraduate students as well as academics inquiring into the study of meaning and meaning relations within languages As pragmatics is a centrally important and inherently cross cutting area within linguistics it will therefore be relevant not just for meaning specialists but for most linguistic audiences Edited by Jacob Mey a leading pragmatics specialist and authored by experts The latest trends in the field authoritatively reviewed and interpreted in context of related disciplines Drawn from the richest most authoritative comprehensive and internationally acclaimed reference resource in the linguistics area Compact and affordable single volume reference format

**Autobiographical Statements in Twentieth-Century Russian Literature** Jane Gary Harris, 2014-07-14 The fifteen essays in this volume explore the extraordinary range and diversity of the autobiographical mode in twentieth century

Russian literature from various critical perspectives They will whet the appetite of readers interested in penetrating beyond the canonical texts of Russian literature The introduction focuses on the central issues and key problems of current autobiographical theory and practice in both the West and in the Soviet Union while each essay treats an aspect of autobiographical praxis in the context of an individual author's work and often in dialogue with another of the included writers Examined here are first the experimental writings of the early years of the twentieth century Rozanov Remizov and Bely second the unique autobiographical statements of the mid 1920s through the early 1940s Mandelstam Pasternak Olesha and Zoshchenko and finally the diverse and vital contemporary writings of the 1960s through the 1980s as exemplified not only by creative writers but also by scholars by Soviet citizens as well as by emigrants Trifonov Nadezhda Mandelstam Lydia Ginzburg Nabokov Jakobson Sinyavsky and Limonov Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
