Roman Religion Edinburgh Readings On The Ancient World:

An Introduction to Roman Religion John Scheid, 2003 An Introduction to Roman Religion offers students of ancient Rome and classical civilization entry into a distant world in which the state the social life of the city and religion were inextricably bound Professor Scheid draws on the latest findings in archaeology and history to explain the meanings of rituals rites auspices and oracles to describe the uses of temples and sacred ground and to evoke the daily patterns of religious life and observance within the city of Rome and its environs An Introduction to Roman Religion includes a wealth of quotations from primary sources a chronology of religious and historical events from 750 BC to AD 494 a full glossary and an annotated guide to further reading From publisher s description *Roman Religion* Clifford Ando, 2003 Historiography and method Religious institutions and religious authority Ritual and myth Theology Roman and alien Continuity and change from Republic to Empire

Slaves and Religions in Graeco-Roman Antiquity and Modern Brazil Dick Geary, Stephen Hodgkinson, 2012-03-15 Slaves have never been mere passive victims of slavery Typically they have responded with ingenuity to their violent separation from their native societies using a variety of strategies to create new social networks and cultures Religion has been a major arena for such slave cultural strategies Through participation in religious and ritual activities slaves have generated important elements of identity shared humanity and even resistance within their lives This volume presents papers from a conference of the University of Nottingham s Institute for the Study of Slavery the only UK centre studying its history from antiquity to the present It breaks new ground by juxtaposing slave strategies within the diverse religious cultures of Graeco Roman antiquity and modern Brazil After a wide ranging historiographical survey eleven experts examine how in both societies slave religious activities involved both constraints and opportunities shedding particular new light on the neglected religious strategies of Graeco Roman slaves

Roman and Local Citizenship in the Long Second Century CE Myles Lavan, Clifford Ando, 2021-11-16 Imperial and Local Citizenship in the Long Second Century CE offers a radical new history of Roman citizenship in the long century before Caracalla s universal grant of citizenship in 212 CE Earlier work portrayed the privileges of citizen status in this period as eroded by its wide diffusion Building on recent scholarship that has revised downward estimates for the spread of citizenship this work investigates the continuing significance of Roman citizenship in the domains of law economics and culture From the writing of wills to the swearing of oaths and crafting of marriage Roman citizens conducted affairs using forms and language that were often distinct from the populations among which they resided Attending closely to patterns at the level of province region and city this volume offers a new portrait of the early Roman empire a world that sustained an exclusive regime of citizenship in a context of remarkable political and cultural integration

Imperial Identities in the Roman World Wouter Vanacker, Arjan Zuiderhoek, 2016-12-08 This volume rather than concentrating on politics and imperial administration studies the manifold ways in which people were ritually engaged in producing consuming organising and worshipping that fitted the changing realities of empire

focusing on how individuals and groups tried to do things the right way the Greco Roman imperial way Given the deep cultural entrenchment of ritualistic practices an imperial identity firmly grounded in such practices might well have been instrumental not just to the long lasting stability of the Roman imperial order but also to the persistency of its ideals well into post Roman times

HĀ-'ÎSH MÔSHE: Studies in Scriptural Interpretation in the Dead Sea Scrolls and Related Literature in Honor of Moshe J. Bernstein Binyamin Y. Goldstein, Michael Segal, George J. Brooke, 2017-10-23 The eighteen studies in this volume in honor of Moshe Bernstein on the occasion of his 70th birthday mostly engage with Jewish scriptural interpretation the principal theme of Bernstein's own research career as expressed in his collected essays *Reading and Re-Reading Scripture at Qumran* Brill 2013 The essays develop a variety of aspects of scriptural interpretation Although many of them are chiefly concerned with the Dead Sea Scrolls the significant contribution of the volume as a whole is the way that even those studies are associated with others that consider the broader context of Jewish scriptural interpretation in late antiquity As a result a wider frame of reference for scriptural interpretation impinges upon how scripture was read and re-read in the scrolls from Qumran

Women and the Roman City in the Latin West Emily Hemelrijk, Greg Woolf, 2013-07-18 Roman Cities as conventionally studied seem to be dominated by men Yet as the contributions to this volume which deals with the Roman cities of Italy and the western provinces in the late Republic and early Empire show women occupied a wide range of civic roles Women had key roles to play in urban economies and a few were prominent public figures celebrated for their generosity and for their priestly eminence and commemorated with public statues and grand inscriptions Drawing on archaeology and epigraphy on law and art as well as on ancient texts this multidisciplinary study offers a new and more nuanced view of the gendering of civic life It asks how far the experience of women of the smaller Italian and provincial cities resembled that of women in the capital how women were represented in sculptural art as well as in inscriptions and what kinds of power or influence they exercised in the societies of the Latin West

Roman Europe Edward Bispham, 2008-10-31 This volume traces the rise of Rome and the extension of Roman power across Europe from the viewpoints of both conquerors and conquered and also Rome's barbarian heirs covering the period from 1000 BC through to AD 400 The book reconstructs as far as possible the indigenous experience of contact with Rome showing how Roman domination impacted upon the already complex world of Iron Age Europe before leaving a new barbarian world in its wake Using both literary and archaeological evidence the eight expert contributors analyse the transformation of Europe and the laying of the foundations of the Middle Ages including chapters on Iron Age Europe Roman society warfare and the army economy and trade religions and the cultural implications of Roman conquest as well as narrative chapters on war and politics

The Aggada of the Bavli and Its Cultural World Geoffrey Herman, Jeffrey L. Rubenstein, 2018-08-10 Essays that explore the rich engagement of the Talmud with its cultural world The Babylonian Talmud Bavli the great compilation of Jewish law edited in the late Sasanian era sixth seventh century CE also incorporates a great deal of aggada that is nonlegal

material including interpretations of the Bible stories folk sayings and prayers The Talmud's aggadic traditions often echo conversations with the surrounding cultures of the Persians Eastern Christians Manichaeans Mandaeans and the ancient Babylonians and others The essays in this volume analyze Bavli aggada to reveal this rich engagement of the Talmud with its cultural world Features A detailed analysis of the different conceptions of martyrdom in the Talmud as opposed to the Eastern Christian martyr accounts Illustration of the complex ways rabbinic Judaism absorbed Christian and Zoroastrian theological ideas Demonstration of the presence of Persian Zoroastrian royal and mythological motifs in talmudic sources

On the Wings of Time Sabine MacCormack, 2007 Universals and particulars themes and persons Writing and the pursuit of origins Conquest civil war and political life The emergence of patria cities and the law Works of nature and works of free will The discourse of my life what language can do The Incas Rome and Peru Epilogue Ancient texts prophecies and predictions causes and judgments *From Asculum to Actium* Edward Bispham, 2007-12-06 After the Social War of 91-87 BC Rome's once independent Italian allies became members of a new Roman territorial state Edward Bispham examines how the transition from independence to subordination was managed and charts the successes and failures of the attempts to create a new and enduring political community Paul's Visual Piety J. M. F. Heath, 2013-05-02 This book is at the interface between Visual Studies and Biblical Studies and is the only monograph to date on St Paul's visual piety Heath argues that biblical scholarship has downplayed this worldly visuality in Christian culture and that the exegesis of Paul is both a partial cause and a symptom of this disciplinary blind spot **Relating Religion** Jonathan Z. Smith, 2004-11-10 One of the most influential theorists of religion Jonathan Z. Smith is best known for his analyses of religious studies as a discipline and for his advocacy and refinement of comparison as the basis for the history of religions *Relating Religion* gathers seventeen essays four of them never before published that together provide the first broad overview of Smith's thinking since his seminal 1982 book *Imagining Religion* Smith first explains how he was drawn to the study of religion outlines his own theoretical commitments and draws the connections between his thinking and his concerns for general education He then engages several figures and traditions that serve to define his interests within the larger setting of the discipline The essays that follow consider the role of taxonomy and classification in the study of religion the construction of difference and the procedures of generalization and redescription that Smith takes to be key to the comparative enterprise The final essays deploy features of Smith's most recent work especially the notion of translation Heady original and provocative *Relating Religion* is certain to be hailed as a landmark in the academic study and critical theory of religion Do You Now Believe? Pamela E. Hedrick, 2017-06-14 Can anything good come from Nazareth Questions by their very nature are provocative they provoke answers Questions emerge from the desires of the human spirit Questions lead to insight into the new but those insights can be blocked by preconceptions that obscure present experience including experience of the divine presence At the same time human beings cannot make progress in understanding without some amount of belief which liberates

understanding Jesus faced these concerns in the people around him and we face them in ourselves today By examining the role of questions in the Gospels of Mark and John we see Jesus's capacity to orient his listeners in their search for meaning and thus cultivate in ourselves a willingness to believe what we have inherited as well as an openness to new experience its call to reinterpret beliefs and if necessary to change **Celestial Inclinations** Anne-Marie Lewis,2023 Celestial

Inclinations offers original insights into the practical application of observational astronomy and astrology as political tools by Rome's first emperor Augustus It combines history astronomy literature art and more to provide a new perspective on the life of Augustus a man who believed his destiny was written in the stars **Roman Religion** Valerie M. Warrior,2006-10-16 Examining sites that are familiar to many modern tourists Valerie Warrior avoids imposing a modern perspective on the topic by using the testimony of the ancient Romans to describe traditional Roman religion The ancient testimony recreates the social and historical contexts in which Roman religion was practised It shows for example how when confronted with a foreign cult official traditional religion accepted the new cult with suitable modifications Basic difficulties however arose with regard to the monotheism of the Jews and Christianity Carefully integrated with the text are visual representations of divination prayer and sacrifice as depicted on monuments coins and inscriptions from public buildings and homes throughout the Roman world Also included are epitaphs and humble votive offerings that illustrate the piety of individuals and that reveal the prevalence of magic and the occult in the spiritual lives of the ancient Romans **Ecology and Theology in the**

Ancient World Ailsa Hunt,Hilary F. Marlow,2019-03-21 This multi disciplinary volume brings together the voices of biblical scholars classicists philosophers theologians and political theorists to explore how ecology and theology intersected in ancient thinking both pagan Jewish and Christian Ecological awareness is by no means purely a modern phenomenon Of course melting icecaps and plastic bag charges were of no concern in antiquity frequently what made examining your relationship with the natural world urgent was the light this shed on human relationships with the divine For in the ancient world to think about ecology was also to think about theology This ancient eco theological thinking whilst in many ways worlds apart from our own environmental concerns has also had a surprisingly rich impact on modern responses to our ecological crisis As such the voices gathered in this volume also reflect on whether and how these ancient ideas could inform modern responses to our environment and its pressing challenges Through multi disciplinary conversation this volume offers a new and dynamic exploration of the intersection of ecology and theology in ancient thinking and its living legacy

Controlling Contested Places Christine Shepardson,2019-05-14 From constructing new buildings to describing rival controlled areas as morally and physically dangerous leaders in late antiquity fundamentally shaped their physical environment and thus the events that unfolded within it Controlling Contested Places maps the city of Antioch Antakya Turkey through the topographically sensitive vocabulary of cultural geography demonstrating the critical role played by physical and rhetorical spatial contests during the tumultuous fourth century Paying close attention to the manipulation of

physical places Christine Shepardson exposes some of the powerful forces that structured the development of religious orthodoxy and orthopraxy in the late Roman Empire Theological claims and political support were not the only significant factors in determining which Christian communities gained authority around the Empire Rather Antioch's urban and rural places far from being an inert backdrop against which events transpired were ever shifting sites of and tools for the negotiation of power authority and religious identity This book traces the ways in which leaders like John Chrysostom Theodoret and Libanius encouraged their audiences to modify their daily behaviors and transform their interpretation of the world and landscape around them Shepardson argues that examples from Antioch were echoed around the Mediterranean world and similar types of physical and rhetorical manipulations continue to shape the politics of identity and perceptions of religious orthodoxy to this day

Reviving Roman Religion Ailsa Hunt, 2016-09-12 Sacred trees are easy to dismiss as a simplistic weird phenomenon but this book argues that in fact they prompted sophisticated theological thinking in the Roman world Challenging major aspects of current scholarly constructions of Roman religion Ailsa Hunt rethinks what sacrality means in Roman culture proposing an organic model which defies the current legalistic approach She approaches Roman religion as a thinking religion in contrast to the ingrained idea of Roman religion as orthopraxy and warns against writing the environment out of our understanding of Roman religion as has happened to date In addition the individual trees showcased in this book have much to tell us which enriches and thickens our portraits of Roman religion be it about the subtleties of engaging in imperial cult the meaning of numen the interpretation of portents or the way statues of the Divine communicate

The Oxford Handbook of Sport and Spectacle in the Ancient World Alison Futrell, Thomas Francis Scanlon, 2021 Examines the history of ancient sport and spectacle in Greece and Rome as well as issues of class civic contexts spaces health gender and sexuality Blends Greek and Roman topics to illuminate tensions and complementarities between different social and political contexts Authoritative scholars present novel insights and new avenues of research to give readers contemporary interpretations of Greek sport and Roman spectacle Book jacket
