Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1969 Hawthorne's Romances Robert S. Friedman, 2014-02-25 First Published in 2000 Throughout the nineteenth century the study of geometry remained at the

core of educational curricula in the United States strongly affecting how educated Americans construed their world This book examines how each of Nathaniel Hawthorne's romances presents a different geometric figure that becomes representative of the work's themes and narrative designs These geometric figures when approached from the perspective of Victor Turner's symbolic anthropology serve as cultural mediators combining geometric symbology with a unique narrative perspective to offer metaphors of personal and cultural boundaries Freidman presents the literary text as the point of intersection among such disciplines as cultural anthropology history mathematics and American literature *The Romance of Real Life* Steven Watts, 2019-12-01 Originally published in 1994 *The Romance of Real Life* aims to reconstruct historically the life and writings of Charles Brockden Brown in terms of their cultural connection Watts examines in detail Brown's early and later writings By looking at these often neglected works more closely he offers a new perspective on the well known novels from the late 1790s Watts's synthetic look at genre as well as chronology reveals broader connections between Brown's literature and American society and culture in the decades of the early republic Furthermore Watts situates Brown's writings in terms of the interplay of text context and the self with each factor recognized as mutually shaping the others *The Romance of Real Life* incorporates sensitivity to the social history of ideas in which both the form and content of language remain rooted in the material experience of real life

Chesterton and the Romance of Orthodoxy William Oddie, 2008-11-07 On the publication of *Orthodoxy* in 1908 Wilfrid Ward hailed G K Chesterton as a prophetic figure whose thought was to be classed with that of Burke Butler Coleridge and John Henry Newman When Chesterton died in 1936 T S Eliot pronounced that Chesterton's social and economic ideas were the ideas for his time that were fundamentally Christian and Catholic But how did he come by these ideas Eliot noted that he attached significance also to his development to his beginnings as well as to his ends and to the movement from one to the other It is on that development that this book is focused *Chesterton and the Romance of Orthodoxy* is an exploration of G K Chesterton's imaginative and spiritual development from his early childhood in the 1870s to his intellectual maturity in the first decade of the twentieth century William Oddie draws extensively on Chesterton's unpublished letters and notebooks his journalism and his early classic writings to reveal the writer in his own words In the first major study of Chesterton to draw on this source material Oddie charts the progression of Chesterton's ideas from his first story composed at the age of three and dictated to his aunt Rose to his apologetic masterpiece *Orthodoxy* in which he openly established the intellectual foundations on which the prolific writing of his last three decades would build Part One explores the years of Chesterton's obscurity his childhood his adolescence his years as a student and a young adult Part Two examines Chesterton's emergence on to the public stage his success as one of the leading journalists of his day and his growing renown as a man of letters Written to engage all with an interest in Chesterton's life and times Oddie's accessible style ably conveys the warmth and subtlety of thought that delighted the first readership of the enigmatic GKC

Harper's New Monthly Magazine, 1913 **Readings in Medieval English Romance** Carol M. Meale, 1994 Wide

ranging essays engaging with all aspects of medieval romance from textual studies to historical sources Sultana's Sisters Haris Qadeer, P. K. Yasser Arafath, 2021-09-27 This book traces the genealogy of women's fiction in South Asia and looks at the interesting and fascinating world of fiction by Muslim women. It explores how Muslim women have contributed to the growth and development of genre fiction in South Asia and brings into focus diverse genres including speculative horror, campus fiction, romance, graphic dystopian, amongst others from the early 20th century to the present. The book debunks myths about stereotypical representations of South Asian Muslim women and critically explores how they have located their sensibilities, body, religious, secular identities, emotions, and history and have created a space of their own. It discusses works by authors such as Rokeya Sakhawat Hossain, Hijab Imtiaz Ali, Mrs Abdul Qadir Muhammadi Begum Abbasi, Begum Khadija Mastur, Qurratulain Hyder, Wajida Tabbasum Attia, Hosain Mumtaz Shah, Nawaz Selina Hossain, Shaheen Akhtar, Bilquis Sheikh, Gulshan Esther, Maha Khan, Phillips Zahida Zaidi, Bina Shah, Andaleeb Wajid, and Ayesha Tariq. A volume full of remarkable discoveries for the field of genre fiction both in South Asia and for the wider world, this book in the Studies in Global Genre Fiction series will be useful for scholars and researchers of English literary studies, South Asian literature, cultural studies, history, Islamic feminism, religious studies, gender and sexuality, sociology, translation studies, and comparative literatures.

Love Stories of Later Life Amanda Smith Barusch, 2008-03-13 Even with baby boomers retiring and greater media and research attention being lavished on older people, most gerontologists have studiously avoided examining romance among the elderly. *Love Stories of Later Life* is an appealing and eye-opening remedy to this neglect as leading gerontologist Amanda Smith Barusch presents original research into what love and romance mean in seniors' lives. The result is a glimpse into a world many people didn't know existed: that of romantic love in later life. Unlike superficial guidebooks that purport to help seniors find a new mate, *Love Stories of Later Life* integrates theory and the latest research on love and the aging process. Drawing on a wealth of personal narratives collected during a landmark five-year study, the book presents the lived experiences of older adults from all walks of life. It addresses the impact of common age-related changes, both emotional and physical, on romantic relationships and argues that love continues to sculpt our personalities and our lives even in life's later decades. Each chapter includes practical tools for the serious student of love, including exercises designed to increase self-awareness and relationship building, as well as annotated lists of suggested reading that are at once comprehensive and accessible. Barusch's fresh perspective, engaging voice, and in-depth qualitative research make *Love Stories of Later Life* an important contribution to the study of individual lives and the aging process. This book will guide gerontologists, social workers, and counselors as they in turn help their older clients navigate love's challenges. Visit the author's website: Amanda Barusch.

Romance's Rival Talia Schaffer, 2016-01-05 *Romance's Rival* argues that the central plot of the most important genre of the nineteenth century, the marriage plot novel, means something quite different from what we thought. In Victorian novels, women may marry for erotic desire, but they might instead insist on familiar marriage: marrying trustworthy

companions who can offer them socially rich lives and futures of meaningful work Romance s Rival shows how familiar marriage expresses ideas of female subjectivity dating back through the seventeenth century while romantic marriage felt like a new risky idea Undertaking a major rereading of the rise of the novel tradition from Richardson through the twentieth century Talia Schaffer rethinks what the novel meant if one tracks familiar marriage virtues This alternative perspective offers new readings of major texts Austen the Bront s Eliot Trollope but it also foregrounds women s popular fiction Yonge Oliphant Craik Broughton Offering a feminist perspective that reads the marriage plot from the woman s point of view Schaffer inquires why a female character might legitimately wish to marry for something other than passion For the past half century scholars have valorized desire individuality and autonomy in the way we read novels Romance s Rival asks us to look at the other side to validate the yearning for work family company or social power as legitimate reasons for women s marital choices in Victorian fiction Comprehensive in its knowledge of several generations of scholarship on the novel Romance s Rival convinces us to re examine assumptions about the nature and function of marriage and the role of the novel in helping us not simply imagine marriage but also process changing ideas about what it might look like and how it might serve people

Visions of Order in William Gilmore Simms Masahiro Nakamura,2009

One of nineteenth century America s foremost men of letters William Gilmore Simms 1806 1870 of Charleston South Carolina distinguished himself as a historian poet and novelist yet his stalwart allegiance to the ideals of the Confederacy have kept him largely marginalized from the modern literary canon In this engaging study Masahiro Nakamura seeks to reinsert Simms in current American literary and cultural studies through a careful consideration of Simms s southern conservatism as a valuable literary counterpoint to the bourgeois individualist ideology of his northern contemporaries For Nakamura Simms s vision of social order runs contrary to the staunch individualism expressed in traditional American romances by authors such as James Fenimore Cooper and Nathaniel Hawthorne In his thoughtful approaches to Simms s historical depictions of the making of American history and society Nakamura finds consistent assertions of social order against the perils of literal and metaphoric wilderness a conservative vision that he traces to the influence of Simms s southern genius loci To understand how this southern conservatism also manifests itself in Simms s fiction Nakamura contrasts Simms s historical romances with those of Hawthorne as representative of the New England romance tradition to differentiate the ways in which the two writers interpret the dynamic between the individual and society Nakamura finds that Simms s protagonists struggle to establish their places within their culture while Hawthorne s characters are often at odds with their culture The resulting comparison enriches our understanding of both writers
