Romance Of Italy And The English Political Imagination:

The Romance of Italy and the English Imagination Maura O'Connor, 1998-10-14 In blurring the boundaries between fact and fiction diplomats and travellers English nation and Italian nation Maura O'Connor shows us the extent to which imagination pleasure and politics were intimately interwoven in her story of the English middle class fascination with the Italian peninsula from the early 1800s through to the 1860s O'Connor uses a variety of sources ranging from travel writings and the popular press to diplomatic dispatches and official correspondence to illustrate how influential the romance of Italy was to the bourgeois liberal and above all English social order during a time when class society was undergoing reconfiguration Her use of the collective imagination as a crucial historical tool and her emphasis on narrative as a means not only to read texts but also to understand political sources such as diplomatic documents as reflections of culture ensures that this book breaks new ground and defies conventional categorization Also included are the unique assertions that the concepts of Englishness and England were conceived in anything but isolation and that neither high politics nor foreign policy may be viewed as domains separate from the forces of cultural imagination and production

Italian Forgers Carol Helstosky, 2024-05-15 *Italian Forgers* takes an unorthodox approach to the fascinating topic of art forgery focusing not on art forgery per se but on the major forgery scandals that shifted the Italian art market in response to

constant and often intense demand for Italian objects By focusing on power dynamics that both precipitated forgery scandals and forged Italian cultural identities this book connects the debates and discussions about three well known Italian forgers Giovanni Bastianini Icilio Joni and Alceo Dossena to anchor and investigate the mechanics of the Italian art market from unification through the fascist era Carol Helstosky examines foreign accounts of transactions and Italian writings about the art market The actions and words of Italian dealers illustrate how the Italian art and antiquities market was an undeniably modern industry on par with tourism in terms of its contribution to the Italian economy and to understandings of Italian identity These accounts also reveal how dealers artists go between guides and restorers worked to not only meet the intense demand for Italian products but also to develop highly sophisticated business practices to maintain financial stability and respond to shifts in demand consciously but not always conscientiously Italian Forgers weaves a compelling narrative about the history of Italian identity forgery and the value of the past As a result Helstosky brings historical perspective to the study of art forgery and art fraud She reveals how historical circumstances and structural imbalances of cultural power shaped the market for art and antiquities and amplified incidents of art deception and forgery scandals *La questione romantica.*
