Cultural Interactions in the Romantic Age Gregory Maertz, 1998-02-05 It has been observed that the reevaluation of Romanticism is a special feature of post New Critical or revisionist criticism in America Constituting a lively ecumenical dialogue between literary historians and theorists and between critics based in comparative literature and national literature departments the essays in *Cultural Interactions in the Romantic Age* offer abundant proof that this process continues unabated Focusing on a broad range of interactive relations from 1750 to 1850 these essays reveal as factitious the national and linguistic borders erected within the Academy and strike a blow against the tendency of literary studies to ossify into arbitrary ethnocentric categories *Cultural Interactions in the Romantic Age* makes a strong argument for the position that literary activity in the Romantic Period is inseparable from international dialogue and appropriation Contributors include April Alliston Frederick Burwick Annette Wheeler Cafarelli James Engell Lilian R Furst David C Hensley Roberta Johnson Marc Katz Kari Lokke and John L Mahoney **Romanticism and Consciousness** Harold Bloom, 1970 *Romanticism and Consciousness* is a comprehensive collection of essays on Romanticism its intellectual and political backgrounds its place in literary history its continued relevance to the present age its relation to psychoanalysis and other modern trends of thought and on the major English Romantic poets The topics covered include the relations between nature and consciousness nature and revolution and nature and literary form the principal poets studied are Blake Wordsworth Coleridge Byron Shelley and Keats **The English Romantics** John L. Mahoney, 1997 This anthology of works by major English Romantic poets offers readers a collection of representative Romantic literature as well as critical texts by the major spokesmen of the movement in England **British Romantic Drama** Terence Allan Hoagwood, Daniel P. Watkins, 1998 The present volume attempts a

systematic explanation of various dimensions of Romantic drama by foregrounding both the theoretical and practical questions bearing on Romantic drama in its historical situation In this effort the volume intentionally gravitates toward discussion of lesser known works of the period rather than such major dramas as Manfred or Prometheus Unbound This is because the poetic dramas by Byron and Shelley have already been the subject of many useful historicist investigations and also because lesser known works for instance the dramas of Scott Wordsworth's Borderers and the many revolutionary and counter revolutionary dramas of the period provide avenues into historical and ideological issues that cannot be adequately addressed by exclusive attention to dramas long recognized as canonical
