Many freely gave away their property hoping by ridding themselves of the goods of this earth to establish a claim to the goods of Heaven with little regard to the fate of those whom they loaded with their discarded wealth. It was an era of ignorance and superstition. Christendom went insane over an idea. When the year ended and the world rolled on none the worse for conflagration or deluge, green with the spring leafage and ripe with the works of man, dismay gave way to hope, mirth took the place of prayer, man regained their flown wits and those who had so recklessly given away their wealth bethought themselves of taking legal measures for its recovery. Such was one of the events that made that year memorable. There was another of a highly different character. Instead of a world being lost, a world was found. The Old World not only remained unharmed but a New World was added to it, a world beyond the seas for this was the year in which the foot of the European was first set upon the shores of the trans Atlantic continent. It is the story of this first discovery of America that we have now to tell. In the autumn of the year 1000, in a region far away from fear-haunted Europe, a scene was being enacted of a very different character from that just described. Over the waters of unknown seas, a small strange craft boldly made its way, manned by a crew of the hardiest and most vigorous men, driven by a single square sail whose coarse woollen texture bellied deeply before the fierce ocean winds which seemed at times as if they would drive that deckless vessel bodily beneath the waves. This crew was of men to whom fear was almost unknown, the stalwart Vikings of the North whose oar and sail driven barks now set out from the coasts of Norway and Denmark to ravage the shores of southern Europe, now turned their prows boldly to the west in search of unknown lands afar. Shall we describe this craft? It was a tiny one in which to venture upon an untravelled ocean in search of an unknown continent, a vessel shaped somewhat like a strung bow, scarcely fifty feet in length, low amidships and curving upwards to high peaks at stem and stern, both of which converged to sharp edges. It resembled an enormous canoe rather than aught else to which we can compare it. On the stem was a carved and gilt dragon, the figurehead of the ship which glittered in the bright rays of the sun. Along the bulwarks of the ship, fore and aft, hung rows of large painted wooden shields which gave an Argus-eyed aspect to the craft. Between them was a double row of thole pins for the great oars which now lay at rest in the bottom of the boat, but by which in calm weather this walker of the seas could be forced swiftly through the yielding element.

*Spanish Romance in the Battle for Global Supremacy* Victoria Muñoz, 2021-01-19

Did Spanish explorers really discover the sunken city of Atlantis or one of the lost tribes of Israel in Aztec Mexico? Did classical writers foretell the discovery of America? Were faeries and Amazons hiding in Guiana and where was the fabled golden city El Dorado? Who was more powerful, Apollo or Diana, and which claimant nation, Spain or England, would win the game of empire? These were some of the questions English writers, historians and polemicists asked through their engagement with Spanish romance. By exploring England's fanatical consumption of these tales of love and arms as reflected in the works of Edmund Spenser, William Shakespeare, John Dryden, Ben Jonson and Peter Heylyn, this book shows how the idea of English empire took root in and through literature and how these circumstances primed the success of Miguel de Cervantes's *Don Quixote* of la
