Romanticism Comes of Age Owen Barfield, 1967 **Romanticism Comes of Age** Henry Robert Mills, 1966 **Six Modern Authors and Problems of Belief** Patrick Grant, 1979-06-17 **The Role of Imagination in Culture and Society** Astrid Diener, 2013-07-22

Owen Barfield 1898 1997 philosopher historian and literary theoretician is well known for his friendship with C S Lewis What is virtually unknown is that he was also admired and promoted by T S Eliot who in the 1920s became his publisher at Faber and Faber There can scarcely be two writers at greater variance than Lewis and Eliot that Barfield was admired by both showed that he was an independent thinker far more subtle and complex than has so far been recognized Diener s book about Barfield s early work is the first systematic study to trace the roots and the development of his thought It places Barfield in the tradition of British and European cultural and social critics including Coleridge Arnold Nietzsche and Rudolf Steiner In the light of this tradition Barfield s work emerges as a unique and constructive contribution to twentieth century thought **Romanticism & Esoteric Tradition** Paul Davies, 1998 Spiritual quest is at the very heart of poetry but in our materialistic climate as we begin the twenty first century this has been largely forgotten even by those who claim to be experts in interpreting literature How does the worldview common to the main esoteric traditions of East and West correspond to the aims of Romantic poets such as Shelley Keats Blake Coleridge and Wordsworth In **Romanticism and Esoteric Tradition** Paul Davies maintains that the intended meaning of the poetry and thinking of the Romantics can be understood only in the light of the spiritual teachings of those traditions This is one of the few books that connects the creative nature of poetry to the core teachings of the esoteric tradition It reveals the true meaning of several Romantic writers whose works have been trivialized by a culture that has marginalized the spiritual and bound itself only to material historical and social concerns The author also shows that the Romantics were the first Western poets to imagine the relationship of the self to the environment as personal encounter In this sense the Romantics recalled a long held secret of the esoteric human sciences rather than inventing a new one This book brings the deepest interests of the Romantics directly into contact with issues closest to present day students of the spiritual traditions and holistic perspectives **Owen Barfield** Michael V. Di Fuccia, 2016-10-27 In this book Michael Di Fuccia examines the theological import of Owen Barfield s poetic philosophy He argues that philosophies of immanence fail to account for creativity as is evident in the false shuttling between modernity s active construal and postmodernity s passive construal of subjectivity In both extremes subjectivity actually dissolves divesting one of any creative integrity Di Fuccia shows how in Barfield s scheme the creative subject appears instead to inhabit a middle or medial realm which upholds one s creative integrity It is in this way that Barfield s poetic philosophy gestures toward a theological vision of poi sis proper wherein creativity is envisaged as neither purely passive nor purely active but middle Creativity thus is not immanent but mediated a participation in being s primordial poi sis *Awake!* Mark Vernon, 2025-06-12 A new look at the life works and enduring relevance of William Blake a deeply spiritual and

politically radical figure In the 200 years since Blake's death the visionary artist poet and writer has become a household name often beloved Yet many struggle to comprehend his kaleidoscopic ideas how they speak to human longings and the challenges of living in anxious times Philosopher and psychotherapist Mark Vernon provides a fresh route into Blake taking him at his word Exploring this brilliant thinker's passionate writings arresting artworks and fascinating life Vernon illuminates Blake's vivid worldview Like us he lived in a tumultuous era of war discontent rapid technological change and human estrangement from nature He exposed the dark sides of political fervour and social moralising while unashamedly celebrating love and liberty But he also conversed with prophets and angels and was powerfully if unconventionally religious If we take this seriously not easy in secular times then Blake can help us to unlock the transformative power of imagination Written for both longstanding fans and unfamiliar readers *Awake* reveals Blake as an invigorating and hopeful guide for our modern age

Myth, Truth and Literature Colin Falck, 1994-08-26 *Myth Truth and Literature* is a theoretical study that aims to prove the superfluity of literary theory The author believes that we now require a paradigm shift that will replace structuralist and post structuralist literary theory and will reestablish the validity of such old fashioned Romantic notions as intuition imagination and inspiration

The Transcendental Universe C. G. Harrison, 1993 Most spiritual impulses today can be traced back to the nineteenth century explosion of esotericism In *The Transcendental Universe* one of the most enigmatic and thought provoking works of the period a mysterious and unknown figure C G Harrison examines theosophy from an esoteric Christian perspective He identifies true gnosis and with great courage makes public much esoteric knowledge that had remained hidden within occult orders

Storied Revelations Gisela H. Kreglinger, 2013-08-28 Parables used by Jesus to reveal to us the kingdom of God used to move us from being bystanders to active recipients of God's work of revelation are constantly at risk of being buried as mummies of prose as George MacDonald puts it We become so familiar with the language of Scripture that Jesus parables no longer work on us in this revelatory and transforming way George MacDonald the Victorian poet and theologian observed this very process at work in Victorian society It was a culture saturated with Christian jargon but often devoid of a profound understanding of the gospel for its own time and culture The language of Scripture no longer penetrated people's hearts imaginations and attitudes it no longer transformed people's lives MacDonald called to be a pastor turned to story and more specifically the parabolic as a means of spiritual awakening He created fictive worlds in which the language of Jesus would find a new home and regain its revelatory power for his particular Victorian audience
