"The Artist-Operas of Pfitzner, Krenek and Hindemith " Claire Taylor-Jay, 2017-07-05 This is the first book length study of the genre of artist opera in which the work's central character is an artist who is uncomfortable with his place in the world It investigates how three such operas Pfitzner's *Palestrina* 1915 Krenek's *Jonny spielt auf* 1926 and Hindemith's *Mathis der Maler* 1935 contributed to the debate in early twentieth century Germany about the place of art and the artist in modern society and examines how far the artist character may be taken as functioning as a persona for the real composer of the work Because of their concern with the place of art within society the works are also engaged with inherently political questions and each opera is read in the light of the political context of its time conservatism circa World War I Americanism and democracy and the rise of National Socialism

Stages of European Romanticism Theodore Ziolkowski, 2018 Employs an innovative approach by stages to offer a unified vision of European Romanticism over the half century of its growth and decline Romanticism was a truly European phenomenon extending roughly from the French Revolution to the 1848 revolutions and embracing not only literature and drama but also music and visual arts Because of Romanticism's vast scope most treatments have restricted themselves to single countries or to specific forms notably literature art or music This book takes a wider view by considering in each of six chapters representative examples of works from across Europe and across a range of the arts that were created in a single year For instance in the first chapter focusing on the year 1798 Beethoven's *Pathétique* sonata Wordsworth and Coleridge's *Lyrical Ballads* Tieck's novel *Franz Sternbalds Wanderungen* and Goya's painting *El sueo de la raza* The following chapters treat works from the years 1808 1818 1828 1838 and 1848 This approach by stages makes it possible to determine characteristics of six stages of Romanticism in its historical and intellectual context and to note the conspicuous differences between these stages as European Romanticism developed for example the waxing and waning of religious themes the shifting visions of landscape the gradual ironic detachment from early Romanticism In sum the volume offers a unified vision of European Romanticism in all its aesthetic forms over the half century of its growth and decline Theodore Ziolkowski is Professor Emeritus of German and Comparative Literature Princeton University

The Near-Death of the Author John Potts, 2022-11-01 In the modern world of networked digital media authors must navigate many challenges Most pressingly the illegal downloading and streaming of copyright material on the internet deprives authors of royalties and in some cases it

has discouraged creativity or terminated careers Exploring technology's impact on the status and idea of authorship in today's world *The Near Death of the Author* reveals the many obstacles facing contemporary authors John Potts details how the online culture of remix and creative reuse operates in a post authorship mode with little regard for individual authorship The book explores how developments in algorithms and artificial intelligence AI have yielded novels newspaper articles musical works films and paintings without the need of human authors or artists It also examines how these AI achievements have provoked questions regarding the authorship of new works such as Does the author need to be human And more alarmingly Is there even a need for human authors Providing suggestions on how contemporary authors can endure in the world of data the book ultimately concludes that network culture has provoked the near death but not the death of the author [Ophelia and Victorian Visual Culture](#) Kimberly Rhodes,2017-07-05 Kimberly Rhodes's interdisciplinary book is the first to explore fully the complicated representational history of Shakespeare's Ophelia during the Victorian period In nineteenth century Britain the shape function and representation of women's bodies were typically regulated and interpreted by public and private institutions while emblematic fictional female figures like Ophelia functioned as idealized templates of Victorian womanhood Rhodes examines the widely disseminated representations of Ophelia from works by visual artists and writers to interpretations of her character in contemporary productions of *Hamlet* revealing her as a nexus of the struggle for the female body's subjugation By considering a broad range of materials including works by Anna Lea Merritt Elizabeth Siddal Dante Gabriel Rossetti and John Everett Millais and paying special attention to images women produced Rhodes illuminates Ophelia as a figure whose importance crossed class and national boundaries Her analysis yields fascinating insights into high and mass culture and enables transnational comparisons that reveal the compelling associations among Ophelia gender roles body image and national identity *The Historical School: From Friedrich List to the Social Market Economy* Zemfira Nazarova,2024-01-17 The monograph is a historical and philosophical analysis of the emergence and development of the German historical school and its evolution into the theory of the social market economy the penetration of the ideas of the historical school into Russia and its relevance in modern conditions [Music and Literature in German Romanticism](#) Siobhán Donovan,Robin Elliott,2004 During the Romantic era many in Germany believed music to be the highest art form representing the quintessence of Romanticism and able to express what could not be expressed in words This book studies the work of composers during this period and examines the cross over between music and literature **Hemingway, Fitzgerald and the Muse of Romantic Music** Nicole J. Camastra,2023-12-21 Both Ernest Hemingway and F Scott Fitzgerald grew up in the Midwest and were strongly influenced by Romantic music anchored by the aesthetic tastes of the German immigrants who settled across that region Hemingway's ear for form and Fitzgerald's penchant for lyricism stem from early and frequent exposure to such masters as Johannes Brahms and Franz Schubert Nostalgia is typically associated with romanticism and the acoustic longing found in Hemingway and Fitzgerald's fiction resonates with it characterized in the

narrative voices in Hemingway's *Winner Take Nothing*, Fitzgerald's *Tender Is the Night* and other of their fiction from the early thirties. Understanding that each writer has his own kind of musical biography charts new ways to read material we already think we know. Reading their work within a musico-historical context means acknowledging it as an extension of the 19th century; it means reading them as Romantic Modernists. This work reads each author's prose musically, considering how Romantic music inspired their craft and distinguished their work through the pivotal juncture of the early to mid-1930s when each man faced an artistic crisis of conscience. Initial chapters provide background information in music history. Following chapters focus on how the life of each author was shaped by music and how they worked with specific influences that grew out of steady interactions with it, evidence of which is found in archival documents and collections.

Afterlives of Romantic Intermediality Leena Eilittä, Catherine Riccio-Berry, 2015-12-24 *Afterlives of Romantic Intermediality* addresses the manifold even global artistic developments that were initiated by European Romantics. In the first section, the contributors show how the rising perspective of intermediality was discussed in philosophical terms and adapted itself to Romantic literature and music. In the second section, the contributors show how post-Romantic writers, visual artists, and composers have engaged with Romantic heritage. By exploring primary works that range from European arts to Latin American literature, these essays focus on the interdisciplinary developments that have emerged in literature, music, painting, film, architecture, and video art. Overall, the contributions in this volume demonstrate that intermedial connections or, sometimes, the conscious lack of such connections, embody intriguing aspects of modernity and postmodernity.
