Rome Reborn The Vatican Library And Renaissance Culture:

Rome Reborn Anthony Grafton,1993-01-01 The Vatican Library contains the richest collection of western manuscripts and early printed books in the world and its holdings have both reflected and helped to shape the intellectual development of Europe One of the central institutions of Italian Renaissance culture it has served since its origin in the mid fifteenth century as a center of research for topics as diverse as the early history of the city of Rome and the structure of the universe This extraordinarily beautiful book which contains over 200 color illustrations introduces the reader to the Vatican Library and examines in particular its development during the Renaissance Distinguished scholars discuss the Library s holdings and the historical circumstances of its growth presenting a fascinating cast of characters popes artists collectors scholars and scientists who influenced how the Library evolved The authors examine subjects ranging from Renaissance humanism to Church relations with China and the Islamic world to the status of medicine and the life sciences in antiquity and during the Renaissance Their essays are supported by a lavish display of maps books prints and other examples of the Library s collection including the Palatine Virgil a fifth century manuscript a letter from King Henry VIII to Anne Boleyn and an autographed poem by Petrarch The book serves as the catalog for a major exhibition at the Library of Congress that presents a selection of the Vatican Library s magnificent treasures Rome reborn ,1996 **Rome Reborn** ,1996 Presents one of the great libraries of the world the Biblioteca Apostolica Vaticana Vatican Library and manuscripts rare books maps and fine prints in its collection **Teologie** ,199? **Sapientia Astrologica: Astrology, Magic and Natural Knowledge, ca. 1250-1800** H Darrel Rutkin,2019-04-24 This book explores the changing perspective of astrology from the Middle Ages to the Early Modern Era It introduces a framework for understanding both its former centrality and its later removal from legitimate knowledge and practice The discussion reconstructs the changing roles of astrology in Western science theology and culture from 1250 to 1500 The author considers both the how and the why He analyzes and integrates a broad range of sources This analysis shows that the history of astrology in particular the story of the protracted criticism and ultimate removal of astrology from the realm of legitimate knowledge and practice is crucial for fully understanding the transition from premodern Aristotelian Ptolemaic natural philosophy to modern Newtonian science This removal the author argues was neither obvious nor unproblematic Astrology was not some sort of magical nebulous hodge podge of beliefs Rather astrology emerged in the 13th century as a richly mathematical system that served to integrate astronomy and natural philosophy precisely the aim of the New Science of the 17th century As such it becomes a fundamentally important historical question to determine why this promising astrological synthesis was rejected in favor of a rather different mathematical natural philosophy and one with a very different causal structure than Aristotle s **Thornton and Tully's Scientific Books, Libraries and Collectors** Andrew Hunter,2016-12-05 In the 25 years since the last edition of Thornton and Tully s Scientific Books Libraries and Collectors was published scientific publishing has mushroomed developed new forms and the academic

discipline and popular appreciation of the history of science have grown apace This fourth edition discusses these changes and ponders the implications of developments in publishing at the end of the twentieth century while concentrating its gaze upon the dissemination of scientific ideas and knowledge from Antiquity to the industrial age In this shift of focus it departs from previous editions and for the first time a chapter on Islamic science is included Recurrent themes in several of the ten essays in the present volume are the definition of science itself and its transmutation by publishing media and the social context Two essays on the collecting of scientific books provide a counterpoint and the book is grounded on a rigorous chapter on bibliographies The timely publication of *Scientific Books Libraries and Collectors* comes at the coincidence of the advent of electronic publishing and the millennium a dramatic moment at which to take stock *The Story of Libraries, Second Edition* Fred Lerner, 2009-12-24 This work describes the crucial role libraries played in ancient Egypt Han dynasty China the ancient Western Classical world the great library of Alexandria which was lost to us in stages over many years the Baghdad of Harun al Rashid and medieval and Renaissance Europe It continues with the libraries of colonial America the Library of Congress university libraries and today's large public library system *Classical Tradition: Oxford Bibliographies Online Research Guide* Craig Kallendorf, 2010-06 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from *Oxford Bibliographies Online Renaissance and Reformation* a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries *Oxford Bibliographies Online* covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com **Health and Architecture** Mohammad Gharipour, 2021-05-06 *Health and Architecture* offers a uniquely global overview of the healthcare facility in the pre modern era engaging in a cross cultural analysis of the architectural response to medical developments and the formation of specialized hospitals as an independent building typology Whether constructed as part of Chinese palaces in the 15th century or the religious complexes in 16th century Ottoman Istanbul the healthcare facility throughout history is a built environment intended to promote healing and caring The essays in this volume address how the relationships between architectural forms associated with healthcare and other buildings in the pre modern era such as bathhouses almshouses schools and places of worship reflect changing attitudes towards healing They explore the impact of medical advances on the design of hospitals across various times and geographies and examine the historic construction processes and the stylistic connections between places of care and other

building types and their development in urban context Deploying new methodological interdisciplinary and comparative approaches to the analysis of healthcare facilities Health and Architecture demonstrates how the spaces of healthcare themselves offer some of the most powerful and practical articulations of therapy The History Highway Dennis A. Trinkle, Dorothy Auchter, Scott A. Merriman, Todd E. Larson, 2016-12-05 Save yourself and your students hours of research time Now extensively revised and expanded The History Highway is widely recognized as the one essential tool for students teachers and researchers seeking a reliable guide to history sites on the web The History Highway offers the broadest most current coverage of the astonishing amount of historical information available on the Internet provides detailed easy to use and up to date information on more than 3000 web sites covers U S and World history and all sub fields features ten new chapters with coverage of futurism environmental history immigration history and Mediterranean and Middle Eastern history all sites have been thoroughly checked by specialists in the relevant field of history the best sites in each field are clearly identified hard cover and paperback editions include a CD of the entire contents with live links to sites and e book version with live links to sites is in preparation **The Classical Tradition** Anthony Grafton, Glenn W. Most, Salvatore Settis, 2010-10-25 A vast cabinet of curiosities Stephen Greenblatt Eclectic rather than exhaustive less an encyclopedia than a buffet Frederic Raphael Literary Review How do we get from the polis to the police Or from Odysseus s sirens to those of an ambulance The legacy of ancient Greece and Rome is all around us imitated resisted reworked and misunderstood In this beautifully illustrated and encyclopedic compendium a team of leading scholars investigates the afterlife of this rich heritage in the fields of literature philosophy art architecture history politics religion and science From Academy to Zoology Aristotle and the Argonauts to Pegasus and Persia The Classical Tradition looks at facts and adages people places and ideas to reveal how the Classical tradition has shaped human endeavors from government to medicine drama to urban planning legal theory to popular culture At once authoritative and accessible learned and entertaining it illuminates the vitality of these enduring influences Library of Congress Information Bulletin ,1996 **New Horizons for Early Modern European Scholarship** Ann Blair, Nicholas Popper, 2021-08-10 This edited collection assembles a set of essays investigating the past present and future historiography of scholars who write about the cultural and intellectual history of early modern Europe Contributors examine how scholars in recent decades have broken down traditional boundaries imposed on this period by exploring shifting conceptions of periodization geography genre and evidence Library: An Unquiet History Matthew Battles, 2004-06-17 Traces the evolution of the library through the centuries **New Science, New World** Denise Albanese, 1996 In New Science New World Denise Albanese examines the discursive interconnections between two practices that emerged in the seventeenth century modern science and colonialism Drawing on the discourse analysis of Foucault the ideology critique of Marxist cultural studies and de Certeau s assertion that the modern world produces itself through alterity she argues that the beginnings of colonialism are intertwined in complex fashion with the ways in which the literary became

the exotic other and undervalued opposite of the scientific Albanese reads the inaugurators of the scientific revolution against the canonical authors of early modern literature discussing Galileo's Dialogue on the Two Chief World Systems and Bacon's New Atlantis as well as Milton's Paradise Lost and Shakespeare's The Tempest She examines how the newness or novelty of investigating nature is expressed through representations of the New World including the native the feminine the body and the heavens New is therefore shown to be a double sign referring both to the excitement associated with a knowledge oriented away from past practices and to the oppression and domination typical of the colonialist enterprise Exploring the connections between the New World and the New Science and the simultaneously emerging patterns of thought and forms of writing characteristic of modernity Albanese insists that science is at its inception a form of power knowledge and that the modern and postmodern division of Two Cultures the literary and the scientific has its antecedents in the early modern world New Science New World makes an important contribution to feminist new historicist and cultural materialist debates about the extent to which the culture of seventeenth century England is proto modern It will offer scholars and students from a wide range of fields a new critical model for historical practice

The School of Montaigne in Early Modern Europe Warren Boutcher, 2017-03-09 This major two volume study offers an interdisciplinary analysis of Montaigne's Essais and their fortunes in early modern Europe and the modern western university Volume one focuses on contexts from within Montaigne's own milieu and on the ways in which his book made him a patron author or instant classic in the eyes of his editor Marie de Gournay and his promoter Justus Lipsius Volume two focuses on the reader writers across Europe who used the Essais to make their own works from corrected editions and translations in print to life writing and personal records in manuscript The two volumes work together to offer a new picture of the book's significance in literary and intellectual history Montaigne's is now usually understood to be the school of late humanism or of Pyrrhonian scepticism This study argues that the school of Montaigne potentially included everyone in early modern Europe with occasion and means to read and write for themselves and for their friends and family unconstrained by an official function or scholastic institution For the Essais were shaped by a battle that had intensified since the Reformation and that would continue through to the pre Enlightenment period It was a battle to regulate the educated individual's judgement in reading and acting upon the two books bequeathed by God to man The book of scriptures and the book of nature were becoming more accessible through print and manuscript cultures But at the same time that access was being mediated more intensively by teachers such as clerics and humanists by censors and institutions by learned authors of past and present and by commentaries and glosses upon those authors Montaigne enfranchised the unofficial reader writer with liberties of judgement offered and taken in the specific historical conditions of his era The study draws on new ways of approaching literary history through the history of the book and of reading The Essais are treated as a mobile transnational work that travelled from Bordeaux to Paris and beyond to markets in other countries from England and Switzerland to Italy and the Low Countries Close analysis

of editions paratexts translations and annotated copies is informed by a distinct concept of the social context of a text The concept is derived from anthropologist Alfred Gell's notion of the art nexus the specific types of actions and agency relations mediated by works of art understood as indexes that give rise to inferences of particular kinds Throughout the two volumes the focus is on the particular nexus in which a copy an edition an extract is embedded and on the way that nexus might be described by early modern people
