motherland where people of all colours and creeds can live together in harmony without imposing their religious convictions on others Who is ruling a country is not so important for the ordinary people but how it is being ruled is of paramount importance The economic scale which measures the rich and poor countries of the world is inappropriate to measure the joy and sorrow of their people Common people all over the earth believe in living in true peace and happiness rather than with material comforts The more we interfere with nature the more we will suffer for it The root of this is the relentless desire for more pleasure and power We must respect and accept natural laws as we are not above the laws of nature In nature there is no such thing as rich or poor People in the financial economy are arbitrarily putting a monetary value on the natural economy which makes the natural economy unsustainable Once you have the picture in your mind s eye you will lucidly understand that the greatest damage being done to our planet today is being done by humans On no account must we work anymore against nature but together with it
