Roots Of Rebellion Workers Politics And Organizations In St Petersburg And Moscow 1900 1914:

Roots of Rebellion Victoria E. Bonnell, 1983 *Society and Politics in the Russian Revolution* R. Service, 1992-05-12 The Russian Revolution of 1917 was an event of the greatest importance but the social groups which were crucial to its development and outcome have been little written about This book brings together a number of prominent British researchers whose work focusses on the connections among politics social aspirations and economics and offers new insights into the reasons why only months after the last tsar fell from power in February 1917 it was the Bolsheviks who seized control and established a communist regime **Lenin and the Revolutionary Party** Paul Le Blanc, 2016-02-01 For generations historians of the right left and center have all debated the best way to understand V I Lenin s role in shaping the Bolshevik party in the years leading up to the Russian Revolution At their worst these studies locate his influence in the forcefulness of his personality At their best they show how Lenin moved other Bolsheviks through patient argument and political debate Yet remarkably few have attempted to document the ways his ideas changed or how they were in turn shaped by the party he played such a central role in building In this thorough concise and accessible introduction to Lenin s theory and practice of revolutionary politics Paul Le Blanc gives a vibrant sense of the historical context of the socialist movement in Russia and abroad from which Lenin s ideas about revolutionary organization spring What emerges from Le Blanc s partisan yet measured account is an image of a collaborative ever adaptive and dynamically engaged network of revolutionary activists who formed the core of the Bolshevik party *The Tsar's Viceroy* Richard G. Robbins, 2019-06-30 Wrestling with a would be assassin inspecting the toilets in a rural prison responding to a challenge from his mistress s enraged husband all these matters could be part of a Russian provincial governor s day More often he was entangled in administrative routine troubled by a steady flow of orders from St Petersburg and tormented by complaints from local powerbrokers What was His Excellency the tsar s viceroy a bureaucratic flunky or a harassed politician Drawing on a broad range of materials in Soviet and Western archives Richard Robbins here gives us a richly textured portrait of the Russian provincial governors in the last years of the old regime He focuses on the governors as people and working officials emphasizing their relations with government bureaucrats representatives of the privileged classes peasants and proletarians Robbins uses anecdotal evidence to good effect in drawing a vivid picture of provincial life at the turn of the century He persuades us that the popular image etched by Gogol and Dostoyevsky of the governor as incompetent and corrupt is in need of revision With convincing detail he demonstrates that the viceroys of the late imperial period were increasingly professional and some of them proved to be remarkably skilled politicians *The Tsarist Secret Police and Russian Society, 1880-1917* Fredric S. Zuckerman, 1996-05 Karakozov in 1866 Russian political life became trapped within a vicious circle of political reaction growing disillusionment with the government and intensifying political dissent that increasingly manifested itself in acts of terrorism against Tsarist officials *Regime and Society in Twentieth-Century Russia* Ian D. Thatcher, 2016-07-27 This book contains fresh

approaches to the interaction between regime and society in twentieth century Russia It offers new answers to familiar questions How useful is totalitarianism as a model to categorise authoritarian regimes What chances existed for tsarism to establish itself as a constitutional monarchy Were Trotsky and Lenin dictators in waiting How did the Bolsheviks make the Lenin cult What opposition did intellectuals offer in the Soviet regime What is the nature of contemporary Russian constitutionalism It is required reading for historians political scientists sociologists and everyone interested in modern Russia

Corporate Policing, Yellow Unionism, and Strikebreaking, 1890-1930 Matteo Millan, Alessandro Saluppo, 2020-12-27 This book provides a comparative and transnational examination of the complex and multifaceted experiences of anti labour mobilisation from the bitter social conflicts of the pre war period through the epochal tremors of war and revolution and the violent spasms of the 1920s and 1930s It retraces the formation of an extensive market for corporate policing privately contracted security and yellow unionism as well as processes of professionalisation in strikebreaking activities labour espionage and surveillance It reconstructs the diverse spectrum of right wing patriotic leagues and vigilante corps which in support or in competition with law enforcement agencies sought to counter the dual dangers of industrial militancy and revolutionary situations Although considerable research has been done on the rise of socialist parties and trade unions the repressive policies of their opponents have been generally left unexamined This book fills this gap by reconstructing the methods and strategies used by state authorities and employers to counter outbreaks of labour militancy on a global scale It adopts a long term chronology that sheds light on the shocks and strains that marked industrial societies during their turbulent transition into mass politics from the bitter social conflicts of the pre war period through the epochal tremors of war and revolution and the violent spasms of the 1920s and 1930s Offering a new angle of vision to examine the violent transition to mass politics in industrial societies this is of great interest to scholars of policing unionism and striking in the modern era The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780429354243> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Students, Professors, and the State in Tsarist Russia Samuel D. Kassow, 1989-01-01 The first systematic and exhaustive study of one of the most important social and political developments in pre October Russia It ranks among the best studies in modern Russian history Alexander Vucinich author of *Empire of Knowledge and Darwin in Russian Thought*

The Cambridge Companion to Modern Russian Culture Nicholas Rzhevsky, 1999-02-25 Russia is a dominant force in the world whose culture has been shaped by its unique position on the margins of both East and West As Russia faces new cultural challenges from outside its national boundaries this volume introduces Russian culture in all its rich diversity including the historical conditions that helped shape it and the arts that express its highest achievements Newly commissioned essays by leading scholars explore language religion geography ideological structures folk ethos and popular culture literature music theatre art and film A chronology and guides to further reading are also provided The Companion

offers both historical orientation for the central processes of Russian culture and introductory surveys of the arts in their modern context Overall the volume reveals for students academic researchers and all those interested in Russia the dilemmas strengths and complexities of the Russian cultural experience **The Russian Worker** Victoria E.

Bonnell,2023-09-01 Here for the first time in English translation are contemporary accounts of working class life during the final decades of the Russian Empire Written by workers and other close observers of their milieu these five selections recreate the world of Russian labor during a period of rapid industrialization and social change a world far more complex and varied than has often been assumed The accounts in *The Russian Worker* explore the daily experiences social relations and aspirations of factory artisanal and sales clerical workers both in and outside the place of employment Through the eyes of contemporaries we see the routine the organization of work and authority relations on the shop floor as well as conditions that workers encountered in providing for food and lodging and their experiences in the areas of religion recreation cultural activities family ties and links with the countryside With its vivid and detailed descriptions of working class life *The Russian Worker* provides new material on such important topics as the formation of workers social identities the position of women patterns of stratification and workers concepts of status differentiation An introductory essay by Victoria Bonnell places the selections in an historical context and examines some of the central issues in the study of Russian labor The collection will be of value not only to specialists in the Russian field but also to historians sociologists economists and others with an interest in the sociology of work and the history of working women Here for the first time in English translation are contemporary accounts of working class life during the final decades of the Russian Empire Written by workers and other close observers of their milieu these five selections recreate the world of Russ **Modern Revolutions** John Dunn,1989-06-22 Many political

regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves *The Accidental Proletariat* Walter D. Connor,2014-07-14 Walter Connor shows how the seven decades since Stalin launched the First Five Year plan have changed Soviet workers from a disorganized mass of unskilled ex peasants into something very much like a class not the working class intended by Lenin and Stalin but a new and powerful accidental proletariat produced by forces partly beyond the state s control Does this new proletariat threaten glasnost and perestroika To address that question Connor examines the growth of the new class and its role in the crisis ridden politics of

Gorbachev's USSR In this book as in his earlier works Connor focuses on the interplay of social and political forces Do workers support economic reform he asks or oppose it Are they beneficiaries or victims of Gorbachev's policies Can a Soviet state already under severe ethnic and economic strains accommodate an emergent working class politics Connor probes these issues in a work that is essential reading for students of Russian politics government officials faced with the uncertainties of a new Russia and people seeking to do business in any economy previously isolated behind geographical military and institutional barriers Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Third Revolution Murray Bookchin, 2004-06-15 Comprehensive account of the great revolutions that swept over Europe and America

The Futurist Files Iva Glisic, 2018-10-26 Futurism was Russia's first avant garde movement Gatecrashing the Russian public sphere in the early twentieth century the movement called for the destruction of everything old so that the past could not hinder the creation of a new modern society Over the next two decades the protagonists of Russian Futurism pursued their goal of modernizing human experience through radical art The success of this mission has long been the subject of scholarly debate Critics have often characterized Russian Futurism as an expression of utopian daydreaming by young artists who were unrealistic in their visions of Soviet society and naïve in their comprehension of the Bolshevik political agenda By tracing the political and ideological evolution of Russian Futurism between 1905 and 1930 Iva Glisic challenges this view demonstrating that Futurism took a calculated and systematic approach to its contemporary socio political reality This approach ultimately allowed Russia's Futurists to devise a unique artistic practice that would later become an integral element of the distinctly Soviet cultural paradigm Drawing upon a unique combination of archival materials and employing a theoretical framework inspired by the works of philosophers such as Lewis Mumford Karl Mannheim Ernst Bloch Fred Polak and Slavoj Žižek The Futurist Files presents Futurists not as blinded idealists but rather as active and judicious participants in the larger project of building a modern Soviet consciousness This fascinating study ultimately stands as a reminder that while radical ideas are often dismissed as utopian and impossible they did and can have a critical role in driving social change It will be of interest to art historians cultural historians and scholars and students of Russian history

Russia's Missing Middle Class: The Professions in Russian History Harley D. Balzer, 2016-09-16 This work describes the emergence of the professions in late tsarist Russia and their struggle for autonomy from the aristocratic state It also examines the ways in which the Russian professions both resembled and differed from their Western counterparts

The Red Flag David Priestland, 2016-05-03 The best and the most accessible one volume history of communism now available A far reaching

vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review

The News under Russia's Old Regime Louise McReynolds, 2014-07-14 In this lively account of the rise of a commercial newspaper industry in imperial Russia Louise McReynolds explores how the mass circulation press created a forum for popular opinion advocating political change From the Great Reforms of Tsar Alexander II in 1855 to the Bolsheviks shut down of the newspapers in 1917 she chronicles the exploits of publishers and editors writers and readers Arguing that this prosperous industry both expressed and shaped the development of ideas among new social groups McReynolds provides insight into the growth in Russia of a fragile pluralism characteristic of modern societies Her discussion of the relationship between communications and politics which draws especially on Jurgen Habermas combines a variety of interrelated ingredients institutional histories of major newspapers biographical sketches of journalists the intellectual impact of the new language of newspaper journalism the political ramifications of public opinion under the auspices of an autocratic government Comparing the Russian press with independent commercial newspaper industries in the United States England and France McReynolds examines the extent to which Russia was evolving according to Western political and socioeconomic patterns before the Bolshevik Revolution Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Russian Revolution in Retreat, 1920-24 , Challenging the Mandate of Heaven** Elizabeth J. Perry, 2015-05-20 Social science theories of contentious politics have been based almost exclusively on evidence drawn from the European and American

experience and classic texts in the field make no mention of either the Chinese Communist revolution or the Cultural Revolution surely two of the most momentous social movements of the twentieth century Moreover China s record of popular upheaval stretches back well beyond this century indeed all the way back to the third century B C This book by bringing together studies of protest that span the imperial Republican and Communist eras introduces Chinese patterns and provides a forum to consider ways in which contentious politics in China might serve to reinforce refine or reshape theories derived from Western cases

Jewish Public Culture in the Late Russian Empire Jeffrey Veidlinger, 2009-04-14 In the midst of the violent revolutionary turmoil that accompanied the last decade of tsarist rule in the Russian Empire many Jews came to reject what they regarded as the apocalyptic and utopian prophecies of political dreamers and religious fanatics preferring instead to focus on the promotion of cultural development in the present Jewish Public Culture in the Late Russian Empire examines the cultural identities that Jews were creating and disseminating through voluntary associations such as libraries drama circles literary clubs historical societies and even fire brigades Jeffrey Veidlinger explores the venues in which prominent cultural figures including Sholem Aleichem Mendele Moykher Sforim and Simon Dubnov interacted with the general Jewish public encouraging Jewish expression within Russia s multicultural society By highlighting the cultural experiences shared by Jews of diverse social backgrounds from seamstresses to parliamentarians and in disparate geographic locales from Ukrainian shtetls to Polish metropolises the book revises traditional views of Jewish society in the late Russian Empire

Unveiling the Power of Verbal Art: An Psychological Sojourn through **Roots Of Rebellion Workers Politics And Organizations In St Petersburg And Moscow 1900 1914**

In some sort of inundated with screens and the cacophony of instantaneous conversation, the profound energy and mental resonance of verbal beauty frequently disappear in to obscurity, eclipsed by the continuous onslaught of sound and distractions. Yet, nestled within the lyrical pages of **Roots Of Rebellion Workers Politics And Organizations In St Petersburg And Moscow 1900 1914**, a charming function of fictional beauty that pulses with raw feelings, lies an unique journey waiting to be embarked upon.
