Roots Of Disunity:

ROOTS OF DISUNITY. ,2003 The Roots of Disunity David Bell,1992 *ROOTS OF DISUNITY-INTRO. AND CH. 1* ,2003 Unspoken History of India of Six-Thousand Years Anand Mohun Sinha,2011-02-25 An evolved civilization existed in India much before the advent of Roman Greek Egyptian or Chinese civilizations in this world And yet India is the only country among them which went into subjugation in the last millennium This book gives an insight into its reasons It also brings out why Indians are brilliant individually but collectively they belong to a third world country It dwells on their strength and weaknesses developed over 6000 years which remain unspoken or spoken in disguise Also it reflects on the reasons why great men like Shiv Ganesh Hanuman and Krishna who were born just like Christ Mohammed and Buddha were consigned into mythology The readers may find much rationality in its bold attempt to reveal the harsh truth It also provides thought provoking solutions to ponder and act **Rescuing History from the Nation** Prasenjit Duara,1996-11-20 Prasenjit Duara offers the first systematic account of the relationship between the nation state nationalism and the concept of linear history Focusing primarily on China and including discussion of India Duara argues that many historians of postcolonial nation states have adopted a linear evolutionary history of the Enlightenment colonial model As a result they have written repressive exclusionary and incomplete accounts The backlash against such histories has resulted in a tendency to view the past as largely constructed imagined or invented In this book Duara offers a way out of the impasse between constructionism and the evolving nation he redefines history as a series of multiple often conflicting narratives produced simultaneously at national local and transnational levels In a series of closely linked case studies he considers such examples as the very different histories produced by Chinese nationalist reformers and partisans of popular religions the conflicting narratives of statist nationalists and of advocates of federalism in early twentieth century China He demonstrates the necessity of incorporating contestation appropriation repression and the return of the repressed subject into any account of the past that will be meaningful to the present Duara demonstrates how to write histories that resist being pressed into the service of the national subject in its progress or stalled progress toward modernity *Ethnic Relations in Canada* Raymond Breton,2005-10-13 The introduction by Jeffrey Reitz focuses on the evolution of Breton s distinctive institutional framework which both extends and in some ways alters John Porter s classic analysis in *The Vertical Mosaic* Reitz shows how Breton s original concept of institutional completeness has been extended to provide a comprehensive framework for the institutional analysis of inter ethnic relations creating a unified theoretical structure that has reshaped the study of inter ethnic relations in Canada and points toward a future research agenda *Borders and Boundaries* Tomás Finn,Kieran Hoare,2025-09-18 This book examines the making and remaking of borders and boundaries primarily relating to Ireland *Borders and Boundaries* features selected papers from the 33rd Irish Conference of Historians held by the University of Galway in May 2021 on the theme of *Borders and Boundaries* It covers the medieval to the contemporary allowing a long view to be taken of the north west border

of Ireland the borders of the early modern state the impact of the partition of Ireland and social boundaries in the late twentieth century It aims to stimulate debate and highlight how borders can be written out of history while remaining essential to comprehending the making and remaking of our worlds This volume will be of value for those interested in border studies Irish history and modern history *Roasting Chestnuts* Ian Stewart,1994-11-01 *Roasting Chestnuts* The Mythology of Maritime Political Culture is a book about outdated political stereotypes The Maritime provinces of New Brunswick Prince Edward Island and Nova Scotia are often regarded as pre modern hinterland in which corrupt practices and traditional loyalties continue to predominate While this depiction of Maritime political life may at one time have been largely accurate this is no longer the case Employing a variety of indicators this book argues that a new set of political images is needed to capture Maritime political reality today What emerges from the analysis is a picture of Maritime politics which no longer differs markedly from that which exists in the rest of Canada Maritimers no longer exhibit remarkably low levels of political trust and efficacy nor is there a regional political culture which transcends provincial boundaries In fact Maritime political elites have been innovators providing radical departures from Canadian political norms A unique and innovative study *Roasting Chestnuts* seeks to demystify Maritime politics and expose the flimsy basis for many of the region s lasting political stereotypes **Celebrating Canada** Mathew Hayday, Raymond B. Blake,2017-01-06 Holidays are a key to helping us understand the transformation of national regional community and ethnic identities In *Celebrating Canada* Matthew Hayday and Raymond Blake situate Canada in an international context as they examine the history and evolution of our national and provincial holidays and annual celebrations The contributors to this volume examine such holidays as Dominion Day Victoria Day Quebec s F te Nationale and Canadian Thanksgiving among many others They also examine how Canadians celebrate the national days of other countries like the Fourth of July and how Dominion Day was observed in the United Kingdom Drawing heavily on primary source research and theories of nationalism identities and invented traditions the essays in this collection deepen our understanding of how these holidays have influenced the evolution of Canadian identities **The Homiletic Review** ,1920 **Recovering the Margins of American Religious History** B. Dwain Waldrep, Scott Billingsley,2012-04-03 Harrell s connections with these religious movements point to his deeper ongoing concerns with class gender and race as core factors behind religious institutions and he has unblinkingly investigated a wide range of social dynamics **Looking West** Loleen Berdahl, Roger Gibbins,2014-02-25 Although a history of protest politics has done so much to define western Canada and to place it outside the Canadian mainstream the aspirations and frustrations that animated western discontent over the years have been replaced by a new reality the West is in and many of the levers of national economic and political power rest in western Canadian hands The protest tradition has yielded a dynamic region that leads rather than reacts to national economic social and political change The westward shift of the Canadian economy and demography is likely to be an enduring structural change that reflects and is reinforced by the transformation of the

continental and global economies At the same time western Canada faces major challenges including finding a place for a sustainable resource economy in a rapidly changing global environment establishing a full and modern partnership with Aboriginal peoples and creating urban environments that will attract and retain human capital None of these challenges are unique to the West but they all play out with great force and great immediacy in western Canada *Pathways in Theology* Piet Naud,,2015-05-01 This volume exhibits the engaging and challenging work of public and ecumenical theologian Piet Naud The collection of 26 essays written over three decades constitutes an important contribution to public theology by critically and creatively evaluating diverse pathways through the landscape of Ecumenical African and Reformed theologies

The Gathering Storm: Faith and Politics in a Time of Crisis

Pasquale De Marco, 2025-04-22 In the antebellum United States a nation still in its formative years the issue of slavery cast a long and divisive shadow over the land As tensions between the North and the South escalated religious communities found themselves at the heart of a moral and political maelstrom their beliefs and values tested by the looming conflict This book delves into the intricate relationship between faith and politics during this pivotal era in American history Drawing from extensive research and a wide range of primary sources it examines the beliefs and actions of religious leaders the role of churches in shaping public opinion and the impact of religious faith on the decisions and actions of individuals caught in the maelstrom of war At the heart of this conflict lay a fundamental disagreement over the morality of slavery In the Southern states where the economy was heavily reliant on slave labor many religious leaders defended slavery as a necessary evil ordained by God and essential for maintaining social order They argued that the Bible sanctioned slavery and that the institution was consistent with Christian principles In contrast religious leaders in the North condemned slavery as a sin a violation of the fundamental principles of Christianity They argued that the Bible called for the liberation of the oppressed and that slavery was an affront to human dignity This divide between Northern and Southern religious leaders mirrored the growing political divide between the two regions further fueling tensions and hardening positions Beyond the issue of slavery the impending conflict also raised profound questions about the nature of faith itself Many Americans both Northerners and Southerners struggled to reconcile their religious beliefs with the realities of war They grappled with questions about the role of violence the limits of obedience to authority and the possibility of redemption in the midst of conflict The Gathering Storm Faith and Politics in a Time of Crisis is a thought provoking and meticulously researched exploration of the intersection of faith and politics during the American Civil War It sheds new light on the beliefs and actions of religious leaders and ordinary Americans as they navigated a time of unprecedented crisis offering valuable insights into the enduring power of faith in the face of adversity If you like this book write a review on google books
