Unusual Vessels Jeff Markell,2004-02 *Unusual Vessels* is perfect for anyone interested in the sea and the craft that sail on it The strange vessels discussed here are just a few of the more curious craft that the author Jeff Markell has come across some he has sailed on some he has only seen and some only learned about from others Ranging in size color purpose and historical significance the ships described in this book will fascinate sailors and spectators like *Daily Life in the Age of Sail* Dorothy Volo,James M. Volo,2001-11-30 From the Thirteenth century through the Nineteenth the waterways of the world provided the major means of transportation for exploration trade the military and even criminals Find out what life was like for those who chose to sail the high seas as well as for those who didn't choose to be on board like wives brought to sea by husbands and slaves en route to the auction block What were their quarters like What did they eat How did they pass their long days at sea These and other questions are answered in animated prose that brings the lives of ordinary people who oftentimes engaged in extraordinary activities into sharp focus First hand accounts from such sources as personal journals and magazine articles are provided to help bring the time period alive Students will also learn what life was like in the seaport towns and what the sailors did when they visited these towns as well as the physical parts of the ships and the different roles different members of the crew played This engaging history helps to separate fact from fiction while exploring the reasons the sea and sea life have held such prominent roles in popular fiction and will help students understand what life was truly like for these people *Warfare on the Mediterranean in the Age of Sail* David S.T. Blackmore,2014-01-10

Between the last battle fought entirely under oars in 1571 and the first fought entirely under steam in 1866 naval warfare in the Middle Seas and adjacent Atlantic waters was dominated by the sailing warship This exploration of that distinct period in military history begins with an overview of the galley warfare that dominated the Mediterranean for millennia and a discussion of the technological developments including the sail and the cannon which led to the galley's demise Subsequent chapters discuss the role of sailing ships in every major conflict on the Mediterranean from the 16th century Eighty Years War to the late 19th century Austro Prussian Italian War In addition to the major battles the book also highlights smaller encounters between single ships or light squadrons important conflicts often overlooked in naval histories **Catalog of**

1696-1860 Eduard Sozaev,John Tredrea,2010-06-23 Peter the Great created a navy from nothing but it challenged and soon

surpassed Sweden as the Baltic naval power while in the Black Sea it became an essential tool in driving back the Ottoman Turks from the heartland of Europe In battle it was surprisingly successful and at times in the eighteenth century was the third largest navy in the world yet its history and especially its ships are virtually unrecorded in the West This major new reference work handsomely fills this gap with a complete and comprehensive list of the fleet with technical detail and career highlights for every ship down to small craft However because the subject is so little recorded in English the book also provides substantial background material on the organisation and administration of the navy its weapons personnel and shipbuilding facilities as well as an outline of Russias naval campaigns down to the clash with Britain and France known as the Crimean War Illustrated with plans paintings and prints rarely seen outside Russia it is authoritative reliable and comprehensive the culmination of a long collaboration between a Russian naval historian and an American ship enthusiast EDUARD SOZAEV is an established Russian naval historian with a number of books to his credit JOHN TREDREA his translator editor and long term collaborator is an American ship enthusiast with a life long interest in the Russian navy
