Servant Of Power A Political Biography Of Senator William M Stewart:

Servant of Power Russell R. Elliott,1983 **Encyclopedia of Politics of the American West** Steven L.

Danver,2013-04-25 The Encyclopedia of Politics in the American West is an A to Z reference work on the political development of one of America s most politically distinct not to mention its fastest growing region This work will cover not only the significant events and actors of Western politics but also deal with key institutional historical environmental and sociopolitical themes and concepts that are important to more fully understanding the politics of the West over the last century *The Infamous King Of The Comstock* Michael J. Makley,2006-01-09 William Sharon was one of the most colorful scoundrels in the nineteenth century mining West He epitomized the robber barons of the nation s Gilded Age and the political corruption and moral decay for which that period remains notorious yet he was also a visionary capitalist who controlled more than a dozen of the greatest mines on Nevada s mighty Comstock Lode built the Virginia the machinations of rampant Gilded Age capitalism and the sophisticated financial and technological infrastructure that supported Virginia City s boomtown economy The Infamous King of the Comstock offers a significant fresh perspective on Nevada and the mining West

Senators of the United States ,1995 *The Sagebrush State, 3d Edition* Michael W. Bowers,2012-05-15 Since its publication in 1996 The Sagebrush State has served as the text for the required course on Nevada s history and constitution given at the state s colleges and universities The third edition of this work is updated through 2005 to include information on the elections of 2002 and 2004 and two very controversial sessions of the legislature The full text of the state constitution is provided for reference in an appendix and includes extensive annotations that note and explain amendments and other changes made to the original 1864 document **Freedom, Union, and Power** Michael S. Green,2004 Freedom Union and Power analyzes the beliefs of the Republican Party during the Civil War how those beliefs changed and what those changes foreshadowed for the future The party s pre war ideology of free soil free labor free men changed with the Republican ascent to power in the White House With Lincoln s election Republicans faced something new responsibility for the government With responsibility came the need to wage a war for the survival of that government the country and the party And with victory in the war came responsibility responsibility for saving the Union by ending slavery and for pursuing policies that fit into their belief in a strong free Union Michael Green shows how Republicans had to wield federal power to stop a rebellion against freedom and union Crucial to their use of federal power was their hope of keeping that power the intersection of policy and politics **The Sagebrush State, 4th Ed** Michael W. Bowers,2013-11-13 Nevada s politics have been formed in large measure by its turbulent history and harsh environment Bowers concise volume explains the dynamics of this process which is strikingly unique among the fifty states This is a readable and insightful explanation of how Nevada s history has formed its political culture and how its government works today The Sagebrush State includes the full text of the state constitution with extensive annotations of all amendments to the original 1864 document The Sagebrush State serves as a

text for the study of Nevada's history and constitution which is a graduation requirement at the state's colleges and universities The fourth edition of this work is updated through 2012 to include information on the elections of 2010 and 2012 and recent controversial sessions of the Legislature The Memoirs of General William Tecumseh Sherman William T. Sherman, 2025-09-23 William Tecumseh Sherman's memoirs are a key record of Civil War history and memory With extensive commentary and a new introduction this annotated edition highlights Sherman's revisions in response to his critics and contextualizes people places and events that loomed large for nineteenth century readers but have since become obscure

The American Civil War Steven E. Woodworth, 1996-12-09 The single most important volume for anyone interested in the Civil War to own and consult From the foreword by James M McPherson The first guide to Civil War literature to appear in nearly 30 years this book provides the most comprehensive up to date and informative survey and analysis of the vast body of Civil War literature More than 40 essays each by a specialist in a particular subfield of Civil War history offer unmatched thoroughness and discerning assessments of each work's value The essays cover every aspect of the war from strategy tactics and battles to logistics intelligence supply and prisoner of war camps from generals and admirals to the men in the ranks from the Atlantic to the Far West from fighting fronts to the home front Some sections cover civilian leaders the economy and foreign policy while others deal with the causes of war and aspects of Reconstruction including the African American experience during and after the war Breadth of topics is matched by breadth of genres covered Essays discuss surveys of the war general reference works published and unpublished papers diaries and letters as well as the vast body of monographic literature including books dissertations and articles Genealogical sources historical fiction and video and audio recordings also receive attention Students of the American Civil War will find this work an indispensable gateway and guide to the enormous body of information on America's pivotal experience The Trial of Democracy Xi Wang, 2012-01-01 After the Civil War Republicans teamed with activist African Americans to protect black voting rights through innovative constitutional reforms a radical transformation of southern and national political structures The Trial of Democracy is a comprehensive analysis of both the forces and mechanisms that led to the implementation of black suffrage and the ultimate failure to maintain a stable northern constituency to support enforcement on a permanent basis The reforms stirred fierce debates over the political and constitutional value of black suffrage the legitimacy of racial equality and the proper sharing of power between the state and federal governments Unlike most studies of Reconstruction this book follows these issues into the early twentieth century to examine the impact of the constitutional principles and the rise of Jim Crow Tying constitutional history to party politics The Trial of Democracy is a vital contribution to both fields *Populism and Imperialism* Nathan Jessen, 2017-07-14 In the final years of the nineteenth century as a large scale movement of farmers and laborers swept much the country the United States engaged in an ostensibly anti colonial war against Spain and a colonial war of its own in the Philippines How one related to the other the nature of the activists involvement in foreign policy

debates and the influence of these wars upon the prospects for domestic reform is what Nathan Jessen explores in *Populism and Imperialism* American reformers at the turn of the twentieth century have long been misrepresented as accomplices of empire Rather as *Populism and Imperialism* makes clear they were imperialism's chief opponents and that opposition contributed to their ultimate defeat Correcting the record Jessen charts the fortunes of the Populists through the nineteenth century's last decade He shows that contrary to the standard narrative Populists remained powerful in the West after the election of 1896 they only suffered their final political reverses in 1900 after being branded as unpatriotic traitors by their opponents In fact the Populists and Democrats in the West favored war with Spain for humanitarian reasons some among them led the opposition to Hawaiian annexation and as leaders of the anti imperialists in Congress from 1899 on the occupation of the Philippines Jessen also addresses the little studied money power conspiracy theory that explains a key element of the Populist worldview This theory linking European imperialism and the growing economic and political power of financiers stirred Populist opposition to American imperialism as well *Populism and Imperialism* revises a critical chapter in US history and offers lessons for the present as well as insights into the nation's past

Reclamation Managing Water in the West, The Bureau of Reclamation: Origins and Growth to 1945, Vol. 1, 2006 **Prestatehood Legal**

Materials Michael Chiorazzi, 2013-05-13 Explore the controversial legal history of the formation of the United States Prestatehood Legal Materials is your one stop guide to the history and development of law in the U S and the change from territory to statehood Unprecedented in its coverage of territorial government this book identifies a wide range of available resources from each state to reveal the underlying legal principles that helped form the United States In this unique publication a state expert compiles each chapter using his or her own style culminating in a diverse sourcebook that is interesting as well as informative In Prestatehood Legal Materials you will find bibliographies references and discussion on a varied list of source materials including state codes drafted by Congress county state and national archives journals and digests state and federal reports citations surveys and studies books manuscripts papers speeches and theses town and city records and documents Web sites to help your search for more information and more Prestatehood Legal Materials provides you with brief overviews of state histories from colonization to acceptance into the United States In this book you will see how foreign countries controlled the laws of these territories and how these states eventually broke away to govern themselves The text also covers the legal issues with Native Americans inter state and the Mexico and Canadian borders and the development of the executive legislative and judicial branches of state government This guide focuses on materials that are readily available to historians political scientists legal scholars and researchers Resources that assist in locating not so easily accessible materials are also covered Special sections focus on the legal resources of colonial New York City and Washington DC which is still technically in its prestatehood stage Due to the enormity of this project the editor of Prestatehood Legal Materials created a Web page where updates corrections additions and more will be posted *Engineer*

Historical Studies ,1979 Engineers and Irrigation United States. Board of Commissioners on the Irrigation of the San Joaquin, Tulare, and Sacramento Valleys of the State of California,1990 **The Silver State, 3rd Edition** James W. Hulse,2012-06-07 Nevada has changed dramatically over the past quarter century and in this third edition of *The Silver State* renowned historian James W Hulse recounts the major events historical political and social that have shaped our state Hulse s cohesive approach offers students and general readers an accessible account of Nevada s colorful history The new edition highlights the social and political changes that have occurred since the original publication of *The Silver State* in 1991 Hulse discusses the impact of a growing population changes in the economy and education system expanding roles of women recent developments in state politics including the 2003 legislative session the influence of Nevada s growing ethnic population and increasingly divergent demographic groups and the impact of federal policies including President George W Bush s 2002 decision to authorize the opening of a nuclear waste depository at Yucca Mountain In addition all the recommended reading lists have been updated *The Silver State* explores many dimensions of the Nevada experience and its peoples This book will inspire readers to take another look at the rich cultural heritage and eventful history of Nevada the *Silver State* **A River Running West** Donald Worster,2002-11-28 If the word hero still belonged in the historian s lexicon it would certainly be applied to John Wesley Powell Intrepid explorer careful scientist talented writer and dedicated conservationist Powell led the expedition that put the Colorado River on American maps and revealed the Grand Canyon to the world Now comes the first biography of this towering figure in almost fifty years a book that captures his life in all its heroism idealism and ambivalent ambiguous humanity In *A River Running West* Donald Worster one of our leading Western historians tells the story of Powell s great adventures and describes his historical significance with compelling clarity and skill Worster paints a vivid portrait of how this man emerged from the early nineteenth century world of immigrants fervent religion and rough and tumble rural culture and barely survived the Civil War battle at Shiloh The heart of Worster s biography is Powell s epic journey down the Colorado in 1869 a tale of harrowing experiences lethal accidents and breathtaking discoveries After years in the region collecting rocks and fossils and learning to speak the local Native American languages Powell returned to Washington as an eloquent advocate for the West one of America s first and most influential conservationists But in the end he fell victim to a clique of Western politicians who pushed for unfettered economic development relegating the aging explorer to a quiet life of anthropological contemplation John Wesley Powell embodied the energy optimism and westward impulse of the young United States *A River Running West* is a gorgeously written magisterial account of this great American explorer and environmental pioneer a true story of undaunted courage in the American West Legislating Racism Thomas Adams Upchurch,2021-10-21 The Civil War and Reconstruction were characterized by two lasting legacies the failure to bring racial harmony to the South and the failure to foster reconciliation between the North and South The nation was left with a festering race problem as a white dominated society and political

structure debated the proper role for blacks At the national level both sides harbored bitter feelings toward the other which often resulted in clashes among congressmen that inflamed rather than solved the race problem No Congress expended more energy debating this issue than the Fifty First or Billion Dollar Congress of 1889 1891 The Congress debated several controversial solutions provoking discussion far beyond the halls of government and shaping the course of race relations for twentieth century America Legislating Racism proposes that these congressional debates actually created a climate for the first truly frank national discussion of racial issues in the United States In an historic moment of unusual honesty and openness a majority of congressmen newspaper editors magazine contributors and the American public came to admit their racial prejudice against not only blacks but all minority races If the majority of white Americans not just those in the South harbored racist sentiments many wondered whether Americans should simply accept racism as the American way Thomas Adams Upchurch contends that the Fifty First Congress in trying to solve the race problem in fact began the process of making racism socially and politically acceptable for a whole generation inadvertently giving birth to the Jim Crow era of American history

Encyclopedia of Immigration and Migration in the American West Gordon Morris

Bakken,Alexandra Kindell,2006-02-24 To read some sample entries or to view the Readers Guide click on Sample Chapters Additional Materials in the left column under About This Book Immigration from foreign countries was a small part of the peopling of the American West but an important aspect in building western infrastructure cities and neighborhoods The Encyclopedia of Immigration and Migration in the American West provides much more than ethnic groups crossing the plains landing at ports or crossing borders this two volume work makes the history of the American West an important part of the American experience Through sweeping entries focused biographies community histories economic enterprise analysis and demographic studies this Encyclopedia presents the tapestry of the West and its population during various periods of migration The two volumes examine the settling of the West and include coverage of movements of American Indians African Americans and the often forgotten role of women in the West s development Key Features Represents many of the American Indian tribes and bands that constitute our native heritage in an attempt to reintegrate the significance of their migrations with those of later arrivals Examines how African Americans and countless other ethnic groups moved west for new opportunities to better their lives Looks at specific economic opportunities such as mineral exploration and the development of instant cities Provides specific entries on immigration law to give readers a sense of how immigration and migration have been involved in the public sphere Includes biographies of certain individuals who represent the ordinary as well as extraordinary efforts it took to populate the region Key Themes American Indians Biographies Cities and Towns Economic Change and War Ethnic and Racial Groups Immigration Laws and Policies Libraries Natural Resources Events and Laws The Way West The Encyclopedia of Immigration and Migration in the American West brings new insight on this region stimulates research ideas and invites scholars to raise new questions It is a must have reference for any academic library

Devils Will

Reign Sally Zanjani, 2007-08-01 Nevada entered the Union in 1864 as the thirty sixth state a mere two decades after John Charles Fremont and his party undertook the first Euro American exploration of the Great Basin. However the intervening years were exceptionally eventful gold was discovered in California in 1848 the debate over slavery in the territories made the Far West a significant topic of congressional concern and the Mormon establishment in Utah stimulated national suspicion of the sect's ambitions and policies giving this remote sparsely populated region on the eastern slope of the Sierra Nevada an importance that it probably would not have had in less turbulent times. In 1849 more than 22 000 people traveled the emigrant trails across the Great Basin and soon Mormons from Utah set up a trading station in the Carson Valley to reap profit from the emigrant trade and anchor the western periphery of what their leader Brigham Young envisioned as a Mormon inland empire. Miners in Gold Canyon just south of what is now Virginia City and settlers in the Carson Valley were pushing the Native Americans out of their ancient homelands and vying with one another for control of choice land and rudimentary local governments. In *Devils Will Reign* acclaimed historian Sally Zanjani recounts the momentous early history of the territory that is now known as Nevada weaving the colorful saga of this rowdy frontier into the larger story of national political crises and economic ambitions rapid development in California and religious antipathy toward the polygamous Mormons. Here are intrepid frontiersmen beleaguered Native Americans zealous Mormons and colorful characters and farmers including a group of African Americans who successfully settled in the Carson Valley. Zanjani covers the lives of the pioneers as well as the development and impact of the Comstock silver bonanza and the tenuous halting efforts of the region's residents to create first a territorial then a state government. Seldom has the process of western settlement and government making been described with such detail and insight.
