Understanding the Synagogue Service Jeffrey M. Cohen,1974 *A Service of the Synagogue in the Time of Jesus Christ* R. Henry Ferguson,1885 **The Canonization of the Synagogue Service** Lawrence A. Hoffman,1979 Lawrence A Hoffman s inquiry into the reasons for the canonization of the Jewish style synagogue service between the eighth and eleventh centuries presents a novel reinterpretation of the available evidence that will have repercussions for studies of Jewish and Christian liturgy The author suggests that Babylonian Jewish authorities attempted to fix Jewish liturgy during the height of the geonic period c 750 1025 A D in response to changing social and economic conditions and that this period customarily considered as a whole should be divided instead into three distinct eras Because the changing attitude toward liturgical canonization during this period reflects the Jewish community s self perception and its view of other groups with whom it dealt Professor Hoffman s findings cast fresh light on such important matters as the Karaite schism and the condition of the medieval Palestinian community In addition many of the ancient liturgical alternatives discussed provide essential background for studies of both Jewish and Christian liturgies of antiquity To enhance usefulness of the book for nonexperts this volume contains a glossary of liturgical terms and rubrics introductory surveys of the history of the prayers discussed and full biography and notes for further reading **Jewish Services in Synagogue and Home** Lewis Naphtali Dembitz,1898 *Library of Congress Subject Headings* Library of Congress. Fifty Lessons in Training for Service Herbert Moninger,1916 *Challenge and Conformity* Lindsey Taylor-Guthartz,2021-03-01 Orthodox Jewish women are increasingly seeking new ways to express themselves religiously and

important changes have occurred in consequence in their self definition and the part they play in the religious life of their communities Drawing on surveys and interviews across different Orthodox groups in London as well as on the author s own experience of active participation over many years this is a thoroughly researched study that analyses its findings in the context of related developments in Israel and the USA Sympathetic attention is given to women s creativity and sophistication as they struggle to develop new modes of expression that will let their voices be heard at the same time the inevitable points of conflict with the male dominated religious establishment are examined and explained There is a focus too on the impact of innovations in ritual these include not only the creation of women only spaces and women s participation in public practices traditionally reserved for men but also new personal practices often acquired on study visits to Israel which are replacing traditions learned from family members This is a much needed study of how new norms of lived religion have emerged in London influenced by both the rise of feminism and the backlash against it and also by women s new understanding of their religious roles
