Serving Those In Need A Handbook For Managing Faith Based Human Services Organizations:

Serving Those in Need Edward L. Queen, 2000 *Serving Those in Need* is a much needed source of advice from both researchers and service providers in the field. It offers the practical essential guidance leaders need to prepare for the rapidly increasing demands for their services. *Faith-Based Social Services* Stephanie C. Boddie, Ram A. Cnaan, 2012-11-12 Read the latest studies on the effectiveness of religious based services and the problems revealed in the assessment. The Charitable Choice provision and the Bush Administration's National Faith Based Initiative have broadened the scope of social services delivered through faith based organizations. There are expectations that these faith based social service providers will be more effective but how should that effectiveness be measured? *Faith Based Social Services Measures Assessments and Effectiveness* explains the nature and quality of religion based social service delivery while serving as a point of reference for future research and work. This unique source tackles the important complex issue of measuring the effectiveness of faith based social services in comparison to secular services while providing analysis of the latest available studies. *Faith Based Social Services Measures Assessments and Effectiveness* provides a conceptual analysis of FBOs faith based organizations that reflects the need to gather detailed studies to assess social service effectiveness while reviewing the crucial issues challenging public policy. The latest empirical research is detailed including the problems found when comparing secular and faith based social service providers, their organizational structures and the types of services offered. Analysis is included of the data from a three state evaluation of welfare to work programs, a study of four types of faith based services found in four cities and an assessment of a church based program for teenage drop outs. Topics in *Faith Based Social Services Measures Assessments and Effectiveness* include discussion on how social science research shunned faith based services and how this neglect affected effectiveness, problems inherent in efficacy assessment, making funding priorities decisions, the causes of outcome differences, a model of evaluation based on randomized controlled clinical trials using measurement practices currently used by the nonprofit sector, comparative case studies in transitional housing, parent education and residential substance abuse treatment programs, latest analysis of research involving faith based organizations and the provided services, efficacy, much more. *Faith Based Social Services Measures Assessments and Effectiveness* is illuminating reading, perfect for social work professionals, students, educators, sociologists, religious leaders and seminary educators. **Faith & Community: Faith-based partnerships (23:35 min.)**, 2003 Each video in this 11 volume series describes an aspect of the modern religious landscape by using Indianapolis IN as a microcosm of American society. Not by Faith Alone Julie Adkins, Laurie A. Occhipinti, Tara Hefferan, 2010-07-02 This edited collection provides an in depth ethnographic study of faith based development organizations in the United States shining a much needed critical light onto these organizations and their role in the United States by exploring the varied ways that faith based organizations attempt to mend the fissures and mitigate the effects of neoliberal capitalism poverty and the social service sector on the poor and powerless. In doing so *Not by Faith Alone* generates provocative and sophisticated analyses grounded in empirical case studies of such topics as the meaning of faith based development evaluations of faith based versus secular approaches the influence of faith orientation on program formulation and delivery and examinations of faith based organizations impacts on structural inequality and poverty alleviation. Taken together the chapters in this volume demonstrate the vital importance of ethnography for understanding the particular role of faith based agencies in development. The contributors argue for an understanding of faith based development that moves beyond either dismissing or uncritically supporting faith based initiatives. Instead contributors demonstrate the importance of grounded analysis of the specific discourses practices and beliefs that imbue faith based development with such power and reveal both the promise and the limitations of this particular vehicle of service delivery.

The Sociology of Community Connections John G. Bruhn, 2011-07-18 Many of our current social problems have been attributed to the breakdown or loss of community as a place and to the fragmentation of connections due to an extreme value of individualism in the Western world particularly in the United States Not all scholars and researchers agree that individualism and technology are the primary culprits in the loss of community as it existed in the middle decade of the 20th century Nonetheless people exist in groups and connections are vital to their existence and in the daily performance of activities The second edition of the Sociology of Community Connections will identify and help students understand community connectedness in the present and future

Charitable Choice at Work Sheila Suess Kennedy, 2006-11-17 Too often say its critics U S domestic policy is founded on ideology rather than evidence Take Charitable Choice legislation enacted with the assumption that faith based organizations can offer the best assistance to the needy at the lowest cost The Charitable Choice provision of the 1996 Welfare Reform Act buttressed by President Bush's Faith Based Initiative of 2000 encouraged religious organizations including congregations to bid on government contracts to provide social services But in neither year was data available to prove or disprove the effectiveness of such an approach Charitable Choice at Work fills this gap with a comprehensive look at the evidence for and against faith based initiatives

Sheila Suess Kennedy and Wolfgang Bielefeld review the movement's historical context along with legal analysis of constitutional concerns including privatization federalism and separation of church and state Using both qualitative and where possible statistical data the authors analyze the performance of job placement programs in three states with a representative range of religious political and demographic traits Massachusetts Indiana and North Carolina Throughout they focus on measurable outcomes as they compare non faith based with faith based organizations nonprofits with for profits and the logistics of contracting before and after Charitable Choice Among their findings in states where such information is available the composition of social service contractor pools has changed very little Reflecting their varied political cultures states have funded programs differently Faith based organizations have not been eager to seek government contracts perhaps wary of additional legal restraints and reporting burdens The authors conclude that faith based organizations appear no more effective than secular organizations at government funded social service provision that there has been no dramatic change in the social welfare landscape since Charitable Choice and that the constitutional concerns of its detractors may be valid This empirical study penetrates the fog of the culture wars moving past controversy over the role of religion in public life to offer pragmatic suggestions for policymakers and organizations who must decide how best to assist the needy

Faith-based Social Service Provision Under Charitable Choice ,2003 Rising Expectations

Arthur Emery Farnsley,2003 Rising Expectations examines the current attempts to enlist religious congregations as partners in social services and community development It highlights stark demographic realities about urban congregations in order to challenge current assumptions about welfare reform and to encourage realistic expectations for the future Both governmental officials and civic leaders are calling on religious congregations to become more active partners in social welfare reforms especially through Charitable Choice Based on research conducted in Indianapolis Indiana Farnsley examines the context for those changes and evaluates the current and potential role for congregations as community development agencies and social service providers Farnsley begins with an assessment of congregations seen as one interdependent piece in a complex urban environment He then deals with the three basic assumptions about congregations that drive contemporary faith based reforms How well do congregations know their neighbors Is smaller better and Can congregations impart values Finally the book considers plans for future implementation or expansion of reform

A Survey of Voluntaristics

David Horton Smith,2015-11-24 This article provides a survey of the growth of research on Nonprofit Sector and Voluntary Action Research now termed simply voluntaristics The author founded the organized global interdisciplinary socio behavioral science field of voluntaristics in 1971 with his formation and establishment of the Association for Research on Nonprofit Organizations and Voluntary Action ARNOVA www.arnova.org Both ARNOVA and its interdisciplinary academic journal Nonprofit and Voluntary Sector Quarterly NVSQ have served as initial models for the global diffusion of this interdisciplinary field now present in all inhabited continents and with upwards of 20 000 academic
