compromises between the movement's leaders with their individual agendas and the integration of fait accomplis when necessary. The evolving modifications were debated at length to ensure that concerns raised were legitimate and that there was agreement for decisions made. The nature and the validity of MSF's leadership were regularly challenged as was the question of how MSF should grow while remaining true to its humanitarian precepts. This case study elaborates the history of the MSF movement from inception in 1971 through 2011 when MSF legitimised an international governance system and architecture. The study is divided in two episodes. Episode One reviews MSF's first three decades 1971-2000. Episode Two is about the challenges of the early 21st century from 2001 to 2011. **Destination Japan** Eric Kennedy, 1991
