**Settlement Folk** Mina Carson,1990-03-16 Previous Edition 9780763754525      **Counter Institution** Nandini

Bagchee,2018-07-10 In the midst of current debates about the accessibility of public spaces resurfacing as a result of highly visible demonstrations and occupations this book illuminates an overlooked domain of civic participation the office workshop or building where activist groups meet to organize and plan acts of political dissent and collective participation Author Nandini Bagchee examines three repurposed buildings on the Lower East Side that have been used by activists to launch actions over the past forty years The Peace Pentagon was the headquarters of the anti war movement El Bohio was a metaphoric hut that envisioned the Puerto Rican Community as a steward of the environment and ABC No Rio appropriated from a storefront sign with missing letters was a catchy punk name that appealed to the anarchistic sensibility of the artists that ran a storefront gallery in a run down tenement In a captivating discussion of buildings and urban settings as important components of progressive struggles in New York City over more than a century Bagchee reveals how these collectively organized spaces have provided a venue for political participation while existing as a vital part of the city's civic infrastructure The counter institution explored in this book represents both a conceptual and a literal struggle to create a space for civic action in a city that is built upon real estate speculation The author reveals the fascinating tension between the impermanence of the insurgent activist practices and the permanent but maintenance heavy aspects of architecture The actors she vividly describes the war resisters the Puerto Rican organizers the housing activists the punks and artists all seized the opportunity to create what are seen as activist estates at a time and in a place where urban life itself was under attack And now when many such self organized activist buildings are imperiled by the finance driven real estate market that is New York City this book takes stock and provides visibility to these under recognized citizens initiatives Counter Institution is an innovative work that intersects architecture urban design practices and geography cartography on the one hand with history politics and sociology on the other It is a must read for anyone interested in the history of activism in New York City and how the city can inspire and encourage political engagement Through its beautifully illustrated pages where drawings maps timelines and photographs underline the connections between people politics and space readers will discover new ways to imagine buildings as a critical part of the civic infrastructure and a vital resource for the future      *Neighborhoods and Crime* Robert J. Bursik Jr.,Harold G. Grasmick,Bursik,,Grasmick,2002-01-07 This book is an excellent resource in examining the influence that community control can have on crime      *An Elusive Unity* James J. Connolly,2018-07-05 Although many observers have assumed that pluralism prevailed in American political life from the start inherited ideals of civic virtue and moral unity proved stubbornly persistent and influential The tension between these conceptions of public life was especially evident in the young nation's burgeoning cities Exploiting a wide range of sources including novels cartoons memoirs and journalistic accounts James J Connolly traces efforts to reconcile democracy and diversity in the industrializing cities of the

United States from the antebellum period through the Progressive Era The necessity of redesigning civic institutions and practices to suit city life triggered enduring disagreements centered on what came to be called machine politics Featuring plebian leadership a sharp masculinity party discipline and frank acknowledgment of social differences this new political formula first arose in eastern cities during the mid nineteenth century and became a subject of national discussion after the Civil War During the Gilded Age and Progressive Era business leaders workers and women proposed alternative understandings of how urban democracy might work Some tried to create venues for deliberation that built common ground among citizens of all classes faiths ethnicities and political persuasions But accommodating such differences proved difficult and a vision of politics as the businesslike management of a contentious modern society took precedence As Connolly makes clear machine politics offered at best a quasi democratic way to organize urban public life Where unity proved elusive machine politics provided a viable if imperfect alternative

**The Necessity of Organization** Kathleen B. Nutter, 2019-05-24

The Necessity of Organization describes Mary Kenney O Sullivan s struggle to improve labor conditions through trade unionism Appointed the first woman organizer for the American Federation of Labor in 1892 she went on to be a co founder of the Women s Trade Union League formed in 1903 as a cross class alliance of women workers and their middle and upper class allies The possibilities and limits of trade unionism for women given the class and gender constraints of the period are the focus of this book

**Gender and the Politics of Welfare Reform** Joanne L. Goodwin, 2007-12-01

The first study to explore the origins of welfare in the context of local politics this book examines the first public welfare policy created specifically for mother only families Chicago initiated the largest mothers pension program in the United States in 1911 Evolving alongside movements for industrial justice and women s suffrage the mothers pension movement hoped to provide justice for mothers and protection from life s insecurities However local politics and public finance derailed the policy and most women were required to earn Widows were more likely to receive pensions than deserted women and unwed mothers And African American mothers were routinely excluded because they were proven breadwinners yet did not compete with white men for jobs Ultimately the once uniform commitment to protect motherhood faltered on the criteria of individual support and wage earning became a major component of the policy This revealing study shows how assumptions about women s roles have historically shaped public policy and sheds new light on the ongoing controversy of welfare reform

**Choosing to Care** Kyle E. Ciani, 2019-10-01

In Choosing to Care Kyle E Ciani examines the long history of interactions between parents and social reformers from diverse backgrounds in the development of social welfare programs particularly childcare in San Diego California Ciani explores how a variety of people from destitute parents and tired guardians to benevolent advocates and professional social workers connected over childcare concerns in a city that experienced tremendous demographic changes caused by urbanization immigration and the growth of a local U S military infrastructure from 1850 to 1950 Choosing to Care examines four significant areas where San Diego s programs were distinct from and

contributed to the national childcare agenda the importance of the transnational U S Mexico border relationship in creating effective childcare programs the development of vocational education to curtail juvenile delinquency the promotion of nursery school education and the advancement of an emergency daycare program during the Great Depression and World War II Ciani shows how children from families in unstable situations especially children from Native American Asian Mexican descent African American and impoverished Anglo families challenged a social reform system that defined care as both social control and behavioral regulation Choosing to Care incorporates a broader definition of childcare to include efforts by governmental and organizational bodies and persons to maintain and nurture the physical mental and social health and development of minors when parents and guardians cannot do so It offers a more complex understanding of how multiple avenues and resources established social welfare in San Diego and other West Coast cities     The Necessity of Organization Kathleen Banks Nutter,1998     **America, History and Life** ,1994     **Political Islam** Charles E.
