Setup What The Air Force Did In Vietnam And Why:

Setup Earl H. Tilford, 2003 American military professionals especially the US Air Force have had a difficult time understanding their role in this nation's defeat in Vietnam Dr Tilford provides a critical self analysis and questions the underlying assumptions of the Air Force's strategy in Southeast Asia He argues that we must understand what went wrong in Vietnam and why and not manipulate the record and paint failure as victory He explains what led to the setup which not only resulted in a failure for airpower but also contributed to the fall of South Vietnam Laos and Cambodia to Communist forces in 1975

Setup Earl H. Tilford, Jr., 2002-04 Setup Earl H. Tilford, Air University Press, 2013-07 **Setup** Air University Press, U. S. Military, Department of Defense (DoD), Earl H. Tilford, U. S. Air Force (USAF), 2017-10-18 American military professionals especially the US Air Force have had a difficult time understanding their role in this nation's defeat in Vietnam Dr Tilford provides a critical self analysis and questions the underlying assumptions of the Air Force's strategy in Southeast Asia He argues that we must understand what went wrong in Vietnam and why and not manipulate the record and paint failure as victory He explains what led to the setup which not only resulted in a failure for airpower but also contributed to the fall of South Vietnam Laos and Cambodia to Communist forces in 1975 Tilford a retired Air Force officer and a widely respected historian in his own right is not squeamish about demolishing the myths that abound concerning the air war in Southeast Asia He is forthright in challenging both the USAF's strategic tunnel vision and the cherished misconceptions of many civilian historians whose criticisms of the air war in Vietnam are long on politics and short on facts The integrity of Dr Tilford's research his knowledge of air power theory and technology and his expertise as a historian all contribute to a high quality effort that proves among other things that neither the Air Force nor its civilian critics have yet secured a monopoly on truth In his analysis of the air war against North Vietnam Tilford presents one overwhelming lesson that USAF strategic bombing doctrine is ethnocentric and Eurocentric and is conceived utterly without regard to important cultural and political variations among potential adversaries This lesson more than any other is one that today's Air Force must learn if it is to establish any relevance in a post cold war world in which the global superpower war for which it has planned almost exclusively since 1945 becomes an ever more remote possibility Whatever the Air Force's operational role in the twenty first century turns out to be it seems likely that an air technocracy geared toward fighting a general war against a modern industrialized major power will become even less relevant than it proved to be in Korea and Vietnam At the very least the Air Force of the future will do well to heed Dr Tilford's other major conclusion that because war is more than sortie generation and getting ordnance on targets statistics are a poor substitute for strategy

Tilford, Jr., Earl H. Tilford, 2008-12-19 Tilford exposes the generals' tunnel vision He demolishes the myth that the 1972 Christmas bombing brought Hanoi to its knees His controversial thesis is that the bombing of the North and the interdiction campaign against the Ho Chi Minh Trail were in no way decisive and that USAF leadership obtusely failed to perceive that North Vietnam an agricultural nation was simply not susceptible to strategic bombing Publishers Weekly hard hitting study on the failure of American air power in the Vietnam War The acute intellectual content of the book and the author's engaging writing style make the book easy to recommend Armed Forces Journal International *Concepts for Air Force Leadership*, 1990 **Military Aspects of the Vietnam Conflict** Walter L.

The Evolution of the US Air Force Israel Guy, 2024-08-05 This book looks at the history of the US Air Force through the lens of its lack of preparedness for major wars which is shown to be a result of its organizational culture The U S Air Force is probably the most powerful military force in history both in its destructive firepower and in its ability to project it globally Yet despite its unparalleled power the Air Force entered its first three pivotal conflicts World War II the Korean War and the Vietnam War unprepared But surprisingly it was remarkably well prepared for its fourth major war the Gulf War of 1991 Could there be an underlying trait or characteristic which influenced the Air Force between the wars that historically caused the US Air Force to be unprepared for war or prepared for the wrong type of war Surprisingly there is such a factor which was quite prominent in the Air Force's complex identity its organizational culture Besides providing a historical description of the Air Force this book demonstrates clearly how its organizational culture evolved and how it caused the US Air Force to be prepared for the wrong war It also shows that when the organizational culture changed the Air Force changed its focus and arrived prepared for the following war the 1991 Gulf War This book will be of interest to students of air power strategic studies US public policy and security studies in general

The Air Force Way of War Brian D. Laslie, 2015-06-23 Laslie chronicles how the Air Force worked its way from the catastrophe of Vietnam through the triumph of the Gulf War and beyond Robert M Farley author of Grounded The U S Air Force's poor performance in Operation Linebacker II and other missions during Vietnam was partly due to the fact that they had trained their pilots according to methods devised during World War II and the Korean War when strategic bombers attacking targets were expected to take heavy losses Warfare had changed by the 1960s but the USAF had not adapted Between 1972 and 1991 however the Air

Force dramatically changed its doctrines and began to overhaul the way it trained pilots through the introduction of a groundbreaking new training program called Red Flag In The Air Force Way of War Brian D Laslie examines the revolution in pilot instruction that Red Flag brought about after Vietnam The program s new instruction methods were dubbed realistic because they prepared pilots for real life situations better than the simple cockpit simulations of the past and students gained proficiency on primary and secondary missions instead of superficially training for numerous possible scenarios In addition to discussing the program s methods Laslie analyzes the way its graduates actually functioned in combat during the 1980s and 90s in places such as Grenada Panama Libya and Iraq Military historians have traditionally emphasized the primacy of technological developments during this period and have overlooked the vital importance of advances in training but Laslie s unprecedented study of Red Flag addresses this oversight through its examination of the seminal program A refreshing look at the people and operational practices whose import far exceeds technological advances The Strategy Bridge

To Hanoi And Back: The United States Air Force And North Vietnam 1966-1973 [Illustrated Edition] Dr Wayne Thompson, 2014-08-15 Includes 3 maps and 40 photographs No experience etched itself more deeply into Air Force thinking than the air campaigns over North Vietnam Two decades later in the deserts of Southwest Asia American airmen were able to avoid the gradualism that cost so many lives and planes in the jungles of Southeast Asia Readers should come away from this book with a sympathetic understanding of the men who bombed North Vietnam Those airmen handled tough problems in ways that ultimately reshaped the Air Force into the effective instrument on display in the Gulf War This book is a sequel to Jacob Van Staaveren s Gradual Failure The Air War over North Vietnam 1965 1966 which we have also declassified and are publishing Wayne Thompson tells how the Air Force used that failure to build a more capable service a service which got a better opportunity to demonstrate the potential of air power in 1972 Dr Thompson began to learn about his subject when he was an Army draftee assigned to an Air Force intelligence station in Taiwan during the Vietnam War He took time out from writing To Hanoi and Back to serve in the Checkmate group that helped plan the Operation Desert Storm air campaign against Iraq Later he visited Air Force pilots and commanders in Italy immediately after the Operation Deliberate Force air strikes in Bosnia During Operation Allied Force over Serbia and its Kosovo province he returned to Checkmate Consequently he is keenly aware of how much the Air Force has changed in some respects how little in others Although he pays ample attention to context his book is about the Air Force He has written a well informed account that is both lively and thoughtful

America in Vietnam Herbert Y. Schandler, 2009-08-16 This controversial and timely book about the American experience in Vietnam provides the first full exploration of the perspectives of the North Vietnamese leadership before during and after the war Herbert Y Schandler offers unique insights into the mindsets of the North Vietnamese and their response to diplomatic and military actions of the Americans laying out the full scale of the disastrous U S political and military misunderstandings of Vietnamese history and motivations Including frank quotes from Vietnamese leaders the book

offers important new knowledge that allows us to learn invaluable lessons from the perspective of a victorious enemy Unlike most military officers who served in Vietnam Schandler is convinced the war was unwinnable no matter how long America stayed the course or how many resources were devoted to it He is remarkably qualified to make these judgments as an infantry commander during the Vietnam War a Pentagon policymaker and a scholar who taught at West Point and National Defense University His extensive personal interviews with North Vietnamese are drawn from his many trips to Hanoi after the war Schandler provides not only a definitive analysis of the American failure in Vietnam but a crucial foundation for exploring the potential for success in the current guerrilla wars the United States is fighting in Iraq and Afghanistan

Anti-Aircraft Artillery in Combat, 1950-1972 Mandeep Singh, 2020-04-30 An in depth look at the combat performance of ground based air defenses during the Korean War Vietnam War Middle East conflicts and other campaigns Though anti aircraft artillery was extensively used in combat in the First World War it wasn't until World War II that it came into prominence shooting down more aircraft than any other weapon and seriously degrading the conduct of air operations In the battle between the attackers and anti aircraft artillery the latter had the upper hand when the war ended The post war years saw a decline in anti aircraft artillery as peace prevailed and the advent of the jet aircraft seemed to tilt the balance in favor of the aircraft as they flew faster and higher seemingly beyond the reach of anti aircraft artillery It would take all the hi tech equipment and the guile and cunning that anti aircraft artillery could muster to try and reclaim pole position It is that story of the tug of war between the aircraft and artillery that forms the narrative of this book as it traces the history of combat employment of anti aircraft artillery from the Korean War in effect the first Jet Age war to the War of Attrition between Arab states and Israel when the missiles came of age sending the aircraft scurrying for cover Mandeep Singh's book is the first attempt to look at the performance of anti aircraft artillery incorporating the views analyses and experiences of Soviet Arab and South Asian Armies through the major wars between 1950 and 1972 Afterburner John Darrell Sherwood, 2004-05-31 Military history looking at aviators during the second half of Vietnam The stories are told through interviews and journal excerpts of the pilots and aircrew themselves Great tradey title **Military History** United States. Superintendent of Documents, 1992 *Interservice Rivalry and Airpower in the Vietnam War* Ian Horwood, 2010 Explores the rivalry between the armed services of the U S relating to the employment of tactical airpower during the Vietnam War Not being an American Horwood is able to put a fresh perspective on this complex issue This study focuses on tactical airpower in S Vietnam between 1961 and 1968 Horwood avoids a lengthy discussion of the air war over N Vietnam focusing instead on the combat operations in the South He examines a number of issues which are relevant to the use of airpower in irregular warfare command and control of airpower the use of airpower at the tactical and the operational strategic level of war the role of helicopters and different service understandings of the proper role of airpower in a counterinsurgency **A Handbook Of American Military History** Jerry Sweeney, 2019-09-25 This unique reference work covers the military

history of the United States from the Revolution to the Gulf War The Handbook of American Military History is comprehensive easy to use and supplies essential information on the social technological political tactical and strategic developments that have affected the evolution of the U S

Night Hunters William Pace Head,2014-03-18 In *Night Hunters* air power historian William P Head provides the first detailed study of the development and deployment of the AC 130 gunship While other airframes and other types of close air support CAS and interdiction weapon systems preceded or flew with the AC 130s this four engine cargo airframe proved to be not only the longest serving fixed wing gunship but also the most effective by far During the Vietnam War the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features the difficult climate and the shifting diplomatic context One of the most important was the development of the AC 130 Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam era fixed wing gunship and the only one that continues to fly missions in the twenty first century In addition it employed many of the most advanced weapons sensors targeting devices and fire control systems of the 1970s or of any era By recounting both the technical development and the combat operations of the plane and by looking at the proposed alternatives for its use in the War on Terror *Night Hunters* offers a clear view of the role of gunships and of close air support in US wars In today s never ending brushfire wars the AC 130s continue to uphold their reputation for excellence

Military Doctrine Bert Chapman,2009-09-03 This comprehensive volume provides a thorough overview of 20th and 21st century military doctrines worldwide *Military Doctrine A Reference Handbook* takes a thorough look at 20th and 21st century military doctrines around the world It excerpts relevant English language scholarly and governmental literature to paint a picture of how military doctrine has developed in recent history what military doctrines are currently operating on the world stage and where military doctrine is heading in the near future The book casts a wide net scanning the relevant government documents international agreements monographs journals conference papers and Internet resources to present a thorough overview of the importance of military doctrine in today s highly unstable world Because military institutions are important formulators of national military doctrine and not merely implementers this book examines the roles played by military organizations around the world With the proliferation of independent military scholars and the widespread influence of their work in the Internet age the book also scans the gray literature and describes its effects on military doctrine

Black Ops, Vietnam Robert M Gillespie,2011-09-15 During the Vietnam War the Military Assistance Command Vietnam Studies and Observations Group MACVSOG was a highly classified U S joint service organization that consisted of personnel from Army Special Forces the Air Force Navy SEALs Marine Corps Force Reconnaissance units and the CIA This secret organization was committed to action in Southeast Asia even before the major build up of U S forces in 1965 and also fielded a division sized element of South Vietnamese military personnel indigenous Montagnards ethnic Chinese Nungs and Taiwanese pilots in its varied reconnaissance naval air and agent

operations MACVSOG was without doubt the most unique U S unit to participate in the Vietnam War since its operational mandate authorized its missions to take place over the fence in North Vietnam Laos and Cambodia where most other American units were forbidden to go During its nine year existence it managed to participate in most of the significant operations and incidents of the conflict MACVSOG was there during the Gulf of Tonkin incidents during air operations over North Vietnam the Tet Offensive the secret bombing of and ground incursion into Cambodia Operation Lam Son 719 the Green Beret murder case the Easter Invasion the Phoenix Program and the Son Tay POW Raid The story of this extraordinary unit has never before been told in full and comes as a timely blueprint for combined arms multi national unconventional warfare in the post 9 11 age Unlike previous works on the subject Black Ops Vietnam is a complete chronological history of the unit drawn from declassified documents memoirs and previous works on the subject which tended to focus only on particular aspects of the unit s operations
