## **Seven A Day:**

**The Seven Day Circle** Eviatar Zerubavel, 1989-03-15 Days months and years were given to us by nature but we invented the week for ourselves There is nothing inevitable about a seven day cycle or about any other kind of week it represents an arbitrary rhythm imposed on our activities unrelated to anything in the natural order But where the week exists and there have been many cultures where it doesn't it is so deeply embedded in our experience that we hardly ever question its rightness or think of it as an artificial convention for most of us it is a matter of second nature **Freedom from Fear: A**

**Seventh-day Adventists and the Civil Rights Movement** Samuel G. London, 2010-02-17 Seventh day Adventists and the Civil Rights Movement is the first in depth study of the denomination's participation in civil rights politics It considers the extent to which the denomination's theology influenced how its members responded This book explores why a brave few Adventists became social and political activists and why a majority of the faithful eschewed the movement Samuel G London Jr provides a clear yet critical understanding of the history and theology of the Seventh day Adventist Church while highlighting the contributions of its members to political reform Community awareness the example of early Adventist pioneers liberationist interpretations of the Bible as well as various intellectual and theological justifications motivated the civil rights activities of some Adventists For those who participated in the civil rights movement these factors superseded the conservative ideology and theology that came to dominate the church after the passing of its founders Covering the end of the 1800s through the 1970s the book discusses how Christian fundamentalism the curse of Ham the philosophy of Booker T Washington pragmatism the aversion to ecumenism and the Social Gospel belief in the separation of church and state and American individualism converged to impact Adventist sociopolitical thought **The Seven-day Rhythms of Life** Dr. G. Kenneth Greenaway, Have you ever wondered why the entire earth operates on a seven day cycle Have you thought about how even some of the smallest animals seem to follow a weekly schedule This is NOT a coincidence Our amazing God having created this world in seven days has implanted in living things a very tiny yet powerful gland that transfers information within our bodies or even between species by biochemical neurological or photonic means The pineal gland is the rhythm

maker of our bodies and is a testament to the Sabbath created by God in Eden This seal of our Creator is non changing and anchored in time As you explore the various aspects of these biological rhythms in humans animals birds and even in insects and plants you will see how there is a larger purpose to these circadian rhythms The seven day cycle is a gift from our Creator our Redeemer of the world to accept His invitation to come to Him and find the REST He desires for us in these troubled times Congratulations Dr Kenneth Greenaway for bringing together the evidences for the biological origins of Seven day Rhythms in this succinct yet enlightening manuscript As we grasp for a greater understanding of our origins may this work lead searchers for truth to an eureka moment Dr George S Daniel M Sc Ph D      **The Seventh-day Baptist Memorial**
