Houses of the Holy Robert M. Price, 2025-02-25 In a shrinking world in which religion has become as much a motivation for war and terror as an inspiration for saintliness and benevolence it is more important than ever that we understand faiths other than our own Where did they come from How did they begin Were their legendary founders real historical individuals How do their beliefs shape their actions Which faiths are mutations of older ones Many otherwise helpful introductory volumes cover only the most populous religions and fearing most readers will shy away from going deeply into important detail they wind up grossly oversimplifying By contrast Robert M Price s Houses of the Holy fills in these blanks comprehensively and does so in clear straightforward language without cheating the necessary complexity Here you will find fascinating coverage of a full dozen religious faiths including several you have likely never even heard of *Life* Eunice Layton, 1988-10-25 Formerly published as Theosophy Key to Understanding this book is based on the many lectures presented by this husband and wife team addressing such questions as Is there some meaning to existence Is there life after death Will we live again How can we find inner peace The Laytons bring a common sense approach to the metaphysical concepts of Theosophy and relate them to the problems of people in their everyday lives *The Theosophist*, 1894 *Guide to Indian Periodical Literature*, 1976 *Tibetan Yoga and Secret Doctrines, Or, Seven Books of Wisdom of the Great Path, According to the Late Lāma Kazi Dawa-Samdup's English Rendering* Walter Yeeling Evans-Wentz, 2000 Focusing on the principal meditations used by Hindu and Tibetan gurus and philosophers this companion volume to Tibetan Book of the Dead contains seven authentic Tibetan yoga texts each accompanied by introductory notes and commentary Includes photos and reproductions of yoga paintings and manuscripts 9 halftones *Simplified Course of Hatha Yoga* Wallace Slater, 1966 Hatha Yoga deals with the care health and well being of the physical body through the conscious control of the vibrations of matter The Hatha yogi proceeds in consciousness from the physical to the mental to the spiritual leading to the development of the inner spiritual self manifesting through thoughts feelings and actions in the outer world Hatha Yoga comprehensively reveals the ancient wisdom of yoga or union of spirit and matter including asanas or yogic postures pranayama and the life principle and meditation from concentration to contemplation *Back to One* Sheldon Kopp, 1977 The author writes that he offers this detailed description of how I do therapy as a guide to encourage you to become ever clearer about the fundamentals of your own style of work **Yoga and Western Psychology** Geraldine Coster, 1998-12-31 The present work is the product of author s profound studies in India s yogic system The author has worked out this abstruse subject in a peculiarly comprehensible way The comparison of the Eastern system of Yoga with the system of analytical psychology **Library of Congress Catalog** Library of Congress, 1973 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately

1953 1955 **The Green Serpent and the Tree** James N. Judd, MS.D.,D.D.,N. James,1999-11-04 Within the human system there are certain archetypes centers or vortexes of energy As this energy or power exists at a different level than our conscious awareness it remains essentially dormant with most people but when activated usually through meditation this force has a most profound influence upon our psychological spiritual and physical nature As this inner subtle energy plays such a vital role in our overall being there is much to be gained from understanding this force and how to benefit from its power This information can be found in the ancient spiritual teachings of the Jewish Kabbala and the Hindu Kundalini Yoga but the complexity of these teachings particularly with Kabbala makes it difficult to find useful answers as to how this inner power can be utilized In *The Green Serpent and the Tree* Dr Judd cuts through the confusing terminology of these teachings and in an easy to read style using practical examples and illustrations logically explains The inner nature of man and structure of the soul How Kabbala and Kundalini Yoga can be reconciled and how they augment each other The difference between the symbols of The Tree of Life and The Tree of the Knowledge of Good and Evil Why the seven inner centers Chakras of Kundalini Yoga are the same as the ten centers Sefirot of Kabbala The significance of the Green Serpent Kundalini and the functions of the various channels that connect the inner centers The different centers with a detailed description of their psychological and spiritual influence Relationship of meditation with releasing the power from the inner centers The practical value of meditation its four stages and the physical psychological psychic and spiritual effects The risks involved in releasing these inner powers and how to avoid them The reason for the inter relationship between Kabbala and Kundalini Yoga and their original source Although this book is written in an explanatory style which guides the layman through the intricacies of these two teachings as they relate to our inner powers the material content contains much that will interest the more advanced student Based upon thorough research Dr Judd outlines in logical steps why The Tree symbol that is frequently referred to as the Tree of Life is misnamed Any attempt to reconcile the Chakras with the Sefirot using the wrong Tree symbol will lead to inaccurate conclusions The position of the Sefirot changes depending upon which Tree symbol is used There are three central channels that connect the Chakras rather than the one that is usually shown and Kabbala supports this fact This explains the different levels of power released from the same Chakra Why some of the practices used to open the Chakras involve considerable risks Anyone who wishes to expand their knowledge of Kabbala Kundalini Yoga the inner nature and powers of man meditation and the safe way to travel on the journey within will greatly benefit from the information in this book *The Publishers Weekly* ,1897 Religious Books and Serials in Print ,1982
