Pope, 1963 *Seven Great Encyclicals* Catholic Church. Pope, 1963 *Theories of the Labor Movement* Simeon Larson, Bruce Nissen, 1987 A collection of readings respecting both the history a labor theories and the variety of theoretical points of view concerning the labor movement Respecting both the history a labor theories and the variety of theoretical points of view concerning the labor movement this collection of readings includes selections by Karl Marx V I Lenin William Haywood Georges Sorel Stanley Aronowitz John R Commons Sidney and Beatrice Webb Thorstein Veblen Henry Simons and John Kenneth Galbraith among others Intending this as a text for classroom use Larson and Nissen have arranged the readings according to the social role assigned to the labor movement by each theory The text s major divisions consider the labor movement as an agent of revolution as a business institution as an agent of industrial reform as a psychological reaction to industrialism as a moral force as a destructive monopoly and as a subordinate mechanism in pluralist industrial society Such groupings allow for ready comparison of divergent views of the origins development and future of the labor movement Lonergan's Early Economic Research Bernard J. F. Lonergan, Michael Shute, 2010-01-01 Lonergan s Early Economic Research delves into the origins of Bernard Lonergan s economic theory through his own writing on the subject Michael Shute provides transcriptions of many of Lonergan s private files on economics for a deeper understanding of his groundbreaking macroeconomic theory An introduction by the editor contextualizes the works which also serve as archival materials relevant to the companion volume Lonergan s Discovery of the Science of Economics Organized around specific themes such as dialectic of history methodology economic history and price equilibrium the book makes available a substantial amount of previously unpublished texts Materials include Lonergan s earliest notes on economics prior to his move to Rome in 1933 the complete surviving portion of An Essay in Fundamental Sociology and notes on economists Heinrich Pesch and Lionel Robbins among others These early works show that Lonergan built his economic discoveries on the methodological developments that he founded in his writings on the philosophy of history **Social Economics** Edward O'Boyle, 2005-06-23 Social Economics is a way of thinking about economic affairs that begins with the philosophical foundations It begins at this level frequently overlooked by mainstream economists to illustrate how critical premises are in the construction of an economy and the repair of a dysfunctional economy Social Economics uses these premises to undertake a rich range of empirical and policy related work Much of this work is represented in this volume which brings together leading practioners from the field of social economics Subjects addressed include values and premises in social economics justice solidarity and community repairing the dysfunction of capitalist economies the transition from command economies **John Paul II and Moral Theology** Charles E. Pope Pius XII on the Economic Order Rupert J. Ederer,2011-06-06 In Pope Pius XII on the Economic Order economist Rupert J Ederer explores the views of Eugenio Pacelli who served as pope during the tumultuous period of 1939 to 1958 Prodigious in his output Pius XII produced 40 encyclicals 19 highly regarded Christmas messages and series of addresses to groups and organizations laying the groundwork for the economic views of his successors According to Ederer it is safe to say that no Roman pontiff has addressed the problems confronting the social order as frequently and as widely outside the formal structure of encyclicals as Pius XII This applies in a special way to his masterful and prophetic Christmas Messages Through the study of Pius XII s encyclicals and Christmas messages Ederer examines this important pontiff s views on economics and the social order the world of work agriculture and farmers food and population the middle class and the world of money and finance Students and scholars interested in the history of Pius XII s papacy will find in Ederer s analysis an insightful study of Catholic economic thought during an era when nations representing the forces of capitalism fascism and Communism were joined in a fierce battle for dominance

Wealth and Our Commonwealth William H. Gates,2016-02-16 The Man Bites Dog story of over 1 000 high net worth individuals who rose up to protest the repeal of the estate tax made headlines everywhere last year Central to the organization of what Newsweek tagged the billionaire backlash were two visionaries Bill Gates Sr cochair of the Bill and Melinda Gates Foundation the largest foundation on earth and Chuck Collins cofounder of United for a Fair Economy and Responsible Wealth and the great grandson of meat packer Oscar Mayer who gave away his substantial inheritance at the age of twenty six Gates and Collins argue that individual wealth is a product not only of hard work and smart choices but of the society that provides the fertile soil for success They don t subscribe to the Great Man theory of wealth creation but contend that society s investments such as economic development education health care and property rights protection all contribute to any individual s good fortune With the repeal proposed by the Bush administration we might be facing the future that Teddy Roosevelt feared where huge fortunes amassed and untaxed would evolve into a dangerous and permanent aristocracy Repeal would drop federal revenues 294 billion in the first 10 years 27 some 750 billion would be lost in the second decade not to mention that the U S Treasury estimates that charitable contributions would drop by 6 billion a year But what about all those modest families that would lose the farm Gates and Collins expose the fallacy of this argument pointing out that this is largely a myth and that the very same lobbies and politicians who are crying cows have opposed other legislation that would actually have helped small farmers Weaving in personal narratives history and plenty of solid economic sense Gates and Collins make a sound and compelling case for tax reform not repeal

Omumu - the Igbo Life-value Peter Chidi Okuma,2009 In 1998 a group of scholars with Catholic

Anglican and Jewish background gathered at a symposium to review *Humanae vitae* 30 years after its publication On the 40 year anniversary of *Humanae vitae* in 2008 the issues raised in that controversial encyclical letter still border and affect humans especially in the light of modern scientific and biotechnological development This book is a contribution to that debate in the sense of being unbiased and from an African perspective meant to balance the sense and insensibilities from both polarities of the world It is an X ray through a hermeneutical anthropological Weltanschauung worldview of the Igbo of Southeastern Nigeria Employment and Human Rights Richard L. Siegel,1994 Intellectual history is placed in the broadest possible contexts of economic political and social contexts **OUR UNFINISHED BUSINESS** Phillip Berryman,2013-02-20 What human ends are served by our economic policies To whom is what owed in our country today Is there an acceptable argument for just wars or for the proliferation of nuclear weapons In the final years of the Reagan era The U S Catholic bishops emerged as articulate sources of dissenting wisdom publicly testing our foreign and domestic policies against the principles of morality and humanity With the same succinct style of Liberation Theology Phillip Berryman analyzes two recent and widely circulated texts the 1982 Challenge of Peace on nuclear arms and the 1986 Economic Justice For All Drawing on debate in and beyond church circles over these letters Berryman argues that as we search for acceptable answers to urgent political questions we must use ethical and moral traditions if we are to confront them squarely Only then can we promote peace and prosperity for all On the Road to Emmaus Glenn W. Olsen,2012-03-05 In distinctive voice and tone cultural commentator Glenn W Olsen presents his latest work on the place of Catholicism in American history Here he clarifies the meaning of American modernity for Catholics and shows the conflicts and tensions confronting the religious person today *Will it Liberate ?* Michael Novak,1991-06-19 Michael Novak s work is challenging We often disagree sharply in our interpretations and assessments of liberation theology but he raises important issues which call for clarification and response **From Bondage to Freedom** William Stansmore,2021-01-26 There s no available information at this time Author will provide once information is available **The Spirit of Democratic Capitalism** Michael Novak,1991 In this work the author examines the roots of modern democratic capitalism from a theological point of view In his defence of Western capitalism he attempts to reconcile sound faith and sound economics Socio-Cultural and Religious Conflicts and the Future of Nigeria Lotanna Olisaemeka,2022 With the prevailing violent conflict situation of our world perpetuated sometimes even in the name of religion humanity today faces extinction To reverse this ugly trend humanity has no choice than to build a society where every tribe and tongue can coexist in peace This work analyzed the violent conflicts from anthropological behavioral politico philosophical and theological perspectives and makes a demand on humanity to save herself through proper education and dialogue with all men and religions *Current Social Issues* Sison Q.
