

A wide-angle photograph of a desert landscape. A paved road with a white dashed line runs from the bottom left towards the horizon. The ground is reddish-brown sand with some sparse green vegetation. In the distance, a bright, glowing light source is visible on the horizon. The sky is a deep blue with faint, swirling patterns. The text "SEVEN HORIZONS" is overlaid in a large, serif font, with a white bird in flight positioned above the word "HORIZONS".

Shared Secrets Elizabeth Findley Shores, 2021-02-19 Winner 2023 Booker Worthen Literary Prize For nearly a century British expatriate Charles Joseph Finger 1867 1941 was best known as an award winning author of children's literature In *Shared Secrets* Elizabeth Findley Shores relates Finger's untold story exploring the secrets that connected the author to an international community of twentieth century queer literati As a young man Finger reveled in the easy homosociality of his London polytechnical school where he launched a student literary society in the mold of the city's private men's clubs Throughout his life as he wandered from England to Patagonia to the United States he tried to recreate similarly open spaces such as Gayeta his would be art colony in Arkansas But it was through his idiosyncratic magazine *All's Well* that he constructed his most successful social network writing articles filled with coded signals and winking asides for an inner circle of understanding readers Capitalizing on the publishing opportunities of the day Finger used every means available to express his twin loves literature and men He produced an enormous body of work and his short semiautobiographical fiction won some critical acclaim Ultimately the children's book that won Finger a Newbery Medal ushered him into the public eye ending his development as an author of serious queer literature *Shared Secrets* is both the story of Finger's remarkable adventurous life and a rare look at a community of gay writers and artists who helped shaped twentieth century American culture even as they artfully concealed their own identities

Pedometrics Alex. B. McBratney, Budiman Minasny, Uta Stockmann, 2018-04-24 This book presents the basic concepts of quantitative soil science and within this framework it seeks to construct a new body of knowledge There is a growing need for quantitative approach in soil science which arises from a general demand for improved economic production and environmental management Pedometrics can be defined as the development and application of statistical and mathematical methods applicable to data analysis problems in soil science This book shows how pedometrics can address key soil related questions from a quantitative point of view It addresses four main areas which are akin to the problems of conventional pedology i Understanding the pattern of soil distribution in character space soil classification ii Understanding soil spatial and temporal variation iii Evaluating the utility and quality of soil and ultimately iv Understanding the genesis of soil This is the first book that address these problems in a coherent quantitative approach

The TRB West Group Jan Albert Bakker, 2009 A classic study of the pottery of the TRB West group originally published in 1979 Bakker deals with the research history and typochronology of the TRB pottery Also he gives a detailed account of the other TRB finds such as flint and stone artefacts and of course the most important TRB sites Over the years this book has become a standard work for anyone who is interested in hunebeds and their makers The author has written a new introduction to this reprint in which he describes how the book of 1979 came together and the research that has been carried out since then
