Seventeenth Century Dutch Drawings:

Seventeenth-century Dutch and Flemish Drawings from the Robert Lehman Collection Metropolitan Museum of Art (New York, N.Y.), George Szabó, 1979 **Dutch Seventeenth-century Genre Painting** Wayne E. Franits, 2004-01-01 The appealing genre paintings of great seventeenth century Dutch artists Vermeer Steen de Hooch Dou and others have long enjoyed tremendous popularity This comprehensive book explores the evolution of genre painting throughout the Dutch Golden Age beginning in the early 1600s and continuing through the opening years of the next century Wayne Franits a well known scholar of Dutch genre painting offers a wealth of information about these works as well as about seventeenth century Dutch culture its predilections and its prejudices The author approaches genre paintings from a variety of perspectives examining their reception among contemporary audiences and setting the works in their political cultural and economic contexts The works emerge as distinctly conventional images Franits shows as genre artists continually replicated specific styles motifs and a surprisingly restricted number of themes over the course of several generations Luxuriously illustrated and with a full representation of the major artists and the cities where genre painting flourished this book will delight students scholars and general readers alike **Seventeenth-century Dutch Drawings**, 1991 *Art in History/History in Art* David Freedberg, Jan de Vries, 1996-07-11 Historians and art historians provide a critique of existing methodologies and an interdisciplinary inquiry into seventeenth century Dutch art and culture **Seventeenth-Century Dutch Drawings** William W. Robinson, 1994-06-01 **Dutch Drawings of the Seventeenth Century** J. H. J. Mellaart, 1926 **Seventeenth Century Dutch Drawings from American Collections** Franklin W. Robinson, 1977 **An Entrance for the Eyes** Martha Hollander, 2002-03-20 How refreshing how absolutely refreshing to find a book on Dutch painting that asks readers to begin by simply looking Hollander is faithful to the possibility so common in painting so unusual in scholarship that the paintings are elusive evasive unsystematically ambiguous Doors ajar windows onto the street paintings within paintings half drawn curtains blank mirrors a man's coat hung on a nail those are the engines of interpretation and Hollander tells their history lucidly and entirely persuasively James Elkins author of *The Object Stares Back* Hollander offers fresh and compelling readings of key works by Karel van Mander Gerard Dou Nicolaes Maes and Pieter de Hooch Very few recent books on Dutch art are as rich as this and few are written in such lucid unpretentious prose What shines forth from every page is a genuine love of the pictures Here is art history well tempered to the objects it interprets Joseph L Koerner author of *The Moment of Self Portraiture in German Renaissance Art* In recent years scholars have explored how space signifies in seventeenth century Dutch art and culture Hollander's fascinating study is the most comprehensive to date It examines space as conceived in the writings of Dutch art theorists constructed in contemporary architecture and disposed and made meaningful in the work of Gerard Dou Nicolaes Maes Pieter de Hooch and Karel van Mander *An Entrance for the Eyes* lays a firm foundation for research on this intriguing and hitherto understudied aspect of Dutch art Wayne E Franits author of *Paragons*
