M.

Ramachandran,S. Rukmini,1985 **Cinema's Original Sin** Paul McEwan,2022-12-13 For over a century cinephiles and film scholars have had to grapple with an ugly artifact that sits at the beginnings of film history D W Griffith s profoundly racist epic The Birth of a Nation inspired controversy and protest at its 1915 release and was defended as both a true history of Reconstruction although it was based on fiction and a new achievement in cinematic art Paul McEwan examines the long and shifting history of its reception revealing how the film became not just a cinematic landmark but also an influential force in American aesthetics and intellectual life In every decade since 1915 filmmakers museums academics programmers and film fans have had to figure out how to deal with this troublesome object and their choices have profoundly influenced both film culture and the notion that films can be works of art Some critics tried to set aside the film s racism and concentrate on the form while others tried to relegate that racism safely to the past McEwan argues that from the earliest film retrospectives in the 1920s to the rise of remix culture in the present day controversies about this film and its meaning have profoundly shaped our understandings of film race and art The Phoenix Picturehouse: 100 Years of Oxford Cinema Memories

Deborah Allison,Hiu Man Chan,Daniela Treveri Gennari,2023-03-15 The Phoenix is one of only a handful of British cinemas to have remained active for the past 100 years This is the story of Oxford s oldest continuously operating cinema as told by its staff and customers Featuring first hand reminiscences dating back to the days of silent movies and illustrated with a fabulous collection of over 100 images many of which have never appeared in print until now The Phoenix Picturehouse presents a wide ranging account of a popular local institution whose changing fortunes exemplify a century of British cinema and cinemagoing history **Censorship and Sexuality in Bombay Cinema** Monika Mehta,2012-08-24 India produces an impressive number of films each year in a variety of languages Here Monika Mehta breaks new ground by analyzing Hindi films and exploring the censorship of gender and heterosexuality in Bombay cinema She studies how film censorship on various levels makes the female body and female sexuality pivotal in constructing national identity not just through the films themselves but also through the heated debates that occur in newspapers and other periodicals The standard claim is that the state dictates censorship and various prohibitions but Mehta explores how relationships among the state the film industry

and the public illuminate censorship's role in identity formation while also examining how desire profits and corruption are generated through the act of censoring. Committed to extending a feminist critique of mass culture in the global south, Mehta situates the story of censorship in a broad social context and traces the intriguing ways in which the heated debates on sexuality in Bombay cinema actually produce the very forms of sexuality they claim to regulate. She imagines afresh the theoretical field of censorship by combining textual analysis, archival research, and qualitative fieldwork. Her analysis reveals how central concepts of film studies such as stardom, spectacle, genre, and sound are employed and reconfigured within the ambit of state censorship, thereby expanding the scope of their application and impact.

**The Oxford Handbook of Chinese Cinemas** Carlos Rojas, Eileen Chow, 2013-04-25 What does it mean for a cinematic work to be Chinese? Does it refer specifically to a work's subject, or does it also reflect considerations of language, ethnicity, nationality, ideology, or political orientation? Such questions make any single approach to a vast field like Chinese cinema difficult at best. Accordingly, *The Oxford Handbook of Chinese Cinemas* situates the term more broadly among various different phases, genres, and distinct national configurations while taking care to address the consequences of grouping together so many disparate histories under a single banner. Offering both a platform for cross-disciplinary dialogue and a mapping of Chinese cinema as an expanded field, this Handbook presents thirty-three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies. Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry's beginnings in the 1920s up to its current forms in contemporary Hong Kong, Taiwan, and the global diaspora. Chapters in Part II feature studies centered on the field's taxonomical formalities, including such topics as the role of the Chinese opera in technological innovation, the political logic of the Maoist film, and the psychoanalytic formula of the kung fu action film. Finally, in Part III, focus is given to the structural elements that comprise a work's production, distribution, and reception to reveal the broader cinematic apparatuses within which these works are positioned. Taken together, the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship. Expertly edited to illustrate a representative set of up-to-date topics and approaches, *The Oxford Handbook of Chinese Cinemas* provides a vital addition to a burgeoning field still in its formative stages.

**Torn Sprockets** Gerald Pratley, 1987 The history of Canadian filmmaking is a fascinating topic, and in this book the author takes the reader through the early years of the twentieth century when Hollywood monopolized the industry. Edison's Kinetoscope enthralled the public, and motion picture exhibitions swept across Canada.

**She Animates** Lora Mjolsness, Michele Leigh, 2021-02-02 *She Animates* examines the work of twelve female animation directors in the Soviet Union and Russia who have long been overlooked by film scholars and historians. Our approach examines these directors within history, culture, and industrial practice in animation. In addition to making a case for including these women and their work in the annals of film and animation history, this volume also makes an argument for why their

work should be considered part of the tradition of women's cinema. We offer textual analysis that focuses on the changing attitudes towards both the woman question and feminism by examining the films in light of the emergence and evolution of a Soviet female subjectivity that still informs women's cinema in Russia today. Guidebook to Film Ronald Gottesman, Harry M. Geduld, 1972. The Faber Book of Mexican Cinema Jason Wood, 2021-06-01. Twelve years ago Amores Perros erupted in the cinemas across the world and announced the arrival of Mexican film makers. The film makers profiled in that book have now come of age and have made a decisive impact on the international cinema scene. The last few years Mexican film makers winning the Best Director Oscars 5 times and Best Picture 4 times Alfonso Cuarón with Gravity and Roma Alejandro Inarritu with Birdman and The Revenant Guillermo del Toro with The Shape of Water. This revised edition of The Faber Book of Mexican Cinema brings this astounding story up to date as well as profiling the next generation waiting in the wings.

**Shadow Economies of Cinema** Ramon Lobato, 2019-07-25. How do people access movies today? What are the most popular and powerful channels for media distribution on a global scale? How are film industries changing in the face of media convergence and digitisation? To answer questions such as these argues Ramon Lobato we must shift our gaze away from the legal film business and toward cinema's shadow economies. All around the world films are bought from roadside stalls, local markets and grocery stores; they are illegally downloaded and streamed; they are watched in makeshift video clubs on street corners and in restaurants, shops and bars. International film culture in its actually existing forms is a messy affair and it relies to a great extent on black and grey media markets. Examining the industrial dynamics of these subterranean film networks across a number of different sites from Los Angeles to Lagos, Melbourne to Mexico City, this book shows how they constitute a central rather than marginal part of audiovisual culture and commerce. Combining film industry analysis with cultural theory, Shadow Economies of Cinema opens up a new area of inquiry for cinema studies, putting industry research into dialogue with wider debates about economic informality and commodity circulation. Written in an accessible style, this book offers an original bottom-up perspective on the global cinema industry for researchers and students in film studies, cultural studies and media and communications.

**Teaching Religion and Film** Gregory J. Watkins, 2008-08-22. In a culture increasingly focused on visual media, students have learned not only to embrace multimedia presentations in the classroom but to expect them. Such expectations are perhaps more prevalent in a field as dynamic and cross-disciplinary as religious studies, but the practice nevertheless poses some difficult educational issues: the use of movies in academic coursework has far outpaced the scholarship on teaching religion and film. What does it mean to utilize film in religious studies and what are the best ways to do it? In Teaching Religion and Film, an interdisciplinary team of scholars thinks about the theoretical and pedagogical concerns involved with the intersection of film and religion in the classroom. They examine the use of film to teach specific religious traditions, religious theories and perspectives on fundamental human values. Some instructors already teach some version of a film and religion course and many have integrated film as an ancillary to achieving central course

goals This collection of essays helps them understand the field better and draws the sharp distinction between merely watching movies in the classroom and comprehending film in an informed and critical way *Film Editing: History, Theory and Practice* Don Fairservice, 2001 This comprehensive examination of the film editor's craft traces the development of editing from the primitive forms of early cinema through the upheavals caused by the advent of sound Don Fairservice explores the challenges to convention that began in the 1960s and which continue to the present day New digital technologies and the dominance of the moving image have produced a radical rewriting of the rules of audio visual address This detailed study outlines a fascinating history and presents the how's and why's of film editing and its complexities in our modern age Cinema Treasures Ross Melnick, Andreas Fuchs, 2004 More than 100 years after the first movie delighted audiences movie theaters remain the last great community centers and one of the few amusements any family can afford While countless books have been devoted to films and their stars none have attempted a truly definitive history of those magical venues that have transported moviegoers since the beginning of the last century In this stunningly illustrated book film industry insiders Ross Melnick and Andreas Fuchs take readers from the nickelodeon to the megaplex and show how changes in moviemaking and political social and technological forces e.g. war depression the baby boom the VCR have influenced the way we see movies Archival photographs from archives like the Academy of Motion Picture Arts and Sciences and movie theater ephemera postcards period ads matchbooks and even a barf bag sourced from private collections complement Melnick's informative and engaging history Also included throughout the book are Fuchs' profiles detailing 25 classic movie theaters that have been restored and renovated and which continue to operate today Each of these two page spreads is illustrated with marvelous modern photographs many taken by top architectural photographers The result is a fabulous look at one way in which Americans continue to come together as a nation A timeline throughout places the developments described in a broader historical context We've had a number of beautiful books about the great movie palaces and even some individual volumes that pay tribute to surviving theaters around the country This is the first book I can recall that focuses on the survivors from coast to coast and puts them into historical context Sumptuously produced in an oversized format on heavy coated paper stock this beautiful book offers a lively history of movie theaters in America an impressive array of photos and memorabilia and a heartening survey of the landmarks in our midst from the majestic Fox Tucson Theatre in Tucson Arizona to the charming jewel box that is the Avon in Stamford Connecticut I don't know why but I never tire of gazing at black and white photos they evoke the era of moviemaking and moviegoing I care about the most and this book is packed with them Cinema Treasures is indeed a treasure and a perfect gift item for the holiday season Leonard Maltin Humble or grandiose stand alone or strung together movie theaters are places where dreams are born Once upon a time they were treated with the respect they deserve In their heyday historian Ross Melnick and exhibitor Andreas Fuchs write in Cinema Treasures openings of new motion picture pleasure palaces that would have dazzled Kubla Khan received enormous attention

in newspapers around the country. On top of the publicity they generated, their debuts were treated like the gala openings of new operas or exhibits, with critics weighing in on everything from the interior and exterior design to the orchestra. Handsomely produced and extensively illustrated, *Cinema Treasures* is detailed without being dull and thoroughly at home with this often neglected subject matter. Its title would have you believe it is a celebration of the golden age of movie theaters. But this book is something completely different: an examination of the history of movie exhibition, which the authors accurately call a vastly under-researched topic. *Los Angeles Times* — *Cinema's Sinister Psychiatrists* Sharon Packer, M.D., 2012-09-19. Film history is merged with psychiatric history seamlessly to show how and why bad depictions of mind doctors, especially hypnotists, occur in early film long before Hannibal Lecter burst upon the scene. The German Expressionist Dr. Caligari is not cinema's first psychotic charlatan, but he launches the stereotype of screen psychiatrists who are sicker than their patients. Many film psychiatrists function as political metaphors, while many more reflect real-life clinical controversies. This book discusses films with diabolical drugging, unethical experimentation, involuntary incarceration, sexual exploitation, lobotomies, shock, schlock, conspiracy theories, and military medicine to show how fact informs fantasy and when fantasy trumps reality. Traditional asylum thrillers changed after hospital stays shortened and laws protected people against involuntary commitment. Except for six short golden years from 1957 to 1963, portrayals of bad psychiatrists far outnumber good ones, and this book tells how and why that was.
