culture transatlantic blackness and the interfacing of race class gender and aesthetics The Black Cultural Front Brian Dolinar, 2012-07-09 The Black Cultural Front describes how the social and political movements that grew out of the Depression facilitated the left turn of several African American artists and writers The Communist led John Reed Clubs brought together Black and white writers in writing collectives The efforts of the Congress of Industrial Organizations CIO to recruit Black workers inspired growing interest in the labor movement One of the most concerted efforts was made by the National Negro Congress NNC a coalition of civil rights and labor organizations which held cultural panels at its national conferences fought segregation in the culture industries promoted cultural education and involved writers and artists in staging mass rallies during World War II The formation of a black cultural front is examined by looking at the works of poet Langston Hughes novelist Chester Himes and cartoonist Ollie Harrington While none of them were card carrying members of the Communist Party they all participated in the Left at one point in their careers Interestingly they all turned to creating popular culture in order to reach the black masses who were captivated by the movies radio newspapers and detective novels There are chapters on the Hughes Simple stories Himes detective fiction and Harrington's Bootsie cartoons Collectively the experience of these three figures contributes to the story of a long movement for African American freedom that flourished during the 1930s 1940s and 1950s Yet this book also stresses the impact that McCarthyism had on dismantling the Black Left and how it affected everyone involved Each was radicalized at a different moment and for varied reasons Each suffered for their past allegiances whether fleeing to the haven of the Black Bank in Paris or staying home and facing the House Un American Activities Committee HUAC Yet the lasting influence of the Depression in their work was evident for the rest of their lives **From the Plantation to the Prison** Tara T. Green, 2008 According to George Jackson black men born in the US are conditioned to accept the inevitability of being imprisoned Being born a slave in a captive society and never experiencing any objective basis for expectation had the effect of preparing me for the progressively traumatic misfortune that led so many black men to the prison gate I was prepared for prison It required only minor psychic adjustments As Jackson writes from his prison cell his statement may seem to be only a product of his current status However history proves his point Indeed some of the most well known and respected black men have served time in jail or prison Among them are Martin Luther King Jr Malcolm X Marcus Garvey and Frederick Douglass This book is an examination of the various forms that imprisonment as a social historical and political experience of African Americans has taken Confinement describes the status of individuals who are placed within boundaries either seen or unseen but always felt A word that suggests extensive implications confinement describes the status of persons who are imprisoned and who are unjustly relegated to a social status that is hostile rendering them powerless and subject to the rules of the authorities Arguably confinement appropriately describes the status of African Americans who have endured spaces of confinement which include but are not limited to plantations Jim Crow societies and prisons At specific times these spaces of confinement have been used to oppress African

Abandoning the Black Hero John C. Charles, 2012-12-15 Abandoning the Black Hero is the first book to examine the postwar African American white life novel novels with white protagonists written by African Americans These fascinating works have been understudied despite having been written by such defining figures in the tradition as Richard Wright Zora Neale Hurston James Baldwin Ann Petry and Chester Himes as well as lesser known but formerly best selling authors Willard Motley and Frank Yerby John C Charles argues that these fictions have been overlooked because they deviate from two critical suppositions that black literature is always about black life and that when it represents whiteness it must attack white supremacy The authors are however quite sympathetic in the treatment of their white protagonists which Charles contends should be read not as a failure of racial pride but instead as a strategy for claiming creative freedom expansive moral authority and critical agency In an era when Negro writers were expected to protest their sympathetic treatment of white suffering grants these authors a degree of racial privacy previously unavailable to them White writers

after all have the privilege of racial privacy because they are never pressured to write only about white life Charles reveals that the freedom to abandon the Negro problem encouraged these authors to explore a range of new genres and themes generating a strikingly diverse body of novels that significantly revise our understanding of mid twentieth century black writing

Reckoning Day Jacqueline Foertsch, 2013-08-30 Too often lost in our understanding of the American Cold War crisis with its nuclear brinkmanship and global political chess game is the simultaneous crisis on the nation's racial front Reckoning Day is the first book to examine the relationship of African Americans to the atom bomb in postwar America It tells the wide ranging story of African Americans response to the atomic threat in the postwar period It examines the anti nuclear writing and activism of major figures such as W E B Du Bois Rev Dr Martin Luther King Jr and Lorraine Hansberry as well as the placement or absence of black characters in white authored doomsday fiction and nonfiction Author Jacqueline Foertsch analyzes the work of African American thinkers activists writers journalists filmmakers and musical performers in the atomic decades of 1945 to 1965 and beyond Her book tells the dynamic story of commitment and interdependence as these major figures spoke with force and eloquence for nuclear disarmament just as they argued unassailably for racial equality on numerous other occasions Foertsch also examines the placement of African American characters in white authored doomsday novels science fiction and survivalist nonfiction such as government sponsored forecasts regarding post nuclear survival In these black characters are often displaced or absented entirely in doomsday narratives they are excluded from executive decision making and the stories often triumphant conclusions in the nonfiction they are rarely envisioned amongst the typical American survivors charged with rebuilding US society Throughout Reckoning Day issues of placement and positioning provide the conceptual framework abandoned at ground zero America's inner cities during the height of the atomic threat African Americans were figured in white authored survival fiction as compliant servants aiding white victory over atomic adversity while as historical figures they were often perceived as elsewhere indifferent to the atomic threat In fact African Americans position on the bomb was rarely one of silence or indifference Ranging from appreciation to disdain to vigorous opposition atomic era African Americans developed diverse and meaningful positions on the bomb and made essential contributions to a remarkably American dialogue

The Street Was Mine M. Abbott, 2002-12-19 This book considers a recurrent figure in American literature the solitary white man moving through urban space The descendent of Nineteenth century frontier and western heroes the figure re emerges in 1930 50s America as the tough guy The Street Was Mine looks to the tough guy in the works of hardboiled novelists Raymond Chandler The Big Sleep and James M Cain Double Indemnity and their popular film noir adaptations Focusing on the way he negotiates racial and gender otherness this study argues that the tough guy embodies the promise of an impervious white masculinity amidst the turmoil of the Depression through the beginnings of the Cold War closing with an analysis of Chester Himes whose Harlem crime novels For Love of Imabelle unleash a ferocious revisionary critique of the tough guy tradition

The Afro-Latino Memoir Trent

Masiki,2023-08-29 Despite their literary and cultural significance Afro Latino memoirs have been marginalized in both Latino and African American studies Trent Masiki remedies this problem by bringing critical attention to the understudied African American influences in Afro Latino memoirs published after the advent of the Black Arts movement Masiki argues that these memoirs expand on the meaning of racial identity for both Latinos and African Americans Using interpretive strategies and historical methods from literary and cultural studies Masiki shows how Afro Latino memoir writers often turn to the African American experience as a model for articulating their Afro Latinidad African American literary production expressive culture political ideology and religiosity shaped Afro Latino subjectivity more profoundly than typically imagined between the post war and post soul eras Masiki recovers this neglected history by exploring how and why Black nationalism shaped Afro Latinidad in the United States This book opens the border between the canons of Latino and African American literature encouraging greater intercultural solidarities between Latinos and African Americans in the era of Black Lives Matter
