Sex and the Singular English Alan Bestic, 1972-01-01

The Feminist Critique of Language Deborah Cameron, 1998

First Published in 1998 Routledge is an imprint of Taylor Francis an informa company **The Nature of the Sexes** Tomás Bogardus, 2025-09-15 How complex is sex According to this book not nearly as complex as we are often told these days Author Tom s Bogardus first critically evaluates varieties of a complex view of sex supported by Anne Fausto Sterling Sarah Richardson and others in which sex is a constellation of traits related to chromosomes hormones gonads and phenotypes Bogardus then considers several gamete based accounts of sex to which he is more sympathetic including those from Alex Byrne Laura Franklin Hall and Paul Griffiths Shortcomings of these views are described and an improved account is proposed the sexes are activated higher order functions In short to be male is to have the function of producing sperm and to be female is to have the function of producing eggs Bogardus develops this view all while untangling the various meanings and definitions of gender and gender identity and while examining whether all of them are ultimately defined in terms of the sexes The author then defends his methodology of deferring to biologists when figuring out the nature of the sexes and concludes with practical questions about whether we should revise the meanings of our sex terms for the sake of social justice He asks whether pronouns like he and she track biological sex and whether they should continue to do so The Nature of the Sexes Why Biology Matters expands current philosophical debate on sex and gender and is essential reading for curious students and academics alike Sex and Character Otto Weininger, 2005-04-14 Otto Weininger s controversial book Sex and Character first published in Vienna in 1903 is a prime example of the conflicting discourses central to its time antisemitism scientific racism and biologism misogyny the cult and crisis of masculinity psychological introspection versus empiricism German idealism the women s movement and the idea of human emancipation the quest for sexual liberation and the debates about homosexuality Combining rational reasoning with irrational outbursts in the context of today s scholarship Sex and Character speaks to issues of gender race cultural identity the roots of Nazism and the intellectual history of modernism and modern European culture This new translation presents for the first time the entire text including Weininger s extensive appendix with amplifications of the text and bibliographical references in a reliable English translation together with a substantial introduction that places the book in its cultural and historical context Sex, the Illustrated History: Through Time, Religion, and Culture John R. Gregg, 2018-07-30 Sex the Illustrated History Volume III continues a courageous exploration of sexual customs and conflicts into the modern world This work explores the fight for sexual freedom in a world of often repressed sexuality The conflict with the church and its control of sexuality and law has stood as a barrier against freedom of human sexuality The focus of this work is primarily the European and American theater as they strive to rise above the ancient precepts that have girdled sexuality The fight was a long and hard fought one prejudice and prudery and claims of morality and law stood rigidly against a new rationalism beginning in the Reformation The book explores in depth

historical and contemporary worldwide slavery forced marriage child brides abuses of the Catholic Church and sexual trafficking Also explored are the history of homosexual movements bisexuality and the larger LGBT movements

**Sex Difference in Christian Theology** Megan K. DeFranza,2015-05-16 How different are men and women When does it matter to us or to God Are male and female the only two options In *Sex Difference in Christian Theology* Megan DeFranza explores such questions in light of the Bible theology and science Many Christians entrenched in culture wars over sexual ethics are either ignorant of the existence of intersex persons or avoid the inherent challenge they bring to the assumption that everybody is born after the pattern of either Adam or Eve DeFranza argues from a conservative theological standpoint that all people are made in the image of God male female and intersex and that we must listen to and learn from the voices of the intersexed among us

**Occasions of Sin** Diarmaid Ferriter,2010-07-09 Ferriter covers such subjects as abortion pregnancy celibacy contraception censorship infanticide homosexuality prostitution marriage popular culture social life and the various hidden Irelands associated with sexual abuse all in the context of a conservative official morality backed by the Catholic Church and by legislation The book energetically and originally engages with subjects omitted from the mainstream historical narrative The breadth of this book and the richness of the source material uncovered make it definitive in its field and a most remarkable work of social history

**The Pragmatics of Personal Pronouns** Laure Gardelle,Sandrine Sorlin,2015-11-15 This volume presents new research on the pragmatics of personal pronouns Whereas personal pronouns used to have a reputation of poor substitutes for full NP s recent research shows that personal pronouns are a fundamental if not universal category whose pragmatics is central to their understanding For instance personal pronouns may indicate attentional continuity or social deixis and take on genre specific pragmatic effects The authors of the present collection investigate such effects and analyse competing forms in context e g she her in subject position as well as their pragmatic functions in an extensive range of genres such as advertising TV series charity appeals mother child interaction or computer mediated communication Moreover one section is devoted to the pragmatics of antecedentless pronouns and so called impersonal personal forms The volume will be of interest to both scholars and students interested in the pragmatics of functional words

*The Psychology of Sex and Gender* Jennifer K. Bosson,Joseph A. Vandello,Camille E. Buckner,2018-01-17 *The Psychology of Sex and Gender* meets the needs of gender science today providing students with fresh contemporary examples balanced coverage of men and women and a grounding in psychological science The dynamic author team of Jennifer K Bosson Joseph A Vandello and Camille E Buckner presents classic and cutting edge research findings historical contexts examples from popular culture cross cultural universality and variation and coverage of nonbinary identities for a full vibrant picture of the field In keeping with the growing scholarship of teaching and learning SOTL the authors ask students in every chapter to identify and evaluate their own myths and misconceptions participate in

real world debates on topics at the forefront of the field and stop to think critically along the way Students will be talking about this book long after they finish the course carrying new skills forward into their lives and future careers **Love, Sex, and Marriage** Julie Coleman, 2022-06-13 If the language we use influences and reflects the way that we see the world then the fields of LOVE SEX and MARRIAGE will show how speakers of English view their closest social and emotional relationships Love Sex and Marriage provides a classification of English terms for these three fields from the earliest written records of the language until the present day This volume makes it possible to trace changing attitudes towards social and sexual ties and to understand those ties as earlier speakers of English did through the language they used The terms are arranged by meaning and are listed chronologically within semantic fields with their dates of usage Notes on individual terms provide further information about their connotations and development Language does not exist in isolation from the people who speak it so background information about changes in social conditions religious beliefs and medical advancements is also included A brief introduction to basic semantic terminology explains the principles behind the classification and an alphabetical index facilitates the location of individual terms *Current Issues in Descriptive Linguistics and Digital Humanities* Moses Effiong Ekpenyong, Imelda Icheji Udoh, 2022-11-30 This book is a convergence of heterogeneous insights from languages and literature history music media and communications computer science and information studies which previously went their separate ways now unified under a single framework for the purpose of preserving a unique heritage the language In a growing society like ours description and documentation of human and scientific evidence resources are improving However these resources have enjoyed cost effective solutions for Western languages but are yet to flourish for African tone languages By situating discussions around a universe of discourse sufficient to engender cross border interactions within the African context this book shall break a dichotomy of challenges on adaptive processes required to unify resources to assist the development of modern solutions for the African domain *Sex Scandal* Ashley McGuire, 2017-02-13 Men and women used to cheer vive la difference But now contrary to all science and common sense we are supposed to believe that there is no difference And if you insist there is you just might be accused of a hate crime Our culture and our laws are endorsing a worldview rooted in craziness For instance we are told that Boys who think they are girls and who could change their minds tomorrow should be allowed to participate in girls sports and shower in their locker rooms Expectant mothers are now birthing individuals Coed college dorm rooms and bathrooms are great but single sex clubs are a campus danger It is horrible for stores to have separate boys and girls clothing departments let alone toy sections It would be a great idea for our military to lower physical standards and push young women and mothers into combat roles in the military If you think that is insanity you are not alone but you might be surprised at just how widespread and successful this lunatic campaign has become In her compelling new book Sex Scandal journalist Ashley McGuire takes this radical campaign to task and reveals How so called gender norming flies in the face of science which is proving that men and women are even

more different than commonly acknowledged Why especially if you have kids it s almost impossible to avoid the dangerous consequences of a gender neutral world How embracing sexual differences can make policing safer government more efficient and hedge funds lose less money How gender neutrality is making women more vulnerable to violence How the word gender formerly a grammatical term has been used to dismiss the reality of definite biological sex male and female with fluid gender identities Why gender insanity is not something we can just ignore and hope will fade away but need to refute now with hard cold facts before it does any more damage which it likely will Sex Scandal The Drive to Abolish Male and Female is packed with news breaking interviews shocking examples and inconvenient facts that everyone needs to read and act on **An American Dictionary of the English Language** Webster,1845 *Making Sex Public and Other Cinematic Fantasies* Damon R. Young,2018-10-04 Beginning in the late 1950s representations of and narratives about sex proliferated on French and U S movie screens Cinema began to display forms of sexuality that were no longer strictly associated with domesticity nor limited to heterosexual relations between loving couples Women s bodies and queer sexualities became intensely charged figures of political contestation aspiration and allegory central to new ways of imagining sexuality and to new liberal understandings of individual freedom and social responsibility In *Making Sex Public* Damon R Young tracks the emergence of two conflicting narratives on the one hand a new model of sex as harmoniously integrated into civic existence on the other an idea of women s and queer sexuality as corrosive to the very fabric of social life Taking a transatlantic perspective from the late 50s through the present from *And God Created Woman* and *Barbarella* to *Cruising* and *Shortbus* Young argues that cinema participated in the transformation of the sexual subject while showing how women and queers were both agents and objects of that transformation *Sex, Lies & Feminism* Peter D. Zohrab,2002 *Counterbalance* Carolyn Logan,1997-04-15 Like other composition readers *Counterbalance* has as its primary purpose to improve thinking reading and writing skills recognizing throughout the degree to which these are inextricably interlinked Where *Counterbalance* differs from almost all other composition readers is in the prominence it gives to writing by women More and more of the writers in modern Western society are women and women now comprise a substantial majority of the students in many undergraduate courses Yet most texts are eighty per cent or more comprised of writing by men As its title suggests this book acts as a counterbalance over three quarters of the essays are by women The feminist stance of *Counterbalance* is unequivocal an important aim of this text is to encourage students to question assumptions about gender But for those to whom the word feminist engenders immediate unease it should be emphasised that the stance of the text is provocative and open minded rather than strident or exclusionary Audre Lorde and bell hooks are here but so is George Orwell The text is also designed as a counterbalance in other respects many of the essays here explore issues of race culture and class Notions of correctness and issues of free speech and responsibility are also treated As a whole the book is thus an invigorating and enormously wide ranging spur to thought and discussion Yet it avoids the scatter gun approach so common to first year

collections Counterbalance retains throughout a focus on language perhaps the one area that all students no matter what their backgrounds and interests can connect to out of their everyday experience The book s thesis is that we can all think more clearly and use language more effectively if we know not only something about the traditional areas of composition and grammar but also something about how language influences us The essays selected demonstrate a variety of expository styles organizations and methods of development They are organized into seven chapters so as to present a coherent progression moving from simpler essays on more familiar topics to more difficult concepts and writing assignments

*Library Journal* ,1972-10      **Sex and Race, Volume 1** J. A. Rogers,2014-09-15 In the Sex and Race series first published in the 1940s historian Joel Augustus Rogers questioned the concept of race the origins of racial differentiation and the root of the color problem Rogers surmised that a large percentage of ethnic differences are the result of sociological factors and in these volumes he gathered what he called the bran of history the uncollected unexamined history of black people in the hope that these neglected parts of history would become part of the mainstream body of Western history Drawing on a vast amount of research Rogers was attempting to point out the absurdity of racial divisions Indeed his belief in one race humanity precluded the idea of several different ethnic races The series marshals the data he had collected as evidence to prove his underlying humanistic thesis that people were one large family without racial boundaries Self trained and self published Rogers and his work were immensely popular and influential during his day even cited by Malcolm X The books are presented here in their original editions      **Same-Sex Unions in Premodern Europe** John Boswell,2013-08-28 Both highly praised and intensely controversial this brilliant book produces dramatic evidence that at one time the Catholic and Eastern Orthodox churches not only sanctioned unions between partners of the same sex but sanctified them in ceremonies strikingly similar to heterosexual marriage ceremonies
