

... is to be used by criminal justice agencies as a guideline for regulatory community notification purposes.

Completed by: _____ Offender Name: _____ Number _____
(Name) (ADC/CJA, or other ID)
Agency: _____ Date: _____ DOB: _____

GENERAL INSTRUCTIONS: Two risk scales will be calculated, including Sex Offense Risk (S) and General Recidivism Risk (G). The combination of the two scales will be used to determine a suggested notification level for the offender. Two risk scores, designated S/G, will be assigned for each of 19 items as indicated below. These scores will be added at the end of the form to arrive at the total assessment score. Unless otherwise noted, use only officially documented data sources (Psd, Dd, NCIC, FBI, prison records); where indicated, self-reported data may be included if considered reliable. Leave items blank that have no information documented only if a reasonable approximation is not possible. In many instances, if data is not available, an item may logically be judged as absent. For example, if alcohol/drug problems are not noted in the case file, item #12 would be scored as A, indicating "no interference with functioning."

DEFINITION OF SEX OFFENSE: STATUTORY CRIMES IDENTIFIED AS SEX OFFENSES

Generally, any prior offense may be defined as a "sex/sex related offense" if the offense appears to have been sexually motivated. Arizona Revised Statutes §13-118 describes a sexually motivated offense as one in which "...one of the purposes for which the defendant committed the crime was for the purpose of the defendant's sexual gratification."

The following predicate offenses appear in Arizona Revised Statutes relating to sex offender registration (§13-1425) and sexually violent persons (§13-1426):
