One Chord Wonders Dave Laing,2015-05-01 Originally published in 1985 One Chord Wonders was the first full length study of the glory years of British punk rock The book argues that one of punk s most significant political achievements was to expose the operations of power in the British entertainment industries as they were thrown into confusion by the sound and the fury of musicians and fans Through a detailed examination of the conditions under which punk emerged and then declined Dave Laing develops a view of the music as both complex and contradictory Special attention is paid to the relationship between punk and the music industry of the late 1970s in particular the political economy of the independent record companies through which much of punk was distributed The rise of punk is also linked to the febrile political atmosphere of Britain in the mid 1970s Using examples from a wide range of bands individual chapters use the techniques of semiology to consider the radical approach to naming in punk from Johnny Rotten to Poly Styrene the instrumental and vocal sound of the music and its visual images Another section analyses the influence of British punk in Europe prior to the music s division into real punk and post punk genres The concluding chapter critically examines various theoretical explanations of the punk phenomenon including the class origins of its protagonists and the influential view that punk represented the latest in a line of British youth subcultures There is also a chronology of the punk era plus discographies and a bibliography

1980s diaspora of anarcho punk Oi and goth He recaptures punk's anarchic force as a medium through which the frustrated and the disaffected could reject revolt and reinvent **Gangs** Jacqueline Schneider, 2017-11-30 The task of researching gangs is fraught with difficulties central to which are issues of definition and reliance on certain forms of data for analyses These methodological issues have been acknowledged as limitations in most of the existing research but they have not been explored as being potentially serious flaws contributing to the proliferation of myth or as aggravating factors that exacerbate what is essentially a relatively uncomplicated social process Also unclear from existing studies is the extent to which suppositions about gangs feed moral panics or contribute to the misidentification or over specification of a problem This captivating volume focuses on gangs their formation identity and behaviour with a view to developing a preventive strategy

collage a partir de entrevistas con todos los miembros y exmiembros del grupo familiares amigos y colaboradores el fascinante diario íntimo de la secretaria del polímico manager Malcolm McLaren extractos de la incendiaria prensa que vertió todo el odio y los prejuicios del establishment sobre la banda y cartas de fans entre otros materiales el presente volumen es un originalísimo polidrico y vistoso artefacto punk aderezado con el material gráfico que creó para el grupo el inclasificable Jamie Reid y un buen número de fotografías Como dicen los autores este libro es lo más cerca que estuvieron los Sex Pistols de contar su propia historia
