Sex and Marriage in Ancient Ireland Patrick C. Power,1993 The Norman king Henry II came to Ireland in the 12th century with the intention of converting the Irish to the True Faith What type of society had he come to convert The outside accepted view was that Irish people were near savages and that their marriage customs caused them to be regarded as incestuous so that the invasion in the eyes of the invaders was in the nature of God s work to redeem the people from their abominations and iniquities

Curious Customs of Sex & Marriage George Ryley Scott,1995 The ceremony of marriage is central to every culture and there are more superstitions and strange rites attached to it than most other cultural institutions This books gathers extraordinary facts about marriage from around the world Publisher s description **Albion's Seed** David Hackett Fischer,1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States from the earliest English settlements to our own time It is a history of American folkways as they have changed through time and it argues a thesis about the importance for the United States of having been British in its cultural origins While most people in the United States today have no British ancestors they have assimilated regional cultures which were created by British colonists even while preserving ethnic identities at the same time In this sense nearly all Americans are Albion s Seed no matter what their ethnicity may be The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988 and still help to shape attitudes toward education government gender and violence on which differences between American regions are greater than between European nations

The Globalization of God Dara Molloy,2015-11-10 Roman Catholicism

was the first multinational corporation Preaching was the forerunner of advertising Roman Catholicism created the template for the spread of commercial globalisation through multinational corporations For global Christianity to succeed all local expressions of Christianity had to be suppressed These included Celtic Christianity For 800 years the Roman church tried to break the independent spirit of Celtic Christianity Despite being defeated in 1014 at the Battle of Clontarf the Irish Vikings through their urban bishops were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century There was an invasion of Norman monks to Ireland which began in 1142 twenty five years before the military invasion in 1167 The ecclesiastical colonisation of Ireland meant that a Roman episcopal and diocesan structure replaced the Celtic monastic structure Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force no Irishman was allowed to become a bishop or attain any ecclesiastical high office St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland Monotheism is the mythical container for globalization Humans will fail to return to a sustainable way of living on this planet until the mythological container of monotheism is replaced by new bioregional spiritualities that go beyond both monotheism and polytheism

Being Single in the Church Today Philip Wilson,2005-11-01 The model of the nuclear family unit once the

norm is now only one of many different forms of family Fifty percent of the population in the US right now is single In this original and readable book Philip Watson examines the phenomenon of singleness in contemporary society and its implications for ministry Wilson traces the history of the church's attitudes towards marriage and sexuality from the early Church Fathers through the Reformation In a series of direct interviews he probes how single people today feel within their church communities His findings reveal that the vast majority of those questioned feel they are something of an embarrassing anomaly in communities that continue to prize marriage Finally Wilson begins to develop a framework for a more nuanced approach to the subject of sexuality and relationships and suggests ways in which the church as primarily a community of love can become the best forum in which single life can be discussed articulated assisted and faithfully lived out

The Psychology of Sex (Vol. 1-6) Havelock Ellis, 2020-12-17 This edition contains three studies which seem to me to be necessary prolegomena to that analysis of the sexual instinct which

must form the chief part of an investigation into the psychology of sex The first sketches the main outlines of a complex emotional state which is of fundamental importance in sexual psychology the second by bringing together evidence from widely different regions suggests a tentative explanation of facts that are still imperfectly known the third attempts to show that even in fields where we assume our knowledge to be adequate a broader view of the phenomena teaches us to suspend judgment and to adopt a more cautious attitude So far as they go these studies are complete in themselves their special use as an introduction to a more comprehensive analysis of sexual phenomena is that they bring before us under varying aspects a characteristic which though often ignored is of the first importance in obtaining a clear understanding of the facts the tendency of the sexual impulse to appear in a spontaneous and to some extent periodic manner affecting women differently from men This is a tendency which later I hope to make still more apparent for it has practical and social as well as psychological implications Here and more especially in the study of those spontaneous solitary manifestations which I call auto erotic I have attempted to clear the ground and to indicate the main lines along which the progress of our knowledge in these fields may best be attained
