## **Sex In Christianity Psychoanalysis:**

*Sex in Christianity and Psychoanalysis* William Graham Cole, 2015-11-06 Originally published in 1956 this survey of the interpretations of sex by the major figures in Christian thought and in psychoanalysis made an important contribution to the re thinking of our sexual morality at the time The author refutes the common belief that the negative attitude toward sex and the body which had been predominant in western civilization originated with Christianity He shows that such a viewpoint was widespread in the early Hellenism Age nearly three centuries before Christ He emphasizes the essentially positive view which Biblical religion demands and shows how Christianity's attitude early became corrupted by the dualism of the Orient He points to the need for a return to essential naturalism and the Biblical interpretation of sex The first part of the book consists of a historical treatment in the Christian tradition touching upon the teaching of Jesus Paul Augustine Aquinas Luther Calvin and others He analyses the classical and contemporary attitudes and ideas in both Catholic and Protestant circles and shows how Christian understanding comes into conflict with psychoanalysis In the later portions of the book the author discusses sex and psychoanalysis and the major problems in sexual mores He ends with a synthesis of the religious and psychoanalytic points of view and a critical reconstruction of a Christian interpretation

**Interpretation of Sex in Christianity and Psychoanalysis** William Graham Cole, 1954      The Dangerous Sex Hoffman R Hays, 2023-07-07 First published in 1966 The Dangerous Sex shows how the irrational concept of the dangerous sex evolved and how it was and is used by man to maintain his dominance He examines sexual practices and beliefs marriage customs and rituals and social behaviour in every society and every age from pre historic times to the present day The result is a revealing picture of the deep seated male hostility that generates the way of the sexes and has fed it throughout human history It is also a blazing indictment of this ingrained psycho social pattern as it unconsciously destroys and disrupts huge areas of human happiness In this enquiry into misogyny H R Hays suggests that men must face their own compulsions before a true and balanced relation between the sexes is achieved This book therefore throws a new light on the problems of feminism the feminine mystique and the whole controversy concerning the place of women in society and will be of interest to students of literature gender studies anthropology and psychology      **A Guide for Christian Sex Education of Youth**

Thomas Edwards Brown, 1968      Sex In The Head Linda R. Williams, 2016-07-01 In Sex in the Head Linda Ruth Williams uses psychoanalysis and recent feminist film theory to analyze a network of ideas which link looking with sexuality and difference in the work of a writer who disavowed yet covertly enjoyed the pleasures and power of vision The book is a departure from the long history of feminist readings of Lawrence in that it discusses his engagement with theories of the gaze and its cultural forms cinema photography painting and the visual dynamics and metaphors of literary texts as a way of thinking through gender It shows him arguing on the one hand against the evils of cinema and visual sex while relishing

through the eyes of women the moving spectacle of those male bodies which populate the pages of his books It also questions what it is about the work of such an adamant cinephobe which has made it so thoroughly adaptable for film and television

**The Challenges of Integrating Religion and Spirituality into Psychotherapy** Francis A. Martin,2024-04-23 This book examines personal and professional understandings of religion in psychotherapy and advocates for integrity competency and cultural pluralism in clinical practice A major feature of this book is that it confirms the massive proliferation of religion oriented approaches to counseling and therapy in recent years It attributes this rise to opportunism and exaggerated individualism among therapists and to the frequent failures of professional associations clinical preparation programs and other influences In response to these influences it identifies the need for guiding principles for integrating religion into therapy discusses the religious issues that clients bring to therapy and advocates for major changes in clinical practice with emphasis on integrity and competence Building on a large volume of research and using evidence based conclusions it clarifies how these two major features of contemporary life can be integrated with integrity and competence The author maintains that religion should be a feature of the practice of counseling and therapy so long as it addresses the clinically relevant needs of clients However it also explores how the religion of counselors and therapists often expresses the needs of counselors and therapists instead of addressing the needs of their clients In the context of these questions and discussion of contentious challenges this book provides guidelines for relating religion with clinical practice and recommends needed actions by clinical preparation programs professional associations individual therapists state legislatures licensing boards social service agencies and corporations All

*Christian Atheism* Slavoj Žižek, 2024-04-04

If we want to be true atheists do we have to begin with a religious edifice and undermine it from within Slavoj i ek has long been a commentator on and critic of Christian theology His preoccupation with Badiou s concept of the event alongside the Pauline thought of the New Testament has led to a decidedly theological turn in his thinking Drawing on traditions and subjects as broad as Buddhist thought dialectical materialism political subjectivity quantum physics AI and chatbots this book articulates i ek s idea of a religious life for the first time Christian Atheism is a unique insight into i ek s theological project and the first book length exploration of his religious thinking In his own words to become a true dialectical materialist one should go through the Christian experience Crucial to his whole conception of experience is not some kind of spiritual revelation but rather the logic of materialistic thought This affirmation of Christian theology whilst simultaneously deconstructing it is a familiar i ekian move but one that holds deep seated political philosophical and in the end personal import for him Here is i ek s most extensive treatment of theology and religion to date
