Love An Unromantic Discussion:

Love Mary Evans, 2002-12-13 Since the end of the eighteenth century the pursuit of true love has been enshrined in the expectations of Western societies We regard this pursuit as our right and organize our lives around it However the possibility that love is becoming more difficult to achieve in the West has begun to attract considerable attention The consensus is that love is both deeply desirable and extremely difficult to find This highly original book explores two aspects of the nature of the apparently socially essential glue of love The first theme concerns the sources of our ideas about love where the concept originated and most importantly what its relationship has been to morality and moral systems The second theme is our determination to find love whatever the social and personal costs the desire for identification with another person drives us to impossible expectations and occasionally damaging alternatives In a compelling critique this book rejects the high romantic version of love as well as what could be described as a contractual version of love In their place it describes a love that depends upon reasoned care and commitment and argues that we should abandon love in its romanticized and commercialized form

Atheism and Love in the Modern Era Colby Dickinson, 2025-04-17 Discussing the decline of faith and the rise of love in the modern era Colby Dickinson proposes a critique of religious belief which addresses how a secular world can continue to mine religious traditions for their conceptual and emotional riches *Atheism and Love in the Modern Era* argues that theism and atheism taken together can peel back the layers of abstraction alienation and disillusionment that always accompany our humanity in order to help us really see how it is to exist in this world To illuminate this vision Dickinson takes up the notion of love as a cultivation and practice of indifference as a letting go of one's identity a crucial concept that unites both religion and atheism through a concerted effort to detach from them both The book is organized into four sections each situating the concept of love in relation to a distinct theme the first outlines modern secularized versions of various religious concepts such as technology in the place of miracles or art in the place of religious

revelation The second argues that in a pluralistic world the actual lived realities of various religious communities and persons defy the static categories and classifications grouped under the umbrella of religion The third section discusses and defines non absolute love The fourth section discusses how atheism in its critiques of religion misses the significance of de centring the act of love Dickinson elaborates his reflections through lucid engagement with a variety of thinkers including i ek Agamben Irigaray Derrida Erich Fromm Charles Taylor and Philip Kitcher This is essential reading for those interested in popular debates around theism and atheism as well as those concerned with the ways in which continental and analytic philosophy have addressed the continued significance of religious traditions

Erotic Love in Sociology, Philosophy and Literature Finn Bowring, 2019-08-22 Why is love taken for granted as a part of human experience And why is sexual or romantic love in particular so important to us This book aims to find out tracing the intellectual history of sexual love from the ancient Greeks to the modern day Erotic Love in Sociology Philosophy and Literature shows how discourses of love have intersected with social and cultural trends as well as with personal events and experiences Beginning with the queering of love in Greek antiquity it looks at how sexual love has been sung about fictionalized and theorized as a cornerstone of the formation of Western culture From the courtly love of twelfth century troubadours and the rise of affective individualism in the eighteenth century to the way the novel helped catalyze and crystallize the hopes and contradictions of love and marriage these are decisive episodes in the history of romantic love Lastly the book deals with how sociologists and feminist theorists have made sense of the liberalization of sexuality over the last fifty years especially given the post romantic pragmatism of commercialized dating practices Arguing against the over rationalism of intimate life Erotic Love in Sociology Philosophy and Literature recognizes the need to liberate love from patriarchal racist and homophobic prejudices and highlights the value of literary and sociological traditions to emphasize how they dignify the rhapsodies and the sufferings of love

Love: Bondage or Liberation? Deirdre Johnson, 2018-03-26 Much has been written about the function of falling in love in the course of therapy itself This book has a much broader aim The author a Jungian analyst and psychotherapy trainer uses her teaching and clinical experience to illuminate the whole range of this near universal human experience How and why does falling in love affect us so profoundly How can it enhance who we are or must it ultimately fade without lasting value The author argues that the many valuable studies by psychoanalysts relational psychologists anthropologists neuroscientists and philosophers have all made valuable contributions and uses these to highlight and explore the many values and dangers inherent in passionate love However she claims that a more holistic approach is required to show how these various accounts can be seen as complementary rather than competing and can be accommodated within an overarching view of the integration of the human being in its heights and depths

Romantic Agency Luke Brunning, 2024-04-24 This is a book for people energized by the possibilities of modern intimacy but who feel unsure about their own romantic lives Alternative lifestyles such as nonmonogamy while liberating in theory can feel remote in practice as we are fixed in place by insecurities and social pressures In Romantic Agency philosopher Luke Brunning encourages readers to think more deeply about what it means for relationships to not only work but flourish Guided by the thought that our abilities to be intimate cannot be taken for granted he argues that our romantic agency is fragile and best cultivated alongside other people Together we can become more realistic balance playfulness with integrity and value each other s flourishing Anyone can benefit from this exploration of intimate life regardless of their relationship status or romantic ideals Compelling and timely Romantic Agency is a groundbreaking account of love and relationships

Modern Couples? Jenny van Hooff,2016-04-15 Have heterosexual relationships become more intimate and equal over the past forty years Simply put this is the central question underpinning this book Within the context of late modern social processes including most notably individualization and detraditionalization authors such as Giddens Beck and Beck Gernsheim and Bauman have come to focus on a posited transformation of personal relationships This has culminated in a sociological debate over the nature of contemporary relationships with proponents of change celebrating the emergence of an intimacy based on personal satisfaction rather than traditional obligations Detractors reject this interpretation and instead lament what they consider to be the destruction of commitment and the demoralisation of personal relationships by the rise of individualism and consumerism While these two entrenched positions have dominated the debate a third marginalised perspective has emerged which questions the extent to which contemporary relationships have become detraditionalized and emphasises evidence of continuing gender inequalities This book is essentially a qualitative empirical investigation of the changes and continuities posited within the debate which evaluates existing work and details the findings of van Hooff s research into the relationships of two generations of heterosexual couples It provides the reader with a grounded interpretation of the evidence questioning to what extent lived reality has matched the rhetoric within contemporary relationships
