Phenomenology of the Devout Life George Pattison,2018-11-10 *A Phenomenology of the Devout Life* is the first part of a three part work *A Philosophy of Christian Life* Rather than approaching Christianity through its doctrinal statements as philosophers of religion have often done the book starts by offering a phenomenological description of the devout life as that is set out in the teaching of Francois de Sales and related authors This is because for most Christians practice and life commitments are more fundamental than formal doctrinal beliefs Although George Pattison will address the metaphysical

truth claims of Christianity in Part three the guiding argument is that it is the Christian way of life that best reveals what these beliefs really are As the work is a philosophical study it does not presuppose the truth of Christianity but assumes only that there is a humanly accessible meaning to the intention to live a devout life pleasing to God This can be said to find expression in a certain view of selfhood that emphasizes the dimensions of feeling and will rather than intellect and that culminates in the experience of the annihilation of self This is a model of selfhood deeply opposed to contemporary models that privilege autonomous agency and the devout life is therefore presented as offering a corrective to extreme versions of the contemporary view **Poems** Alfred Tennyson Baron Tennyson,1898 **Once a Week** S.
