Love Death And Money In The Pays Doc:

Love, Death and Money in the Pays D'Oc Emmanuel Le Roy Ladurie, 1984 **Love, Death and Money in the Pays D'Oc** Emmanuel Le Roy Ladurie, 1984 **A Negotiated Settlement** Joseph F. Patrouch, 2021-10-25 The changes associated with reformed Catholicism in the decades around 1600 and how they affected men and women can only be understood by looking at the interactions between politics and social and religious requirements on a local level This study first of all sketches the Austrian rural territory that will be analyzed Next the local administrative disputes are outlined The third chapter looks closely at one monastery estate while chapter four details the administrators responsible for the implementation of policies The concluding chapter concentrates on the experiences of women Religious cultural and women s historians interested in rural social transformations in the early modern period will find this an important book The political landscape which stretched from the Council of Trent to the bodies of pregnant girls proved to be exceedingly complex This local study of the Counter Reformation makes use of a variety of previously unexamined archival sources Christianity and Community in the West Simon Ditchfield, 2017-03-02 How did Christians in early modern Western Europe express their sense of community This book explores the various ways in which religious identities were defined developed and defended within both Protestant and Roman Catholic contexts in England and on the Continent over a period vital for the history of Christianity As such it will be of interest not only to historians of religion but also to students of social and cultural history in general **Imperfect Histories** Ann Rigney, 2018-09-05 Imperfect Histories puts imperfection at the heart of a theory of historical representation Ann Rigney shows how historical writing involves dealing with intractable subjects that resist our efforts to know and to shape them Those who write history she says engage in an ongoing struggle to match up what they find relevant in the past with the information and interpretive models at their disposal Chronic dissatisfaction is at the heart of historical practice This is especially evident in the various attempts made over the last two centuries to write an alternative history of everyday experience Focusing on historical writing in the last decades of the eighteenth century and the first half of the nineteenth Rigney analyzes a wide range of works by Walter Scott Jules Michelet Augustin Thierry and Thomas Carlyle She shows how the attempt to write an alternative history brought historical writing into a close yet fraught relationship with literature The result is a new account of that relationship as it took shape in the romantic period and as it continues to influence contemporary practices **Local Transcendence** Alan Liu, 2009-08-01 Driven by global economic forces to innovate today s society paradoxically looks forward to the future while staring only at the nearest most local present the most recent financial quarter the latest artistic movement the instant message or blog post at the top of the screen Postmodernity is lived it seems at the end of history In the essays collected in Local Transcendence Alan Liu takes the pulse of such postmodern historicism by tracking two leading indicators of its acceleration in the late twentieth and early twenty first centuries postmodern cultural criticism including the new historicism the new cultural history cultural

anthropology the new pragmatism and postmodern and postindustrial theory and digital information technology What is the relation between the new historicist anecdote and the database field Liu asks and can either have a critical function in the age of postmodern historicism Local Transcendence includes two previously unpublished essays and a synthetic introduction in which Liu traverses from his earlier work on the theory of historicism to his recent studies of information culture to propose a theory of contingent method incorporating a special inflection of history media history Revival: The Highlanders of Central Asia: A History, 1895-1937(1993) Jerome Ch'en,2017-09-29 Examining the importance of regional differences in China's history this text details the social economic and political conditions of the central highlands at the end of the 19th century and the early part of the 20th Thus the nature and development of modern Chinese rural society is studied The Patriots and the People Allan Greer,1993-12-15 The Lower Canadian Rebellion of 1837 has been called the most important event in pre Confederation history Previously it has been explained as a response to economic distress or as the result of manipulation by middle class politicians Lord Durham believed it was an expression of racial conflict emThe Patriots and the People is a fundamental reinterpretation of the Rebellion Allan Greer argues that far being passive victims of events the habitants were actively responding to democratic appeals because the language of popular sovereignty was in harmony with their experience and outlook He finds that a certain form of popular republicanism with roots deep in the French Canadian past drove the anti government campaign Institutions such as the militia and the parish played an important part in giving shape to the movement and the customs of the maypole and charivari provided models for the collective actions against local representatives of the colonial regime In looking closely into the actions motives and mentality of the rural plebeians who formed a majority of those involved in the insurrection Allan Greer brings to light new causes for the revolutionary role of the normally peaceful French Canadian peasant By doing so he provides a social history with new dimensions Guy of Warwick and Other Chapbook Romances John Simons,1998 Chapbooks formed the staple reading matter of ordinary people during the 18th and much of the 19th centuries These chapbooks derive from romances which were current in the Middle Ages or the Renaissance **Modern Historiography** Michael Bentley,2005-08-19 Modern Historiography is the essential introduction to the history of historical writing It explains the broad philosophical background to the different historians and historical schools of the modern era from James Boswell and Thomas Carlyle through to Lucien Febvre and Eric Hobsbawm and surveys the Enlightenment and Counter Enlightenment Romanticism the voice of Science and the process of secularization within Western intellectual thought the influence of and broadening contact with the New World the Annales school in France Postmodernism Modern Historiography provides a clear and concise account of this modern period of historical writing
