Scotland Peter Waller,2016-02-29 Waller dips successfully into the social history north of the border during the first half of the twentieth century when trams were the urban transport kings Evergreen Focusing on Scotland this book provides an overview of the history of tramways north of the border from the 1940s when the first horse drawn service linking Inchtute village to Inchtute station opened through to the closure of the last traditional tramway Glasgow in 1962 Concentrating on the big city systems that survived the Second World War Aberdeen Dundee Edinburgh and Glasgow the book provides a comprehensive narrative detailing the history of these operations from 1945 onwards with full fleet lists maps and details of route openings and closures The story is supported by some 200 illustrations both colour and black and white many of which have never been published before that portray the trams that operated in these cities and the routes on which they operated Bringing the story up to date the book also examines the only second generation tramway yet to be built in Scotland the controversial system recently constructed in Edinburgh as well as informing readers where it is still possible to see Scotland's surviving first generation trams in preservation An outstanding book To leaf through the pages of this book is therefore to

take a journey back in time to an era that can now be remembered by a diminishing number of people To see that era brought to life in such a vivid and immediate way is a real joy a superbly researched history of trams in Scotland Undiscovered Scotland **Midlands & Southern England** Peter Waller,2018-08-30 This volume is the latest in a series of tramway books covering Britains post war tram networks The book covers the systems that survived the Second World War in the Midlands and Southern England except London which will have a separate book This extensive volume covers all the post war systems from their inception through to closure with a superb range of images many of which are previously unpublished depicting each operation from horse tram days through to the end In addition the comprehensive introduction provides an overview of the myriad other systems that once operated in the region but which did not survive after 1945 featuring such notable towns and cities as Bristol Coventry and Norwich Also included in the volume are accounts of the two second generation systems to operate in the area Midland Metro and Nottingham Express Transit
